Capitol Adventure Company

We are preparing to receive a large invoice of goods. To make room for this enormous stock, we must have room. To make room, we must dispose of our goods. To dispose of our goods we cannot do better than give them away to our customers. Now, then, if you want dry goods, clothing, boots, shoes, notions, etc., just drop around to the Opera House corner and interview us. Our prices are down so low that we could not dispose of them any lower without giving the goods away. Now is your chance, for the next thirty days we will be just slaughtering goods. This is the depot from which to lay in your supplies. Watch the faces of our customers as they leave the store; notice their contented looks, for they are satisfied that they could not save money faster than by trading with us.

Capitol Adventure Company, OPERA HOUSE CORNER, Salem, Oregon.

History of Oregon From the Earliest Period to the Present Time BY HUBERT HOWE BANCROFT. Just published, complete in two vols. with index. A magnificent contribution to knowledge. The pride of a people who are proud of their nation. A household necessity; a national benefit. Agents Wanted Everywhere. No book ever published can do all that this in interest and importance to the people of Oregon, and to all others interested in the welfare of their country. It contains a record of brave doings, of grand emigrations and permanent organizations. It is the life of an important part of the nation. No true Oregonian, no true American will fail to secure this work, now for the first time of Bancroft's marvellous historical series in 38 vols. Earnest, active workers should secure exclusive territory immediately, or they will lose a rare opportunity to make for themselves \$500 or \$1,000. One needs no experience or capital in this business, for territory is given on a workable basis, and we give our Agents 30 days' time in which to deliver and collect before paying us. Address: THE HISTORY CO., 725 Market St., San Francisco, Cal.

DYSPEPSIA. That misery experienced when we suddenly become aware that we possess a diabolical arrangement called a stomach, and any trouble with it is soon felt throughout the whole system. Among a dozen dyspeptics no two will have the same predominant symptoms. Dyspepsia is a general ailment, and a bilious temperament is subject to Sick Headache; those who are phlegmatic have Constipation, while the thin and nervous are abandoned to gloomy forebodings. Some dyspeptics are wonderfully forgetful; others have great irritability of temper. Whatever form Dyspepsia may take, one thing is certain, The underlying cause is in the LIVER, and one thing more is equally certain, no one will remain a dyspeptic who will take SIMMONS' LIVER REGULATOR. It will correct Acidity of the Stomach, Expel foul gases, Allay Irritation, Assist Digestion, and, at the same time Start the Liver to working, when all other troubles soon disappear. My wife was a confirmed dyspeptic. Some three years ago by the advice of Dr. Steiner, of Augusta, she was induced to try Simmons' Liver Regulator. I feel grateful for the relief it has given her, and may all who read this and are afflicted in any way, whether chronic or otherwise, use Simmons' Liver Regulator and I feel confident health will be restored to all who will be advised. - Wm. M. Kansas, Fort Valley, Ga. See that you get the Genuine, with red Z on front of Wrapper, PREPARED ONLY BY J. H. ZEILIN & CO., Philadelphia, Pa.

Jones, Miss Eva Cox, assistant teachers, Miss Lulu M. Smith, Miss Hally Parish, and Miss Mamie Parvin. Branches taught: Vocal Culture, Piano, Organ, Violin, Pipe Organ, Harmony, Counterpoint, and Class Teaching. Diplomas given on completion of course. See catalogue and circular. Z. M. PARVIN, Board of Equalization. TO THE TAXPAYERS of Marion County, Oregon: The board of equalization met at the court house in Salem, Marion county, Oregon, the last Monday in August, 1889, to-wit: the 28th day at 9 o'clock a. m., and publicly commenced the examination of the assessment as returned by the assessor for the year 1889, correcting all errors in values, on descriptions or quantities of land, lot or other property. Said board will remain in session from day to day for one week only, therefore all taxpayers or persons owning property in said Marion county are hereby notified to be and appear at the time and place above mentioned and show cause, if any they have, why their assessments should not remain as taken by the assessor. A. F. JACKERBY, Assessor Marion County, Oregon. Dated this 30th day of July, 1889. 7-31dw

LATEST BY TELEGRAPH.

The Old Young Again. SAN FRANCISCO, Aug. 14.—James Gamble, who has been submitting to experiments to test the efficacy of the Brown-Sequard method of rejuvenating the human system, was again treated to a couple of hypodermic injections. This time a healthy male guinea pig was used to furnish the fluid which was injected into Mr. Gamble. The doctor placed the pig under the influence of ether, and after a few ineffective squeals it subsided and lay on the table to all appearances limp and dead. Dr. Sundberg then bared his knife, and soon secured the necessary glands without shedding a drop of blood. They were then macerated in a mortar, a little distilled water added, and after the regular filtration, Dr. McNutt injected the fluid into Mr. Gamble's legs. The fellow seemed rather to enjoy the experiment than otherwise, and said it did not pain him in the least. He stated that he felt lighter and better everywhere and could walk with less fatigue. Besides this, his stomach, which had been in a disordered state for several years, had resumed its functions much more regularly than before.

