THE CAPITAL JOURNAL.

The Boy Who Says "We." Don't laugh at the boy who magnifies his place. You may see him coming from the postoffice with a big bundle of his employee's letters, which he displays with as much pride as if they were his own. He feels important, and he looks it. But he is proud of his place. He is attending to business. He likes to have the world know that he is at work for a busy concern. One of Lawrences of Boston once said, "I would not give much for a boy who does not say 'we' before he is with us a fortnight," The boy who says 'we' identifies himself with the concern. Its interests are his. He sticks up for its credit and reputation. He takes pleasure in his work, and hopes to say "we" in earnest. The boy will reap what he sows if he keeps his grit and sticks to his j +. You may take off your hat to him as one of the future solid men of the town. Let his employer do the right thing by him, check him kindly if he shows signs of being too big for his place, council him as to his habits and associates, and occasionally show him a pleasant prospect of an advancement. A little praise does an honest boy a heap of good. Good luck to the boy who says "we."

Dearness Can't Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure derfness, and that is by constitutional remedies. Deafness i caused by an inflamed condition of the mucus lining of the eustachian tube. When this tube gets inflamed you have a rumbling sound or imperieet hearing, and when it is entirely closed, deafness is the result, and unless the inflamation can b taken out and this tube restored to its nor mal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucus surfaces.

We offer One Hundred Dollars reward for any case of Catarrh that cannot be cured by taking Hall's Catarrh Cure. Price 75c. per bottle. Sold by all drug-

Detroit gave a magnificent reception to the editors who attended the fifth annual convention of the National editorial association. Nothing was too good for them. Fetes and feasts, excursions and picnics, bundles of street-car tickets and showers of invitations, were poured upon the happy editors until they were bewildered by munificence of gifts. The citizens of Detroit were determined to enchant and facinate the strangers within their gates. Their kindly generous courtesy will not easily be forgotten by the visit-

There's another story of Greeley's handwriting. He sent a note one day to a brother editor, asking for some information. Brother editor OREGONIAN RAILWAY CO. couldn't make head or tail of it and sent it back by the same boy. Greeley thinking it was the answer took it, looked at it, turned it upsidewiped his glasses, then tried againno better results. "What in thunder is this, any how," he said, turn- Coburg Mail ing to the boy, "why thecan't the man write plainly?"

Oregon is one of the most productive states in the Union. Its vast mineral regions contains gold, silver, copper, iron, and coal. Its immense tracts of grazing lands support thousands of cattle and sheep, and its extensive agricultural regions produce all the cereals in abundance, the yield per acre being, in some in-stances, the largest in the world. Among the useful and valuable prod-ucts of the Web Foot State may be mentioned Oregon Kidney Tea, which has proved a boon to thousands afflicted with pain in the back and kidney difficulties. It is purely of vegetable composition and never fails. Sold by D. W. Mathews.

A Fortunate Druggist.

Mr. Edwin W. Joy for many yeers and now a prosperous druggist on the corner of Stockton and Market streets in San Francisco, probably never dreamed of rivaling in wealth the medicine kings of the country. But various rumors having been floating around to the effect that he has stru k it big, an Examiner reporter was detailed to unearth the cause, and after much difficulty unraveled the following story: It seems that about seven years ago an English physician, a great student of botany, located in

this city His practice was not extensive, and yet the few cases that came to him attracted no little attention. His success seemed to be in the treatment of liver and kidney disorders, UNIVERSITY with these common complaints was marvelous. He seemed almost infallible, and his quiet modest methods and his well-but his quiet as much a mystery as himself. After his departure about a year later Mr. Joy determined Classical, Literary, Scientific, to fathom the secret, and copying all the prescriptions he had filled for the erratic doctor he began a systematic analysis. Ih his exam. prescriptions for liver and kidney troubles, vittated blood and stomach disorders a couple of vogetable extracts indigenous to California, so simple and so well known under homely every day na mes to every school boy as to en-MEDICAL COURSES. every day no mee to every school boy as to enthe active principles involved. So certain, however was Mr. Joy that he had discovered the secret, that he embodied the new elements in a preparation of Samsparilla to disguise the taste, and put it before his costomers under the modest name of Joy's Vegetable Sarsaparilla. immediately the same marvelous stories came back of its astonishing effects, and the mystery was solved, and the talk it has created has already caused it to step into prominence, and orders pour in daily from all over the coast And thus another California industry leaps into

THE LOST ATLANTIS.

