TUESDAY, AUGUST 13, 1890.

Try the Elixir of Life.

A gentleman connected with one of the leading mercantile houses of Salem says that notwithstanding the spark of enthusiasm which bobbed up serenely in Salem last fall...

Here This Week.

"One of the Bravest" began a week's engagement last evening, under circumstances that point to a successful run. The play deals with certain romantic phases of life about New York...

An Open Challenge.

The record has been broken this time and no doubt about it. Messrs. Bruce & Pugh have left in the shade all previous records of quick moves and stands made by threshing machines...

Look Out For Fire.

The water company is busy night and day overhauling their large pumps and putting in a new piston, consequently they will be obliged to pump with their steam pump alone for a few days...

To Try the Experiment.

At the earnest solicitation of those interested in the project a quantity of Brown-Sequard's elixir of life has been ordered and will be infused into the Salem, Tillamook & Astoria railway company...

The Exhibit Car.

The car for the exhibit of Oregon products for the G. A. R. encampment has arrived and will be loaded with fine grains and grasses. There is also a car here for Squire Farrar, which is to be loaded with fruit for Chicago...

Three New Institutions.

Salem is going to have established within her limits very soon three institutions. And all of them are needed. They are indicative of progress and will greatly assist in the rapid upbuilding of the city...

Will Build Soon.

John Holm this morning purchased of Isaac A. Manning three lots in Queen Anne addition to Salem. The lots are on the north side of Chemekete street near the creek...

A Painful Operation.

Yesterday evening Wm. Frazier of this county underwent the performance of a most painful surgical operation upon his neck. He bore the suffering well, and since an incision has been made in his neck he is resting easily.

Better Than at a Fire.

The Salem fire department tested a lot of hose last Thursday and burst fifteen sections out of twenty-six. That's the way to find out how much good reliable hose you have on hand.

THE CANNERY IS ASSURED.

Nearly All of the Capital Stock Already Subscribed.

Mr. H. Carpenter, the gentleman who is in this city from Canada looking up a location for a fruit canning establishment, stated this afternoon to a reporter of the JOURNAL that the cannery would be established and that \$9,000 of the capital stock had already been subscribed...

The building will be 120x140 feet and will be of wood. Also a store room with the sides and roof of iron.

This cannery will be incorporated in partnership with the Willamette fruit evaporator, the capital stock being about \$22,000.

This enterprise is something that has long been needed in this county and will consume all the fruit the farmers can raise. It will also employ a good many hands.

Mr. Worthington and Mr. Glenn Applegate are up from Portland and will put in a cider press for Mr. C. B. Woodworth which will be placed in the new building just back of the evaporator.

A few plums were dried to-day to see how the evaporator would work, and everything moved off nicely.

Mr. Carpenter, the gentleman who starts the cannery, understands the business thoroughly, as he was manager of one in Canada. The one in Salem is sure to be a success. Let the good work go on and build our city up. Factories are what we need in order to build it up.

AN AWFUL ACCIDENT.

The Deadly Circular Saw Once More Gets in Its Sorry Work.

Just before noon yesterday Eugene Morrison, a young man who was working with McKinney & Smith's steam threshing outfit near Turner, went to start the belt on the beam shaft which had stopped for some cause, and as he climbed up and loosened the belt it started so quickly that it jerked him forward, turning him a somersault and throwing him upon a circular saw which was used for sawing wood for the engine. The muscles of the right forearm were cut clear through and the bones were almost severed.

Articles of Incorporation.

Articles of incorporation were filed with the secretary of state to-day as follows: The Canyon Creek wagon road, with Anthony Moore, W. H. Holmes and W. T. Griswold as incorporators. The capital stock is \$30,000, divided into six hundred shares of the value of \$50 each.

Wheat and Its Price.

Some machinery in the Salem flour mill broke this morning and the mill will be shut down for a half day to be repaired. There are now about 5000 bushels of wheat being received daily and the price continues to stand at sixty-five cents per bushel.

News of the River.

The Three Sisters is up from Portland and will return to-day. She brought about thirty-one tons of freight for Salem. The water is very low and the boats cannot carry much freight.

