

At one time a woman could hardly walk through the streets of San Francisco without having everyone pause to gaze on her, and a child was so rare that once in a theatre in the same city, where a woman had taken her infant, when it began to cry, just as the orchestra began to play, a man in the pit cried out, "Stop those fiddles and let the baby cry. I haven't heard such a sound for ten years." The audience applauded this sentiment, the orchestra stopped and the baby continued its performance amid unbounded enthusiasm.

The Age of Modern Man.

People are fond of saying that "Mankind is growing wiser and weaker." But is it really so? Let us glance at the facts. According to the latest statistics there are more centenarians now living than at any previous time in the history of the world. Why? Because of the great discoveries in medical science which afford him immunity from diseases that formerly devastated mankind. Greatest of them all is Dr. Pierce's Golden Medical Discovery, the best blood-purifier and renovator of the age. Scrofula, fever-sores, tumors, unsightly ulcers and eruptions vanish like magic beneath its beneficent influence.

For the Public Good.

It is an indisputable fact that the hand-somest vestibule trains that are now run on the American continent are those on the Burlington route, leaving from Union depot in Denver, also St. Paul, immediately on arrival of all through trains from the west. The first and second class coaches are magnificent, the reclining chair cars suburb, the Pullman sleepers extremely luxuriant, and as for the meals that are served in those palatial Burlington dining cars—yum yum. The next time you go out to Kansas City, Chicago or St. Louis, if you mention to the ticket agent that you want your ticket to read from Denver or St. Paul over the Burlington route, you will get it, and you will always be glad of it.

If you go via the Northern or Canadian Pacific, the elegant vestibule trains of the Burlington route, between St. Paul and Chicago, or St. Louis, will carry you along the eastern shore of the Mississippi river for a distance of 500 miles, amidst scenery that cannot be surpassed; or, if you go via the Oregon Short Line or Southern Pacific, and your ticket reads via the Burlington route from Cheyenne or Denver, you will pass through all the thriving cities and towns located in what is popularly known as the Heart of the Continent. One on Abe

Stories of Abe Lincoln always pass as coin everywhere, and it is not too late for one told by his son to a friend in Washington. "My father," said Robert Lincoln, "liked to stroll about Washington without any escort or show of distinction, and he sometimes strayed into curious company. One day, as a lad, I accompanied him down a back street, where we encountered a regiment of soldiers marching past. My father was curious to learn what particular body of troops this was, and as soon as he came within hailing distance he inquired without addressing any body in particular, 'Well, what's this?' Quick as the word came a reply from somewhere in the detachment, 'Why, it's a regiment of soldiers, you old fool, you!'—Buffalo Express.

No disease is so common, more deceptive, less understood or more unsuccessfully treated by physicians. A Fortunate Druggist.

Mr. Edwin W. Joy for many years and now a prosperous druggist on the corner of Stockton and Market streets in San Francisco, probably never dreamed of rivaling in wealth the medicine kings of the country. But various rumors having been floating around to the effect that he has struck it big, an Examiner reporter was detailed to unearth the cause, and after much difficulty unraveled the following story:

It seems that about seven years ago an English physician, a great student of botany, located in this city. His practice was not extensive, and yet the few cases that came to him attracted no little attention. His success seemed to be in the treatment of liver and kidney disorders, and vitiated blood. In fact his ability to cope with these common complaints was marvelous. He seemed almost infallible, and his quiet modest methods and his well-kept secret was as much a mystery as himself. After his departure about a year later Mr. Joy determined to fathom the secret, and copying all the prescriptions he had filed for the erratic doctor, he began a systematic analysis. In his examination he discovered running all through the prescriptions for liver and kidney troubles, vitiated blood and stomach disorders a couple of vegetable extracts indigenous to California, so simple and so well known under homely every day names to every school boy as to entirely dispel the suspicion that they were the active principles involved. So certain, however was Mr. Joy that he had discovered the secret, that he embodied the new elements in a preparation of Sarsaparilla to disguise the taste, and put it before his customers under the modest name of Joy's Vegetable Sarsaparilla. Immediately the same marvelous stories came back of its astonishing effects, and the mystery was solved, and the talk it has created has already caused it to step into prominence, and orders pour in daily from all over the coast. And thus another California industry leaps into existence.—S. F. Examiner.

\$100 REWARD. \$100. The readers of the JOURNAL will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength, by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & Co., Toledo, O. Sold by Druggists, 75c.