For many centuries there has been a tradition of a long lost island called

The Greek geographers located it in the Atlantic Ocean, west of the north-west part of Africa and the Pillars of Hercules. The sea-kings of Atlantis are said to have invaded Europe and Africa, and to have been defeated by

Africa, and to have been defeated by the Athenians.

All the legends agree that it was a vast island, of inexhaustible resources, and inhabited by a race of superior people. For ages this island has existed only in legendary lore. But now, when the light of modern research is turned full upon the investigation, behold the lost Atlantis at our very doors.

So the bigoted medical fraternity

So the bigoted medical fraternity goes groping about in the dark, seeking for an Atlantis or Esculapius, when if they would investigate, they would behold the lost Atlantis at their very door. With their ancient text book, a case of physic, a paper in their waistcoat giving them license to prac-tice, experiment and dose with their injurious drugs, cauterize and perform unnecessary acts, with no person or laws to hold them accountable, they continue their bigoted, unjustified practice, staring into vacancy, and imagining that they see in themselves

an Esculapius.
Wrapped in ancient bigotry, they are crying out against all improve-ments that have been made in medi-cal science. They denounce any new idea advanced by a layman or an op-position school as a fraud.

Why?

Because humanity will not be benefited? Not at all, but because their specialism did not make the discovery. Yet they concede that there is no remedy known to the materia medica that will cure an advanced kidney malady and the diseases arising there from—although many of them know from crowning proof that Warner's Safe Cure will—but unscrupulously treat symptoms and call them a disease, when in reality they know they

are but symptoms. A few of the more honest physicians admit that Warner's Safe Cure is a valuable remedy, and a great blessing to mankind, but say, in so many words, when asked why they do not prescribe it, that they cannot, accord-

ing to their code. Nevertheless, the world is fast be-coming satisfied that the cure for kidney and liver diseases, in whatever form or condition, has been discovered, and there is no doubt but what Warner's Safe Cure and its fame will

Warner's Sale Cure and its lame will live long after such bigotry as we have instanced is dead and buried.

The late eminent physician and writer, Dr. J. G. Holland, published in "Scribner's Monthly," and showed his opinion of such bigotry, and no doubt was satisfied that Atlantis n.ight possibly be discovered in a propriepossibly be discovered in a proprie-tary medicine, when he wrote editori-

ally, as follows:
"Nevertheless, it is a fact that many of the best proprietary medicines of the day were more successful than many of the physicians, and most of them, it should be remembered, were first discovered or used in actual med-ical practice. When, however, any shrewd person, knowing their virtue, and foreseeing their popularity, se-cures and advertises them, then, in the opinion of the bigoted, all virtue went out of them."

A PUBLIC BENEFACTOR

"Who is H. H. Warner, of Rochester, N. Y., whose Safe Remedies, especially Warner's Safe Cure, have attained such success and celebrity at home and abroad?"

The question is inspired as much by affection as curiosity, since through his instrumentality hundreds of thousands, in both hemispheres, have been restored to health and happiness. Hon. H. H. Warner, then, is a

leading and honored resident of Rochester, not only, but a prominent and influential citizen of the United States. On several occasions chosen by his party as a National delegate to nominate a President of the Republic, be has been a member of the Republic, nominate a President of the Republic, he has been a member of the Republic an State Committee and of its Executive Committee. He is a member of the American Institution for the Advancement of Science; President of the Rochester Chamber of Commerce; a successful and upright business man. He has given away fortunes in charities. The celebrated and costly Warner Observatory of Rochester was conceived, endowed, and is maintained by him. His munificent prizes for the discovery of comets has been at once the wonder and delight of the scientific world.

The yellow fever scourage in the South, the Ohio floods, the fire disasters of Rochester and other cities awakened his profoundest sympathies and in each instance his check for for the scientific world.

and in each instance his check for from \$500 to \$5,000 swelled the several relief funds. Where other wealthy men give tens and hundreds, he gives hundreds and thousands.

His charities are as ready and magnificent as his enterprises and

public spirit are boundless. The world has need of more such

an incident led him into the manufacture of medicine. Seized some twelve years ago with what the ablest physicians termed fatal kidney discase, he was miraculously restored to health by what is now known as Warner's Safe Cure. At once he resolved to make known the merits of so potent a remedy, and the consequence is that to-day he has immense laboratories and warehouses in the United States, Canada, England, Germany, Austria, Australia and Burmah. Sales of his Safe Remedies are enormous, and their power over disease simply

marvelous The merit of a production is in exact keeping with the character of its producer. An honest and reliable man himself, Mr. Warner makes honest and reliable medicines—a fact abundantly attested by their phonomenal efficacy and popularity.
