There is a rise of price in the quinine and pig iron markets.

The soldiers' monument at Joliet, Ill., was unveiled last Thursday.

Boston is quite wild over "Stuffed Dog." It is a play, but all the same we prefer our stuffing in turkey.

A GEORGIA revivalist gives to each colored convert a big water-melon. It makes them pious to the core.

The great drawbridge over the Thames, New London, Conn., was formally opened on the 10th. The bridge is 1,423 feet long and the draw 503.

Cashier Jessup, accused of wrecking the Scranton, Pa., city bank by misappropriating \$120,000 of its funds, has been indicted by the grand jury.

St. Paul, Minn., is to have an ice palace this winter. The city council will be asked to appropriate \$20,000 and the citizens will raise \$30,000 for the purpose.

The city of Mexico, Heraldo is advocating the exclusion of cattle imported from the United States. Mexican cattle raisers it says, cannot compete with American.

The Third Avenue railroad company of New York City, will soon change their motive power from horses to the double cable system. This is the longest street car line in the world.

The corner stone of the new building of The World, at the corner of Frankfort street and Park Row, New York, was laid last Thursday. The building is designed to be the highest in the world.

In a cowboys' tournament at Agua Fria, A. T., John Lane roped and tied three steers in 4.49 minutes, this being the best time ever made in Arizona. John Merrill beat the record also by roping and tying a single steer in a little over a half a minute.

A gigantic statue of Columbus, is being made from Carrara marble, and to cost \$20,000, will soon be erected in New York City. The enterprise is in the hands of prominent Italians of that city, and the Italian government has given its promise to co-operate in the scheme.

THE \$300,000 residence of Clem Studebaker at South Bend, Ind., was burned on the 9th inst. The residence was one of the largest and costliest in the world. The interior was finished in the costliest of native and foreign woods, while it was furnished in the richest style throughout, and the art gallery was filled with rare works of art, and these are all destroyed.

More railway disasters have occurred in three days than before in three months. There seems to be some fatality about these matters, so fast does one bad casualty follow up on another's heels. In most cases the general public never get any facts about the causes of the accidents, because all the officials involved are afraid to tell them lest they lose their positions. Lack of memory has become such a common form of perjury on the witness stand with the millionaire owners of railroads that it is not strange the subordinates working on the roads are found imitating their superiors.

WHAT IS FOG. In an interesting letter to Science, H. A. Hazen of Washington, gives some interesting and valuable particulars respecting the properties and nature of fog. He says that it is admitted that fog is simply cloud condensed of water dust, or solid minute spheres of water from 1-7000 to 1-1000 of an inch in diameter. Many have supposed that a dust particle must be the nucleus of each sphere, but an examination under the microscope of evaporated fog has proved that such is not the case. Briefly stated, the cause of fog is as follows: It is essential that there be no wind. The sky must be clear. The air must be saturated or nearly so. The formation of fog is a purely mechanical process, unaccompanied by heat.—New York Herald.

In 1890 the agricultural exports of the United States constituted 85.57 per cent. of \$316,242,423 of exports, the remaining 14.43 being manufactured and partly manufactured articles. In 1887 the total exports were \$703,022,923, of which only 74.41 per cent. was classed by the Bureau of Statistics as agricultural products. But no careful statistician will accept the classification of the Bureau of Statistics without challenging the propriety of inserting in the list of agricultural products canned meats, flour and an infinite variety of wholly or partly manufactured articles. A careful rearrangement of the table of exports in the year named shows that agricultural, forest and mining products in their raw state constituted only 62 per cent. of our exports, while manufactured products made up the remaining 38 per cent. An examination in detail of the exports of the fiscal year ending June 30, 1889, would probably show that the proportion of agricultural products was still smaller than in 1887, for it is notorious that there was a great falling off in the shipment of wheat and other farm products in the former year.

Savings the Foundation of Wealth. The man who saves something every year, quotes a contemporary, who had heard the remark from every quarter, is on the road to prosperity. It may not be possible to save much. If not, save a little. Do not think that a dollar or a dime is too small a sum to lay by. Everybody knows how little expenditures get away with large sums. But few seem to know that the rule is one that works both ways. If a dime spent here and a dollar there soon makes a large hole in a man's income, so dimes and dollars laid away soon become a visible and respectable accumulation. In this country any man can make himself independent or keep himself under the harrow of life, according as he wastes or spends his small change.

Most of our millionaires laid the foundation of their fortunes by saving. It is said that Senator Farwell commenced life as a surveyor. Cornelius Vanderbilt began life as a farmer. Postmaster-General Wanamaker's first salary was \$1.25 a week. A. T. Stewart made his first start as a school teacher.