Back From the Tide.

Among those who returned from Yaquina Bay this afternoon are the following: Z. M. Parvin and wife, P. S. Knight, Mr. Willard and wife, and T. Nolf and wife.

PURELY PERSONAL.

John Bowie of Portland is in the city. Marshal Ross is back from his coast trip. Freeman Eldridge of Gervais is in the city. Gen. J. H. Turner of Pendleton is in the city.

W. H. Odell came up from Portland on this morning's train.

Mr. Raymond returned to his home in Portland this morning.

Hugh Thompson left on this afternoon's train for Willhoit Springs.

Walter Hosford returned to his home in Newport this morning.

M. Wagner came down from Turner this morning and left this afternoon for the Sound.

C. B. Moores left to-day for a tour of the principal cities of Eastern Oregon and Washington.

State Treasurer G. W. Webb and wife and Mrs. Frazier returned home yesterday from Yaquina, where they have been for the past few days.

George Hatch has returned from his summer vacation, having spent his time at Portland and Yaquina. Ben Taylor leaves for Newport tomorrow on his vacation. He will be accompanied by his family.

LOCAL SUMMARY.

Painless dental operations at Dr. T. C. Smith's, 92 State street.

Fred Rice is sick at his residence in this city. Malarial fever is the complaint.

Squire Johnson, who was kicked on the leg by a horse last week, is improving slowly.

There are no flies on Astoria, because it is said these pesky insects will not live there.

Epileptic ten, paints, oils, varnish, window glass and a fine line of general groceries at Gilbert & Patterson's.

The three-year old child of Mrs. H. Messy of Salem, who is visiting relatives near Melama is very ill with pneumonia.

Next week the Oregon state press association meets at Newport. The attendance will be quite large, judging from present indications.

A little more life is beginning to be seen on the streets, as every day finds many coast and mountain tourists returning from their vacations.

Two trains will be run regularly during fair week from Commercial street to the fair grounds. With the street car line this will give those wishing to attend the fair the best of accommodations.

A few days ago a freight train was passing Sissons when a large tree that had been burning at the base, fell, striking a box car, just missing a brakeman. The tree broke clear through the car to its floor, pretty well demolishing it.

"One of the Bravest" has gained, by its merits, a place at the topmost round of popularity and success. There is not one dull moment from the beginning to the end, and the realism of the great fire scene is the talk of the world.

Disturbances of the peaceful summer such as diarrhoea, dysentery and cholera infantum, promptly evicted by Wright's blackberry cordial. Sold by all druggists.

Put to Flight—Nervousness and Indigestion by Wright's Hop, Celery and Chamomile Bitters. A healthful stimulant, and strengthening and invigorating. Sold by H. W. Cox and D. J. Fry.

With fatal speed impure blood courses through the system and death is its wake. Wright's Compound Extract of Sarsaparilla cures all blood diseases. Sold by H. W. Cox and D. J. Fry.

A GOOD CUP OF COFFEE. Is a great attraction for a restaurant. The coffee drawn from Heilbrunn's Patent coffee receptacle is one of the many Great Attractions of his eating parlors.

Yankee Etiquette. Ice cream is such a thoroughly American dish that entwined about the inevitable saucer of vanilla are some peculiar American customs of etiquette that to the unsophisticated and uninitiated foreigner sometimes seem barbarous.

The Advance of Science. Augustus—D-do you know, Miss Clara, I don't s-s-stutter half so m-much as I used t-to do?

Augustus—Yaas. Been under t-t-treatment, you know. S-s-s-simplest t-t-thing in the world. All you have t-to d-do is t-to t-think before you s-s-speak and ex-er-cise your will p-p-p-power.

A Good Appetite. Is essential to good health; but at this season it is often lost, owing to the poverty or impurity of the blood, derangement of the digestive organs, and the weakening effect of the changing season.

Proposals Invited. THE Board of Trustees of the Oregon State Insane Asylum hereby invite sealed proposals for the building of a wing to the State Insane Asylum pursuant to plans and specifications to be seen at the office of C. A. Hooper, architect, Salem Oregon. The right to reject any and all bids is reserved.

