Office, corner Court and Liberty Streets.

JULY 12, 1889 FRIDAY

RETARD INVENTIONS.

Erastus Wimman, on the subject of telegraphs and telephones, in an address recently said, among other things, that it was a great blessing that the telegraph and telephone were early diiscovered, "because I do not believe that the telephone would ever have been developed to onequarter the extent to which it has been developed if it had been dopendent on the telegraph," To which The Electric World adds, "and those are exactly our sentiments." Mr. Winman goes on to show a little later how the Western Union company discourages invention. "To-day the Lord help the man who goes to the Western Union with a new scheme," says Mr. Winman. What electricity stands in need of to-day is not the repressive spirit that sits down at once on the man with the new idea, but the encouraging spirit that tenders a helpful hand to every inventor of genius her ruddy and golden red butter to and high aspiration. We shall never have too many inventions in electricity, the World adds, but under the regime of Mr. Winman's trust there would soon be too few. Our patent record, week by week, shows pers out to grass. how active is intention in the elecrical fields. What would be the stimulus or encouragement to all these persevering inventors, pro- to feed about 300 hogs each year, you do so, who knows but he may

In the city of Portland and other prosperous towns are those owned by men or corporations who have the disposition and ability to improve them.

HIGHLAND ADDITION

And this Corporation is determined to

To the city of Salem. They have at this time fifteen teams employed and the contemplated improvements have searcely begun. It is intended to make the drive leading from Commercial street through Riverside and High-land additions and around Highland Park

THE FINEST DRIVE IN THE STATE

Of Oregon. The line of the Salem Street Railway Company runs through the middle of this addition, and no lots will be more than two blocks distant from the line. Highland Park will in the near tuture be

THE MOST POPULAR RESORT

ABOUT THE CITY OF SALEM.

Lots in Highland Additon are High and Dry and Well Located; Most Excellent Drainage

The soil is black and rich. From all points a fine view is obtained of the public buildings and our highest mountain peaks. Arrangements are already being made for the location of two churches in this addition, and a number of residences are soon to be built. Buildings only of the best class will be permitted. Residence lots within the limits of the city of Salem are worth on an average over \$1000. We can sell you better lots in High-land addition for one-third of the money, and being directly on the line of the street railway they are practi-cally not half so far from the public buildings and the business part of the town as the majority of the socalled "inside lots."

Buy a Lot in Highland Addition for Three Hundred Dollars,

And let some other fellow pay \$1000 for an inferior lot not so well located. With the difference of \$700 you can build a beautiful cottage, or put it out at a rate of interest that will buy you nearly two thousand street car tickets every year.

The Age of Modern Man.

People are fond of saying that "Mankind is growing wiser and weaker." But is it really so? Let us glance at the facts. According to the latest statistics there are more contenarians now living than at any previous time in the history of the world. Why? Because of the great liscoveries in medical science which afford him immunity from diseases that formerly devastated mankind.

"Who is H. H. Warner, of Roches ter, N. Y., whose Safe Remedies, ca-pecially Warner's Safe Cure, have attained such success and celebrity at home and abroad ?"

The question is inspired as much by affection as curiosity, since through his instrumentality hundreds of thousands, in both hemispheres, have been restored to health and happi ness

Hon. H. H. Warner, then, is a leading and honored resident of Rochester, not only, but a prominent and influential citizen of the United States. On several occasions chosen by his party as a National delegate to minate a President of the Republic, he has been a member of the Repub-can State Committee and of its Executive Committee. He is a member of the American Institution for the Advancement of Science; President of the Rochester Chamber of Commerce; a successful and upright business man. He has given away fortunes in charities. The celebrated and costly Warner Observatory of Rochester was conceived, endowed, and is maintained by him. His munificent prizes for the discovery of comets has been at once the wonder and delight of the scientific world.

and delight of the scientific world. The yellow fever scourage in the South, the Obio floods, the fire dis-asters of Rochester and other cities awakened his profoundest sympathies and in each instance his check for from \$500 to \$5,000 swelled the several relief funds. Where other wealthy men give tens and hundreds, he gives hundreds and thousands.

His charities are as ready and magnificent as his enterprises and public spirit are boundless.

The world has need of more such men.

an incident led him into the manufacture of medicine. Seized some twelve years ago with what the ablest physicians termed fatal kidney disease, he was miraculously restored to health by what is now known as Warner's Safe Cure. At once he resolved to make known the merits of so potent a remedy, and the consequence is that to-day he has immense laboratories and warehouses in the United States, Canada, England, Germany, Austria, Australia and Burmah. Sales of his Safe Remedies are enormous, and their power over disease simply

marvelous. The merit of a production is in ex-act keeping with the character of its producer. An honest and reliable man himself, Mr. Warner makes honest and reliable medicines—a fact abundantly attested by their pheno-menal affects and replacit \$75 to \$250 WORKing for the Automatic menal efficacy and popularity.
