SOONER or later the man who carries large sums of money about with him will be robbed. Afterwards he is a wiser but much sadder man.

No treasury in the world ever contained so vast a sum of money as that of the United States. The last statement shows that there is in the treasury vaults over six hundred millions in gold and silver coin and bullion.

It is a fact worth thinking about in all its bearings that over 22,000,000 acres of these United States are owned by citizens of European countries. This vast acreage owned by aliens is equal to nine states of the size of Massachusetts.

THE nomination of General Mahone by the Virginia republicans has created much interest. It is generally believed by republicans that the brainy little man will win, and the most sanguine democrats admit that the result is doubtful.

THERE is likely to be some delay in the building of the five war vessels provided for at the last session of congress owing to the fact that the bids received were largely in excess of the amount appropriated to pay for them.

SIMILARITY of names brings about some queer things. For instance, a short time ago Andrew J. Whitaker of Illinois, who was formerly a clerk in the fourth auditor's office, was appointed deputy fourth auditor.

It is not for us to teach charity to our Christian brethren, but when we hear one denomination denounce another we feel that the denunciations might be doing better.

Small Boy—Pa, what is the difference between a pessimist and an optimist? Pa—Well, let me see if I can illustrate the matter. You know I'm often discouraged and things don't look to me as if they'd ever go right.

Age cannot expect to be honored if it tries to act like gilded youth. A placard placed on a window of a shoemaker's shop near Cripplegate, London, many years ago, is said to have read as follows: "Surgery performed on aged Boob and Shoes broken Legs set and bound upright disordered feet repaired the wounded heel. The whole Constitution mended and the body supported by new Soles. By T. T."

A London Newspaper.

The newspaper of London is a great institution. Each daily runs up its news in a big card placed in a public position around the city—a new placard for each edition—all posted over the city like circus bills. The London Times has one queer custom. It costs six cents per number, the others but one or two cents. Large numbers subscribe only to the reading of the Times a certain hour daily. A carrier delivers to his reader at a certain hour, and then takes it back and delivers it to another reader. This costs but two cents, and begins at six and ends at twelve, noon. So one paper serves six persons, and the carrier gets twelve cents and has the paper left. A carrier with twelve patrons makes a good living. And this is one of the many thousands of ways of making a living in a great city, and shows that cities must grow greater so long as a portion of their people are prosperous creators of wealth.

"Here Produce Watch." Congressman "Billy" Mason tells with considerable zest his first experience at speech making. It was his maiden effort at the bar, and knowing that he was to address the jury a week before hand, he prepared his speech carefully and committed it to memory. The eventful day came, and he delivered his speech according to program. Then drawing a watch from his pocket, he said impressively, "But I see I have exhausted my time, and I leave the case in your hands, gentlemen," and sat down. The watch did not have any works in it, and the case had been knocked about the house for years, but as the speech had been marked at this place, "here produce watch," he flashed the case on the jury so impressively that he won his suit.

A Convert. Maine boasts of having a genuine native-born Mohammedan. He is a queer fellow, who finally became satisfied that the best religion in the world was that of the Arabian prophet. He is true to his convictions, prays three times a day in a prostrate position, facing the east. At sunrise he rises from his bed, bathes head, feet and hands, and bows to the east. This he repeats at midday and sunset. From Saturday night till Monday he fasts, and at times eats but twice a day.

Origin of Smith. Bayard Taylor one night at a party was greatly bored by the persistent attempts of a guest to discuss sun myths. No matter where the conversation strayed, this individual was sure to drag it back to sun myths. "Did you ever think that the name Smith, so common in all countries, is derived from sun myths?" asked Taylor mischievously. "No, indeed," was the reply. "Undoubtedly. Sun-myth, Sunmyth, Smyth, Smith!" Every one laughed, and the poet had been successful in banishing the threadbare subject.

The Difference. Small Boy—Pa, what is the difference between a pessimist and an optimist?

