Mrs. Mushroom—Yes, it rented meat springs to have to part with poor Thomas. He was a perfect paradox of a coachman and had been in the family for generations.

A LUCKY TRIAL.

The Good Fortune Which Followed. It affords me great pleasure to send to you this voluntary statement of my experience in testing the merits of Joy's Vegetable Sarsaparilla.

With Beamish, corner Third and Market streets, San Francisco.

A little girl in the public school the other day, when asked by her teacher to explain the difference between climate and weather, replied: "Climate is what we have with us all the time, but the weather only lasts a few days."

It should be generally known that Dr. Henley's Baudette Tonic insures a hearty appetite and increased digestion, dispels nervous depression and low spirits, overcomes lack of energy and wakefulness and will infuse new life and strength into the weakest invalid. Sold by D. W. Mathews.

Whatever the number of a man's friends, there will be times in his life when he has one too few; but if he has only one enemy, he is lucky indeed if he has not one too many.

This is the season of the year when the raw, cold winds create sad havoc with the hands and complexion. Soft white hands and a clear "peachy" complexion can be assuredly preserved by the frequent application of Dutard's Specific. If rubbed into the skin well it leaves no greasy surface. The skin absorbs it. Sold by D. W. Mathews.

Outcast—Please, mum, could you help an unfortunate man who was caught in an elevator and laid up for six months? Old lady—Poor man; here's a dollar. How did you happen to get caught? Outcast—(pocketing the dollar) The police waz to quick for me, mum.

Oregon is one of the most productive states in the Union. Its vast mineral regions contain gold, silver, copper, iron, and coal. Its immense tracts of grazing lands support thousands of cattle and sheep, and its extensive agricultural regions produce all the cereals in abundance, the yield per acre being, in some instances, the largest in the world.

BJohnson—By the way, did you ever see the sun rise, Bjnks? Bjnks—No, BJohnson; I can't say that I ever did. I think I've always been in bed before that.

A mob at Gravity, Io., broke into the jail there the other night and took possession of an Indian who had been arrested for assault. He was dragged out of his cell and hung right in the center of Gravity.

Visitor in Cincinnati watching a watering cart on which a conspicuous sign reads: "Brewman's Beer."—Well, I've always heard that beer ran like water in Cincinnati, but I didn't know as they sprinkled the streets with it.

Michael Angelo, Leonardo da Vinci, Titian, Rubens, passed from the chisel to the pen of the brush. The change rested them from the preceding work; and thus, during long life, they accomplished marvelous works.

Mrs. Brown (at Mrs. Smith's tea)—Oh, dear, that dreadful Miss Smith is singing again. I wonder what started her? Tom Brown (aged seven)—I dropped a nickel down her back when she wasn't looking.

Celery is said to have been introduced from France into England in 1704. From England it later found its way to America.

Is Consumption Incurable? Read the following: Mr. C. H. Morris, Newark, Ark., says: "Was down with Abscess of Lungs, and friends and physicians pronounced me an incurable Consumptive. began taking Dr. King's New Discovery for Consumption, and in my third bottle, and able to oversee the work on my farm. It is the finest medicine ever made."

If you have a discharge from the nose, offensive or otherwise, partial loss of the sense of smell, taste or hearing, eyes watering or weak, feel dull or debilitated, pain or pressure in the head; take cold easily, you may rest assured that you have catarrh. Thousands of cases annually, without manifesting half of the above symptoms terminate in consumption and end in the grave. No disease is so common, more deceptive, less understood or more unsuccessfully treated by physicians. The manufacturers of Dr. Sage's Catarrh Remedy have, for many years, offered a standing reward of \$500 for a case of Nasal Catarrh, no matter how bad or of how long standing, which they cannot cure. Remedy sold by druggists at 50 cents.

The transition from long, lingering and painful sickness to robust health marks an epoch in the life of the individual. Such a remarkable event is treasured in the memory and the agency whereby the good health has been attained is gratefully blessed. Hence it is that so much is heard in praise of Electric Bitters. So many feel they owe their restoration to health, to the use of the Great Alterative and Tonic. If you are troubled with any disease of Kidneys, Liver or Stomach, of long or short standing you will surely find relief by use of Electric Bitters. Sold at 50c. and \$1 per bottle at Daniel J. Fry's Drugstore.