Delayed Sensation. A Chicago paper tells a queer story about a man who is afflicted with a peculiar affection of the nerves. He tastes a thing four or five minutes after he has eaten it, instead of the taste being simultaneous with the mastication.

Paint Shop. No. 254 Commercial St.

House and Carriage Painting, Sign writing, Paper hanging and decorating, Wall tinting and kalsomining executed in the latest style.

Experienced Workmen Employed. Satisfaction Guaranteed. Call and see us before you let your work.

Climatic Changes.

A. D. 1856. Correspondents from Nebraska and western Iowa describe the climate as peculiar for the dryness of the atmosphere. Travelers and sojourners there, near where Omaha stands, had made the same observations years before. Beef freshly killed and hung up in summer on poles, would cure; become good dried beef. Many anecdotes were related to prove the "extreme aridity of the atmosphere," as any one may see by referring to old letters, files and histories.

A. D. 1889. For some years past they have complained of remarkable dampness of the atmosphere during the spring and summer months. Tobacco gets to drip almost, and salt dissolves away into a watery substance. For weeks at a time it is very sticky. Postage stamps and gummed envelopes stick together and are often spoiled.

The country all around and far west was settled long ago. The sons and daughters of contemporary pioneers have gone west, raised families that in turn have gone farther west and are raising families of their own.

I copy from a letter of an intelligent young lady who was educated in Colorado on the Gunnison river, far west of the Rocky mountains. She is the daughter of one of the young pioneers of 1855-6, and is visiting in Omaha.

"There is usually a good breeze; but it is very sultry. I can notice such a change from the dry air of Colorado to this. It seems very unpleasant and I don't believe I can ever live in such a damp climate."

Now it is contended by many learned men that the climate has not become any damper, because, they assert, that "no more rain falls on the average." That may be so, but every old settler in all this region will tell you that the earth and the air have become much damper.

A great many facts could be cited to show this. Twenty years ago delving with the spade a hundred miles west of the Missouri river caused men to exclaim, "this ground has not been wet since the deluge."

All under the heavy sod was like one solid dust pile. Now it is all wet from below the sod or surface. We cannot tell what effect certain small seeming causes may have on climate.

It is now reported that the Eiffel Tower is causing incessant thunder showers all over Paris. If it shall be proven true then the time is coming when man will be able to cause the rain to fall and to change the climate by erecting such towers and connecting them by cables over which electricity will flow.

That tower itself is a miracle of art without exaggeration. Its height is almost exactly one thousand feet. Now the highest pyramid is but 480 feet and the highest of all other steeples and monuments does not exceed over 530 feet.

This gives us some idea of its importance when we consider it.

Success in Business requires preparation! Therefore, thoroughly master Commercial Arithmetic, Business Penmanship and Business Correspondence, Book-keeping by both Single and Double Entry, the nature and correct use of Commercial Papers, Commercial Law and Business practice.

Learn, also, Shorthand and Type-writing, Manifest, and Dictation work. All these are needed in business, and are thoroughly taught by experienced teachers at the SALEM BUSINESS COLLEGE, Griswold's Block, Salem, Oregon.

It has been proven that Wright's Red Cross Cough Cure cures throat and lung troubles of long standing, when all other remedies fail! Sold by all druggists.

RESIDENT LOTS IN NOB HILL,

Salem, for building lots, have no equal. The whole plat is in a fine state of cultivation, seeded in clover, with a good turf. No grubs, no stumps, no rocks or gravel, soil good, elevated and level, has a fine view of the city, surrounding country, the mountain ranges and snow-capped peaks. Pure cold well water. Is twelve blocks south of the Chemekete hotel and postoffice blocks, on Commercial and Liberty streets. These lots are offered by Jones & Watson on installments, without interest until paid. They are now actually worth in cash more than the prices named for them on long time without interest. Several lots have been sold on which fine residences will be erected. If you want one or more lots call on JONES & WATSON, who will show you the plat and the lots.
