DYSPEPSIA.

Is that misery experienced when we suddenly become aware that we possess a disordered arrangement called a stomach. The stomach is the reservoir from which every fibre and tissue must be nourished, and any trouble with it is soon felt throughout the whole system. Among a dozen dyspepsias no two will have the same predominant symptoms. Dyspepsia of active mental power and a bilious temperament are subject to Sick Headache; those fleshy and phlegmatic have Constipation, while the thin and nervous are abandoned to gloomy forebodings. Some dyspepsias are wonderfully forgetful; others have great irritability of temper. Whatever form Dyspepsia may take, the underlying cause is in the LIVER, and one thing more is equally certain, no one will remain a dyspeptic who will

It will correct Acidity of the Stomach, Expel foul gases, Allay Irritation, Assist Digestion, and, at the same time

Start the Liver to working,

when all other troubles soon disappear. My wife was a confirmed dyspeptic. Some three years ago by the advice of Dr. Steiner, of Augusta, she was induced to try Simmons' Liver Regulator. I feel grateful for the relief it has given her, and may all who read this and are afflicted in any way, whether chronic or otherwise, use Simmons' Liver Regulator and I feel confident health will be restored to all who will be advised. -Wm. M. Kansas, Fort Valley, Ga.

Capitol Adventure Company

We are preparing to receive a large invoice of goods. To make room for this enormous stock, we must have room. To make room, we must dispose of our goods. To dispose of our goods we cannot do better than give them away to our customers. Now, then, if you want dry goods, clothing, boots, shoes, notions, etc., just drop around to the Opera House corner and interview us. Our prices are down so low that we could not dispose of them any lower without giving the goods away.

Now is your chance, for the next thirty days we will be just slaughtering goods. This is the depot from which to lay in your supplies.

Watch the faces of our customers as they leave the store; notice their contented looks, for they are satisfied that they could not save money faster than by trading with us.

The Ellixir of Life. SAN FRANCISCO, Aug. 21.-A well known physician made an important experiment in connection with the alleged "elixir of life."

Several patients were treated by hypodermic injection with a solution of milk and water, under the impression that it was the Brown-Sequard elixir that was being used. The result was surprising. A paralytic walked, half demented, and showed signs of brightening of mind, and all said they felt much better than for years. The effects lasted about twenty-four hours. Several others were experimented upon but were told that the solution was. They felt no effects. These results are believed to prove the utter worthlessness of the theory.

Albany Points. ALBANY, Or., Aug. 22.-The stockholders of the Albany Mining and milling company held a meeting yesterday, at which it was voted to raise the assessment upon the stock heretofore fixed at 10 per cent. to 20 per cent. The amount received from this action will furnish the company ample capital to develop their mines. They have a force of men steadily at work now, and Mr. E. J. Lanning, one of the members of the company, will leave for San Francisco in a day or two, taking with him a quantity of the ore to be tested. The company has made a strike in one of these claims which promises big things, and has elicited no little interest in these mines.

Hop pickers will begin in a few days, earlier than usual, and pickers cannot be too careful in doing good work, as the sale of the hops depends considerably on it. In Linn county the crop looks good and the prospect is that a fair price will be paid.

Harrison in Ohio. CINCINNATI, Aug. 21.-Amid the booming of cannon and cheers from the vast multitude gathered at Central station, the president of the United States arrived here at 2:45 o'clock. The crowds at every station as the train came humming down this morning, gave cheers when the train stopped, and the president was besieged by eager patriots to shake hands.

The party included President Harrison, Attorney-General Miller, Secretary Rusk, Hon. John H. Elam, General Thos. G. Morgan, commissioner of Indian affairs, and others.

Gasoline Explosion. PITTSBURG, Aug. 21.-A gasoline still at the oil refinery of A. D. Mills & Son, Allegheny City, exploded at 2 o'clock this morning with a frightful noise. The entire plant was immediately fired and rapidly destroyed. Thornton Miller, the engineer, is missing, and probably perished in the flames. Perry Herlich, a Weichman, was blown many feet and badly burned and bruised. The loss is at least \$225,000.

Texas Fever Epidemic. PITTSBURG, Aug. 21.-A Greensburg, Pa., special says: A fatal disease has broken out among cattle in several localities in this county, and they are dying to an alarming extent. The disease is known among veterinary surgeons as spleenic or Texas fever. The disease is supposed to have been transferred through bringing a carload of western cattle into the county by a farmer.