A Fortunate Druggist. Mr. Edwin W. Joy for many years and now a prosperous druggist on the corner of Stockton and Market streets in San Francisco, probably never dreamed of rivaling in wealth the medicine kings of the country. But various rumors have been floating around to the effect that he has struck it big, an Examiner reporter was detailed to unearth the cause, and after much difficulty unraveled the following story: It seems that about seven years ago an English physician, a great student of botany, located in this city. His practice was not extensive, and yet the few cases that came to him attracted no little attention. His success seemed to be in the treatment of liver and kidney disorders, and vitiated blood. In fact his ability to cope with these common complaints was marvelous. He seemed almost infallible, and his quiet modest methods and his well-kept secret was as much a mystery as himself. After his departure about a year later Mr. Joy determined to fathom the secret, and copying all the prescriptions he had filled for the erratic doctor he began a systematic analysis. In his examination he discovered running all through the prescriptions for liver and kidney troubles, vitiated blood and stomach disorders a couple of vegetable extracts indigenous to California, so simple and so well known under homely every day names to every school boy as to entirely dissipate the suspicion that they were the active principles involved. So certain, however was Mr. Joy that he had discovered the secret, that he embodied the new elements in a preparation of Sarsaparilla to disguise the taste, and put it before his customers under the modest name of Joy's Vegetable Sarsaparilla. Immediately the same marvelous stories came back of its astonishing effects, and the mystery was solved, and the talk it has created has already caused it to step into prominence, and order pure in daily from all over the coast. And thus another California industry leaps into existence.—S. F. Examiner.

It is a Curious Fact. That the body is now more susceptible to benefit from medicine than at any other season. Hence the importance of taking Hood's Sarsaparilla now, when it will do you the most good. It is only wonderful for purifying and enriching the blood, creating an appetite, and giving a healthy tone to the whole system. Be sure to get Hood's Sarsaparilla, which is peculiar to itself.

LITTLE WOMEN are as a rule, possessed of happy dispositions but when these sweet dispositions become soured and irritable, in consequence of the long train of distressing features peculiar to female complaints, they are then not companionable to say the least. It is the duty, not only of little women, but of all women so afflicted, to bring about the subjection, and immediate removal, of these painful maladies. This is easily accomplished by the use of Dr. Pierce's Favorite Prescription, the great specific for "female weakness." It is a positive cure for the most flowing, painful menstruation, unnatural suppressions, prolapsus or falling of the womb, weak back, "female weakness," anteversion, retroversion, bearing-down sensations, chronic congestion, inflammation and ulceration of the womb, inflammation, pain and tenderness in ovaries, and kindred ailments. All druggists.

THEIR BUSINESS BOOMING. Probably no one thing has caused such a great revival of trade at Daniel J. Fry's Drugstore as their giving away to their customers so many free trial bottles of Dr. King's New Discovery for Consumption. Their trade is simply enormous in this very valuable article from the fact that it always cures and never disappoints. Coughs, Colds, Asthma, Bronchitis, Croup, and all throat and lung diseases quickly cured. You can test it before buying by getting a trial bottle free, large size \$1. Every bottle warranted.

POOR PEOPLE'S CHANCES. Some years ago a city missionary was crossing one of the parks in New York on the Sabbath day and said to a lad, "What are you doing here, breaking the Lord's day? You ought to be at Church and worshipping God instead of breaking the Sabbath in this way." The poor lad in his rage looked up at the city missionary and said: "Oh, sir, it's very easy for you to talk that way, but God knows that we poor chaps ain't got no chance."

The sentiment seems to be growing that in the United States the time has arrived when "the poor chaps don't have no chance." There is some truth in it. The poor are not shut out from making a livelihood, but the gulf between riches and poverty continually grows more difficult to cross. As the country becomes densely populated keen business competition decreases the chances for accumulating wealth by ordinary business methods.

But the same conditions vastly improve the chances for great success to those who can strike out in new paths, can furnish something to the world that others cannot. True merit, in commodity or ability, will win easily and with grand results in this country, if the masses can be induced to recognize it. This recognition can only be accomplished by what are sometimes sneeringly alluded to as advertising methods.

What a marvelous success has attended the thorough introduction to the world of the merits of that wonderful remedy for kidney disease—Warner's Safe Cure. Hon. H. H. Warner first came to know of its curative power by being restored to health from what the doctors pronounced a fatal kidney trouble. He concluded the world ought to know of it and in the ten years since he began its manufacture he has spent millions of dollars in advertising the Safe Cure. His methods have been ingenious—sometimes, perhaps, open to criticism, but they had a purpose, which has been accomplished.

But mark! he never would have secured a four fold return of the vast sums thus expended if the real merit of the remedy had not been fully proven to the millions of people reached by his advertisements. Ten years of increasing success of Warner's Safe Cure is due, first, to intelligent and pleasing advertising, by which the people were made acquainted with the remedy. Second, to the true worth of the remedy, proved by actual experience, showing it to be the only specific for kidney disease, and all diseases growing out of kidney derangements. Mr. Warner has something the people want, tells them so, then proves it to their satisfaction—success follows as a matter of course.
