### DYSPEPSIA.

S that misery experienced when we suddenly become aware that we possess a diabolical arrangement called a stomach. The stomach is the reservoir from which every fibre and tissue must be nourished, and any trouble with it is soon felt throughout the whole system. Among a dozen dyspeptics no two will have the same predominant symptoms. Dyspeptics otactive mental power and a bilious temperament are subject to Sick Headache; those, fleshy and phlegmatic have Constipation, while the thin and nervous are abandoned to gloomy forebodings. Some dyspeptics are wonderfully forgetful; others have great irritability of temper.

Whatever form Dyspepsia may take, one thing is certain,

The underlying cause is in the LIVER,

Expel foul gases, Allay Irritation, Assist Digestion,

Start the Liver to working, when all other troubles soon disappear.

"My wife was a confirmed dyspeptic. Some three years ago by the advice of Dr. Steiner, of Augusta, she was induced to try Simmons Liver Regulator. I feel grateful for the relief it has given her, and may all who read this and are afflicted in any way, whether chronic or otherwise, use Simmons Liver Regulator and I feel confident health will be restored to all who will be advised."—WM. M. KERSH, Fort Valley, Ga.

#### How They Dance in Italy. In Italy, where the country men

and women dance together, the first thing they do is to toss off their shoes, if they wear any. A man don't go up to a woman and ask her if she will dance, but he fixes his eye on her from a distance and nods. She nods in return, and then both kick off their shoes and advance towards each other and begin to dance. The dance, besides an incessant up and down of steps, represents also quite a little love drama in jestures, and the dance depends on the eleverness of the dancers to

express the mimic scene. He courts. place has a chance to win. pleads, beseeches, runs after his dancer, tries to clasp her waist and kiss her; all the time he is dancing.