Burned in an Iron Furnace. SAN FRANCISCO, Aug. 15.—A Birmingham, Ala., dispatch says that a remarkable religious excitement prevails among the negroes at Bessemer. Old Negro Tobias Jackson has been claiming for some time to be the prophet Daniel and convinced three young negroes Saturday last that they were representatives of Shadrach, Meshchek and Abednego, the three children of Israel, who entered Nebuchadnezzar's furnace of old, and persuaded them to enter the Schloss furnace here, used for melting iron. Before a large number of negroes they rushed into the white heat of the furnace, and when they failed to reappear Jackson announced that he saw them rise into the skies. He said that they would visit the earth next Sunday, and the negroes propose to assemble at the church and continue in prayer until their descent.

A Terrible Storm. ALBUQUERQUE, N. M., Aug. 14.—Yesterday afternoon the people of Albuquerque were frightened by the raging of a terrible thunder and wind storm preceded by sharp flashes of lightning. Huge whirlwinds of sand came down from the mountains, occurring at intervals and blinding pedestrians. It looked like rain, for the clouds were heavy and dark, but the rain did not come. Lightning struck a pole near the freight depot stunning a number of clerks. The pole was shattered into splinters. It was understood last evening that a driver and team were killed on the mesa as they reached the mountains by the same flash of lightning.

The Panama Canal. NEW YORK, Aug. 14.—A correspondent writing from Panama on the prospect of the ultimate completion of the canal across the isthmus, says: "The confidence in the promises from Paris that has all along existed here respecting the prospects of the canal scheme does not appear to have been misplaced. Indeed, on the contrary, it is not too much to say that no former period have the prospects of the scheme, as a scheme, without reference to DeLesseps' enterprise, appeared more promising."

A Falling Building. CHICAGO, Aug. 14.—A building on the corner of Clinton and Van Buren streets collapsed this morning, and several men were buried in the ruins; two persons were killed. The building was partially burned about six weeks ago, and was six stories high. The walls had been left standing.

No News of Stanley. ZANBAR, August 12.—Stevens, the long distance cyclist who was sent into Africa by a New York paper, has been heard from. He left here some months ago for the interior to discover the whereabouts of Stanley and is now returning, having utterly failed in his mission.

Oregon Fish in New York. NEW YORK, Aug. 14.—Five car loads of Pacific coast fish from Yaquina bay fisheries, were recently marketed here. The World says the New York agents of the Yaquina company expect to do a large business here.

CONDENSED DISPATCHES.

The Cretan uprising has been suppressed without resorting to war. The North Dakota constitutional convention has completed its work. Foreign labor outranks American five to one on the public works in Chicago. The Russian government wants Servia to expel ex-King Milan from that country. There are some cases of yellow fever in Florida, but it is declared not to be epidemic. Suspect Burk has been identified as the man who hired the cottage where Dr. Cronin was murdered. The Mississippi grand jury is in session and is now considering the case of John Sullivan and Jake Kilrain.

The capital necessary for the building of the Congo railroad has been secured, and the completion of the great enterprise is now assured. A Cleveland physician is making a practical test of the elixer. The results will be made known in a few days by the 32 persons who are experimenting with the fluid under his directions. A Berlin inventor has devised a simple and inexpensive elevator for private dwellings, in place of the ordinary staircase, which may suggest to some inventor a better means of accomplishing the same object. The Berlin invention is on the principle of the inclined railway, and the motive power is furnished by the city water, which is applied in the cellar.

The Floods in Colorado. FUEBLO, Col., Aug. 15.—A heavy storm passed over Pueblo last night. It formed near Canyon City, but a high wind accompanied it and only a few drops of rain fell here. East of this city the storm seemed to be very heavy. The Ball Removed. PORTLAND, Or., Aug. 14.—John Miller, who was shot in the eye in a bar-room quarrel some days ago, had a successful operation performed this afternoon. The ball was removed and he will recover.

A great deal has been said through the papers about the healthfulness of lemons. The latest advice is how to use them so that they will do the most good, as follows: Most people know the benefit of lemonade before breakfast, but few know that it is more than doubled by taking another at night also. The way to get the better of the bilious system, without blue pills or quinine, is to take the juice of one, two or three lemons, as appetite craves, in as much ice water as makes it pleasant to drink without sugar before going to bed. In the morning, on rising at least half an hour before breakfast, take the juice of one lemon in a goblet of water. This will clear the system of humor and bile with efficiency without any of the weakening effects of calomel or congress water. People should not irritate the stomach by eating lemons clear.

An eastern exchange has the following: It looks as if the younger sister states of the west were going to beat their elder sisters in the east in advanced ideas. Here is Judge Dendy of Oregon, for instance, who has refused naturalization papers to an habitual drunkard and wife-beater as well as to a professional prize-fighter. Why should he not do so, for the law requires that the applicant shall have "behaved as a man of good moral character, attached to the principals of the United States, and well disposed to the good order and happiness of the same."

The Salt Lake Herald says: The carrier pigeon turned loose from this city on the occasion of the recent visit of the Nebraska press association, arrived at Omaha in safety. It was released here at 11 o'clock in the morning and reached Omaha the next morning at 9:30. The bird sent from Denver at 8 o'clock in the morning reached Omaha at 4:25 in the afternoon. The one released at Ogden at 8 o'clock in the morning got home the next morning at 6:30.

According to the last report from the Department of Agriculture, there is little prospect of an abundant yield of apples. No state shows a condition better than eighty-six, while Pennsylvania falls to sixty-five, and New York to fifty-nine. The foreign demand is yearly adding to the importance of the American apple crop.
