

NASAL VOICES, CATARRH AND FALSE TEETH.

A prominent English woman says the American women all have high, shrill, nasal voices and false teeth.

Americans don't like the constant twittering they get about this nasal twang, and yet it is a fact caused by our dry climate, late atmosphere, and the universal presence of catarrhal difficulties.

But why should so many of our women have false teeth?

That is more of a poser to the English. It is quite impossible to account for it except on the theory of deranged stomach action caused by imprudence in eating and by want of regular exercise.

Both conditions are unnatural.

Catarrhal troubles everywhere prevail and end in cough and consumption, which are promoted by malnutrition induced by deranged stomach action. The condition is a modern one unknown to our ancestors who prevented the catarrh, cold, cough and consumption by abundant and regular use of what is now known as Warner's Log Cabin cough and consumption remedy and Log Cabin sarsaparilla, two old fashioned standard remedies handed down from our ancestors, and now exclusively put forth under the strongest guarantees of purity and efficacy by the world-famed makers of Warner's safe cure. These two remedies plentifully used as the fall and winter seasons advance, together with an occasional use of Warner's Log Cabin rose cream, to strengthen and protect the nasal membranes give a positive assurance of freedom, both from catarrh and those dreadful and neglected, inevitable consequences, pneumonia, lung troubles and consumption, which so generally and fatally prevail among our people.

Comrade Eli Fisher, of Salem, Henry Co., Iowa, served four years in the late war and contracted a disease called consumption by the doctors. He had frequent hemorrhages. After using Warner's Log Cabin cough and consumption remedy, he says, under date of Jan. 19th, 1888: "I do not bleed at the lungs any more, my cough does not bother me, and I do not have any more smothering spells." Warner's Log Cabin rose cream saved his wife of catarrh and she is "sound and well."

Of course we do not like to have our women called nose talkers and false teeth owners, but these conditions can be readily overcome in the manner indicated.

For Cramps in the Leg.

Many persons of both sexes are greatly troubled with cramps in one or both legs. It comes on suddenly, and is very severe. Most people jump out of bed (if nearly always comes on either just after going to bed or while undressing) and ask some one to rub the leg. I have known it to last for hours, till in despair they would send for the family physician, and even then it would be hours before the spasm would let up.

There is nothing easier than to make the spasm let go its hold, and it can be accomplished without sending for a doctor, who may be tired and in need of a good night's rest. When I have a patient who is subject to cramp I always advise him to provide himself with a good strong cord. A long garter will do if nothing else is handy. When the cramp comes on take the cord, wind it around the leg over the place that is cramped, and take an end in each hand and give it a sharp pull. One that will hurt a little. Instantly the cramp will let up, and the sufferer can go to bed assured it will not come on again that night. For the permanent cure, give about six or eight coils of galvano-tactery, with the negative pole applied over the spot that cramps and the positive pole over the thigh. Give it for ten minutes, and repeat every week for a month.

I have saved myself many a good night's rest simply by posting my patients' spasm to spasm of the legs how to use the cord as above. I have never known it to fail, and I have tried it after they had worked half the night, and the patient was in the most intense agony. Given in such cases, at the first jerks of the cord all pain left.—R. W. St. Clair, M. D., in Medical Age.

The Tall Men of Indiana.

On the subject of the tall men of Indiana, Col. Calkins was fluent to talk, and said, among other things: "The men of Indiana were noted during the war for their stature, and Gen. Terrill, the statistician of Massachusetts, wrote that they were the tallest and the finest men ever contributed to any army in the world, the most of the civilized world. Somehow the soil and climate promote physical greatness in our state. It is no uncommon thing to see a dozen men together on the street corner of any little town, among whom not one is under six feet in height. We are a big people out there in Indiana," concluded the colonel.—New York Tri-bune.

Work of Southern Women.

As in St. Paul's cathedral, London, on the monument to Christopher Wren, so we can say of the work of southern women: "Look around!" As nothing surpassed her courage, her fortitude, her untiring patience and energy, her persistent effort during the war, so the still greater demand for such virtues after the battle was over, found her as ready and responsive as before. Wherever women can labor without losing the dignity of womanhood, the women of the south. In the home, in the school room, at the ledger and the desk, with the needle, the pen, the pencil, the brush, in music, in useful and decorative art, and all handicrafts where dexterity and delicate superlative physical strength, she is at work; in short, whatever her head and hands find to do, she is doing willingly and uncomplainingly.

Out from the stately homes of wealth and luxury, out from the genial friends of comfort and thrift, from all ranks of life and degrees of fortune, from the stately mansions of Virginia to the graceful and picturesque villas of Alabama catenabre and the Mississippi valley, she has gone, at the call of duty into the rank and file of working women, clad in the invulnerable armor of patient endurance and womanly dignity. And for this she is entitled to sympathy and honor.—Zittels Cocks in American Magazine.

GASTRONOMICAL TIDBITS.

The vegetarians are losing ground in London, and some of their restaurants have been closed.

Fresh salmon tickle the palate of the gluttons now, but it is beyond the reach of the impatient.

Frog legs will soon be kicking themselves into gastronomic notice again, prejudice to gastronomy notwithstanding.

The Garden of Eden, it is now asserted, was located in Central America. Mrs. Alice is Plongon, wife of an eminent man of science, is the prophet of the new belief, and she claims to have found Maya writings which give the whole history of the human race, showing that America and Europe were then united by land which has since been submerged.

DYSPEPSIA.

It is that misery experienced when we suddenly become aware that we possess a diabolical arrangement called a stomach. The stomach is the reservoir from which every fibre and tissue must be nourished, and any trouble with it is soon felt throughout the whole system. Among a dozen dyspeptics no two will have the same predominant symptoms. Dyspepsia is a mental power and a bilious temperament are subject to sick headache, those who are fleshy and phlegmatic have constipation while the thin and nervous are abandoned to gloomy forebodings. Some dyspeptics are wonderfully forgetful; others have great irritability of temper.

Whatever form Dyspepsia may take, one thing is certain.

The underlying cause is in the LIVER,

and one thing more is equally certain, no one will remain a dyspeptic who will

It will correct Acidity of the Stomach, Expel foul gases, Alleviate Irritation, Assist Digestion, and, at the same time

Start the Liver to working, when all other troubles soon disappear.

"My wife was a confirmed dyspeptic. Some three years ago by the advice of Dr. Steiner, of Augusta, she was induced to try Simmons' Liver Regulator. I feel grateful for the relief it has given her, and may all who read this and are afflicted in any way, whether chronic or otherwise, use Simmons' Liver Regulator and I feel confident health will be restored to all who will be advised."—Wm. M. Kassar, Fort Valley, Ga.
