DYSPEPSIA.

8 that misery experienced when we suddenly become aware that we possess a diabolical arrangement called a stomach. The stomach is the reservoir from which every fibre and tissue must be nourished, and any trouble with it is soon felt throughout the whole system. Among a dozen dyspeptics no two will have the same predominant symptoms. Dyspeptics of active mental power and a bilious temperament are subject to Sick Hendache; those, fleshy and phiegmatic have Constipation, while the thin and nervous are abandoned to gloomy forebodings. Some dyspeptics are wonderfully forgetful; others have great irritability of temper.

Whatever form Dyspepsia may take, one thing is certain,

The underlying cause is in the LIVER, and one thing more is equally certain, no one will remain a dyspeptic who will

Expel foul gases, Allay Irritation, Assist Digestion,

Start the Liver to working, when all other troubles soon disappear.

"My wife was a confirmed dyspeptic. Some three years ago by the advice of Dr. Steiner, of Augusta, she was induced to try Simmons Liver Regulator. I feel grateful for the relief it has given her, and may all who read this and are afflicted in any way, whether chronic or otherwise, use Simmons Liver Regulator and I feel confident health will be restored to all who will be advised."—WM. Capitol Adventure Company

We are preparing to receive a large invoice of goods. To make room for this enormous stock, we must have room. To make room, we must dispose of our goods. To dispose of our goods we cannot do better than give them away to our customers. Now, then, if you want dry goods, clothing, boots, shoes, notions, etc., just drop around to the Opera House corner and interview us. Our prices are down so low that we could not dispose of them any lower without giving the goods away.

Now is your chance, for the next thirty days we will be just slaughtering goods. This is the depot from which to lay in your supplies.

Watch the faces of our customers as they leave the store; notice their contented looks, for they are satisfied that they could not save money faster than by trading with us.

Albany's new street car line is an example of what can be done by fostering home enterprise. The cars were built at home, and are equal if not superior to any of the eastern ears in use in Salem and Portland. They were built entirely of Oregon timber-ash, maple and oak. Many articles that are bought abroad could be manufactured right at home if it were not for the foolish idea of superiority in the name of an Imported article.—Herald.