Small Boy—Oh, yes; one is married and the other isn't. Age cannot expect to be honored if it tries to act like gilded youth.

A lady nearly prostrated by Pains in the Back. A lady well known in the Western States had been a great sufferer for many years with the most excruciating pains in the back which rendered her unable to do any of her usual household or business duties. She had tried every remedy known to her, but all failed to give her any relief. At length she was induced to try Dr. J. C. Ayer's Sarsaparilla. She had called upon Mrs. Fowler of 127 Ellis street, whose name was among those cured by Dr. J. C. Ayer's Sarsaparilla. Mrs. Fowler said it was true that it had cured her. Again requested, the vegetable compound was sent for and gotten. The gentle action of its vegetable stimulants upon the liver, kidneys and digestive organs, and its warm stomach tonic, were the very things needed, and she began improving and was herold self within a fortnight. This sounds like fiction, but the names can be given if necessary.—San Francisco Freeman.

A writer has noticed that nothing makes a woman laugh so much as a new set of teeth. Six women can talk all at once and get along first rate, and no two men can do that. A woman can throw a stone with a curve that would be a fortune to a ball player. Woman's greatest glory is her hair, and she should be very economical of it, says a cynic, when she is cooking. But the women do not always come off second best. A lady stood hanging on to the strap of a tram car, when a workman in the far corner arose and politely offered his seat: "I thank you," she said in a very sweet tone, "but I dislike to deprive the only gentleman in the car of his seat."

"There was a frog that lived in a spring. He thought such a cold that he could not sing. Poor, unfortunate, Brotchain! In what a sad plight he must have been! And yet his misfortune was one that often befalls singers. Many a once tuneful voice among those who belong to the "genius homo" is utterly spoiled by "cold in the head," or on the lungs, or both combined. For the above mentioned "croaker" we are not aware that any remedy was ever devised; but we rejoice to know that all human singers may keep their heads clear and throats in tune by a timely use of Dr. Sage's Catarrh Remedy and Dr. Pierce's Golden Medical Discovery, both of which are sold by druggists.

A girl who was persecuted by a beau who came often and stayed late and was completely impervious to hints, recently hit upon the following ingenious plan to rid herself of an obnoxious swain. She gave him a pencil and paper and said: "Now make a row of eleven ephers; now make a perpendicular mark downward on the right side of the first epher; upward on the right of the fourth; downward on the right of the fifth; upward on the right of the seventh and eighth; downward on the right of the tenth." She then asked him what he had written. The effect was electrical.

"Another wonderful discovery has been made and that too by a lady in this country. Disease fastened its claws upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly and could not sleep. She bought of us a bottle of Dr. King's New Discovery for Consumption and was so much relieved on taking first dose that she slept all night and with one bottle has been miraculously cured. Her name is Mrs. Luther Lutz." Thus writes W. C. Hancock & Co., of Shelby, N. C. Get a free trial bottle at Daniel Fry's drug store.

Lo!—Did the old gentleman leave much when he died? Bob!—He left the earth. What more could I expect?

WE desire to say to our citizens that for years we have been selling Dr. King's New Discovery for Consumption, Dr. King's New Life Pills, Bucklen's Arnica Salve and Electric Bitters, and have never handled remedies that sell as well, or that have given such universal satisfaction. We do not hesitate to guarantee them every time, and we stand ready to refund the purchase price, if satisfactory results do not follow their use. These remedies have won their great popularity purely on their merits. Sold by Daniel J. Fry, druggist.

A lady joking about her nose, said: "I had nothing to do about shaping it; it was a birthday present."

This is the season of the year when the raw, cold winds create sad havoc with the hands and complexion. Soft white hands and a clear "peachy" complexion can be assuredly preserved by the frequent application of Dutard's Specific. If rubbed into the skin well it leaves no greasy surface. The skin absorbs it. Sold by D. W. Matthews.
