A BEAUTIFUL PICTURE.

The man who stands upon his own soil—who feels that, by the laws of the land in which he lives, by the laws of civilized nations, he is the rightful and exclusive owner of the land he tills—is, by the constitution of our nature, under a wholesome influence not easily imbibed by any other source. He feels—other things being equal—more strongly than another, the character of a man who is the lord of an inanimate world.

The time may come when the monopolies that have ruined the competition business will see the injury done to themselves by their restrictive charges, but we doubt it. Had the postal system been left in private hands we must still today be paying twenty-five cents letter postage, and the country be back a half century.

The people on the Isthmus do not view with complacency the rival Nicaragua Canal project, and are starting rumors that the people will oppose its construction by force of arms. These rumors, investigation has demonstrated, are absolutely without foundation.

The use of tea cigarettes is the latest freak reported to Parisian women. The effect on the nerves is said to be much more marked than that caused by tobacco.

The French Chamber of Deputies has passed a bill providing for the purchase of telephones by the state. The measure is wise and timely. The telephone system of America is a great monopoly now, but it is an infant compared with that of twenty years hence.

The cultivation, sale and use of tobacco is a gigantic evil. Next to strong drink, tobacco stands victimizing its thousands, old and young, corrupting their breath, degrading their morals, ruining their health and consuming their means.

Human Beings Killed by Tortures. The steamer Congo brings news from New Calabar of the most revolting sacrifice. It seems that a few months ago the old King of Eboc died, and, as is customary in that part of the country, the traders of New Calabar went up to pay their respects to the new monarch.

The Champion Egg-Eater. P. Gusmano, fish dealer of San Francisco, went to Capicola a short time ago for his health. Last week he went up to Herman Gehring's cabin for a lunch, and one of the men went to the store and got one dozen and a half of eggs and commenced to cook them hard, frying them in oil.

Wealthy Navajoes. The Navajo tribe of Indians, located on a reservation of Northwestern New Mexico, are becoming wealthy in herds and flocks. The tribe now own 25,000 horses and 800,000 mules, 5000 cattle, 3500 sheep, 6000 goats, 300,000 burros, 500. Some of the Indians, it is said, are exchanging their horses for cattle, which will largely increase their holdings of the latter kind.

Maine Snake Stories. Here are two startling snake stories from Maine. The first comes from Waterville, where the post-mortem examination of a horse that died from unknown causes revealed in its stomach a "snake four and one-half feet long, with head and eyes perfect, six inches in circumference, and the color of blood with the exception of a white stripe on the back."

The Exaltics of Knowledge. "My son, you should emulate young Bladgood. Instead of wasting his time he worked hard, saved money, educated himself and graduated as a physician."

Charmed by a Snake. H. P. Hedden, who resides southwest of Denison, Texas, several miles, brought to the city his little child Sallie to be treated for a snake bite. About six o'clock the little girl left the house with a pail on her arm to gather wild blackberries near what is called Stone Spring.

Office Boy (offering a silver dollar to the editor)—I found this lying in the hall sir.

Electric Bitters. This remedy is becoming so well known and so popular as to need no special mention. All who have used Electric Bitters sing the same song of praise.

Backlen's Armea Salve. The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter chapped hands, chilblains, corns and all skin eruptions, and positively cures piles or no pay required.

How's This? We offer One Hundred Dollars reward for any case of Catarrh that cannot be cured by taking Hall's Catarrh Cure.

The woman suffrage matter still holds sway in Washington. A lady was elected journal clerk, after a sharp contest, in the constitutional convention now in session at Olympia.

The Age of Modern Man. People are fond of saying that "Mankind is growing wiser and weaker." But is it really so? Let us glance at the facts.

Take Hood's Sarsaparilla 100 Doses One Dollar. The Chief Reason for the great success of Hood's Sarsaparilla is found in the article itself. It is merit that wins, and the fact that Hood's Sarsaparilla actually accomplishes what is claimed for it, is what has given to this medicine a popularity and sale greater than that of any other sarsaparilla or blood purifier before the public.

Merit Wins. Hood's Sarsaparilla cures Scrofula, Salt Rheum and all Humors, Dyspepsia, Sick Headache, Biliousness, overcomes That First Feeling, creates an Appetite, strengthens the Nerves, builds up the Whole System.
