DYSPEPSIA.

S that misery experienced when we suddenly become aware that we possess a diabolical arrangement called a stomach. The stomach is the reservoir from which every fibre and tissue must be nourished, and any trouble with it is soon felt throughout the whole system. Among a dozen dyspepties no two will have the same predominant symptoms. Dyspepties otactive mental power and a billous temperament are subject to Sick Hendache; those, fleshy and phlegmatic have Constipation, while the thin and nervous are abandoned to gloomy forebodings. Some dyspepties are wonderfully forgetful; others have great irritability of temper.

Whatever form Dyspepsia may take, one thing is certain,

The underlying cause is in the LIVER, and one thing more is equally certain, no one will remain a dyspeptic who will