That Red Flag. LONDON, Aug. 21.-The strike of the dock laborers is spreading. One thousand men on Commercial docks joined the strikers to-day. The socialists are trying to lead the movement. The red flag is being displayed and 30,000 dock men marched through the city. They were orderly.

About to Adjourn. OLYMPIA, W. T., Aug. 21.-The convention will probably close its labors to-morrow night. "Probably" is the word because there is no knowing what snags may be struck again on the schedule article, which was twisted up so bad that it was finally referred to the judicial committee so that Judge Turner and his colleagues could unravel the knots in it.

Paralysis Attacks a Girl. ASTORIA, Or., Aug. 21.-Miss Ida Kimball, a telephone operator, aged eighteen, was seized with a paralytic stroke on the left side yesterday evening, and is now lying in a critical condition.

Height of Great Sea Waves. Carefully repeated experiments made by an experienced English navigator at Santander, on the north coast of Spain, showed the crest of the sea waves in a prolonged and heavy gale of wind to be forty-two feet high; and allowing the same for the depth between the waves, would make a height eighty-four feet from crest to base. The length from crest to crest was found to be 386 feet. Other estimates of the waves in the South Atlantic during great storms give a height of fifty feet for the crests and 400 feet length. In the North Sea the height of crest seldom exceeds ten feet and the length 150 feet.

With Chinese Husbands.

SAN FRANCISCO, Aug. 21.-A girl of twelve years, born in San Francisco of a white mother by a Chinese father, is the authority for a statement that there is a colony of nearly twenty white women married to Chinese living in Chinatown here.

A City in Flames.

BLOOMINGTON, Ill., Aug. 21.-The flourishing city of Cofax, on the Illinois Central, twenty miles north-east, is in flames, and it is believed will be entirely destroyed. Bloomington has been telegraphed, asking for aid from the fire department. No particulars are likely to be obtained for some time.

It Was Incendiary.

NEW YORK, Aug. 21.-Joseph Potota, a boy, made an affidavit giving information of the origin of the disastrous fire Monday, by which several lives were lost, on Seventh street. He says he saw a man in the kitchen of Snyder's restaurant take burning pieces of wood and scatter them over the floor, and then throw something over them from a dish pan. The man then ran out into the street, and in a moment the flames burst forth furiously.

The Arid Land Committee.

RENO, Nevada, Aug. 21.-The senate committee on the reclamation of arid lands arrived here. In the party were Senators Stewart of Nevada, Rengan of Texas, Jones of Arkansas and Major Powell and R. J. Hinton of the United States geological survey. The senators are confident that congress will appropriate ample funds to enable the survey to be carried on. Major Powell estimates that increased appropriations of nearly \$1,000,000 will be needed for the survey fund.

At Salt Lake the committee took much testimony and important data prepared. Altogether the committee have looked over reservoir sites capable of bringing 70,000,000 acres of land under cultivation.

She Cannot Vote.

SAN FRANCISCO, Aug. 21.-Amelia Taubles, a Bohemian woman of 42, asked Judge Levy yesterday to make her a citizen of the United States. "I am going abroad in a few days," she exclaimed, "and want to show the people of Europe that my adopted country protects its women as well as its men. Then I think that having naturalization papers will be of great service in countries where laws and customs are not near so liberal as they are in the United States."

"I am sorry," said the court, "that I cannot confer upon you the right to vote, for you would make a much better citizen every way than most men."

Fifteen Century Manners.

The rules of propriety given below are taken from an old "Book of Manners" of the fifteenth century: "When you go to eat at the house of gente folks you must be careful about all to see that your hands and nails are clean, but don't attend to this when you are at the table, but when you are alone. When you drink lift the cup in both hands; you must not drink with one hand like a waggoneer when he is greasing his cartwheels. Moreover, you must not cough into your cup, nor drink with your mouth full, like a cow, nor making a noise, like an ox; you must also wipe your nose and mouth when you have drank. Do not gnaw a bone, like a dog, nor suck the marrow out of a bone. Do not eat an apple all alone, but cut it into and give your neighbor a piece. In peeling a pear begin at the stalk, but with an apple you must begin at the top. Never spread butter on the bread with your thumb. Don't drink your soup out of your plate, but eat it with a spoon, and at the same time don't sip and guzzle like a calf."