Cyrus Field began life as a clerk in a New England store. Andrew Carnegie did his first work in a telegraph office at \$3 a week. Whitelaw Reid, our minister to France, did work as correspondent of a Cincinnati newspaper for \$5 a week.

Moses Taylor clerked in Water street, New York, at \$2 a week. George W. Childs was an errand boy for a bookseller at \$4 a month. Jay Gould canvassed Delaware county, N. Y., selling maps at \$1.50 apiece.

And to the above names, which are familiar to most persons, might be added hundreds of others whose fortune and fame had the same small beginning. The same or better opportunities exist to-day for bright energetic young men to succeed that existed when the above millionaires began their business life, but to accomplish it, the same perseverance and economy which characterized their early career must be observed.

Fashion's Fancies. All kinds of feather trimmings will be in vogue. Directoire-redingotes are more fashionable than ever this autumn. Elegant traveling dresses are made up in olive and French gray camel's hair fabrics, with ursuline cloaks to match.

Armures, corded silks and brocades are in greater use for elegant toilets for evening than rich fabrics of any other description. The monotonous yoke which has been in fashion for so long a time is now varied by the use of wide, circular collars nearly covering the shoulders.

The coaching cape, which is really a series of fine capes overlapped made into one, is worn over a jacket of the same material. The effect of the garment is excellent. Pretty afternoon dresses of cashmere and camel's hair are made very effective by the use of velvet or heavily ropped ribbons, these being more favored for such decorations than moire or fancy ribbons of any sort.

It is said that a sufficient sum of money has been subscribed in Rome to erect in that city a monument commemorative of the temporal power of the Pope.

Dr. Nansen, the Norwegian explorer, is organizing an expedition to the North Pole. Twenty thousand pounds have already been subscribed toward the venture.

New postage stamps are soon to be introduced in Germany. They differ from those now in use, both in color and in the form of the imperial eagle and crown.

Reads Their Names Publicly. One of the most successful ministers of our whole connection has inaugurated the following practice in taking the benevolent collections: He reports by name from the pulpit every donor, with the amount given. He also designates the names of his membership specifically, and those who have not made any subscription are fully reported by name with a cipher appended.—Boston Zion's Herald.

STATE OF OHIO, CITY OF TOLEDO, Lucas County, S. D. Frank J. Cheney makes oath that he is the senior partner of the firm of F. J. Cheney & Co., doing business in the city of Toledo, county and state aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of catarrh that can not be cured by the use of Hall's Catarrh Cure. FRANK J. CHENEY. Sworn to before me and subscribed in my presence, this 6th day of December, A. D., 1886.

[SEAL.] A. W. GLEASON, Notary Public. Hall's Catarrh Cure is taken internally and acts directly on the blood and mucous surfaces of the system. Send for testimonials, free. F. J. Cheney & Co. Toledo, O. Sold by druggists, price 75 cents.

A Remarkable Tree. Three years ago a small fig tree was placed in the open space which was made by taking up a brick in the court in the rear of R. S. Jenkins' office. From the day the tree was planted until the present, there has not been a bit of sunlight reached it, and it now stands at a height of over twenty feet, and has a very heavy crop of figs on it. A number of people who have tasted the fruit pronounce it very nice.

Sitting on the Safety Valve. Many are they who have laughed at the story of the green steamboat fireman who sat on the safety valve to prevent it "leaking." Yet thousands are repeating his folly every day. They are troubled with pimples, blotches, eruptions, salt rheum, boils, carbuncles, ulcers and old sores, and are contenting themselves with suppressing the symptoms without removing the cause. They sit on these safety valves by which nature is driving out blood impurities, instead of using Dr. Pierce's Golden Medical Discovery, which cures by removing the cause, which is in the blood. It is a wonderful blood purifier and invigorating tonic.

Do you think the proprietors of Dr. Sage's Catarrh Remedy would offer, as they have done for many years, a standing reward of \$500 for a case of catarrh which they cannot cure, if they did not positively know that the Remedy will absolutely and permanently cure catarrh? Sold by druggists, at only 50 cents.

By curious coincidence the receipts of the Suez Canal on August 1st reached the same amount as the total on the same date last year, having been 130,000 francs.

Is Consumption Incurable? Read the following: Mr. C. H. Morris, Newark, Ark., says: "Was down with Abscess of Lungs, and friends and physicians pronounced me an incurable Consumptive. Begun taking Dr. King's New Discovery for Consumption, and have never had a cough since. I would have died of Lung Trouble." Try it. Sample bottle free at Daniel J. Fry's drugstore.

The British Government has taken the Dominion Government to modify its Chinese Restriction Act, as it interferes with the relations of Great Britain and China.

THE VERDICT UNANIMOUS. W. D. Salt, Druggist, Bippus, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles and was cured of Rheumatism of 10 years' standing." Abraham Hare, druggist, Belleville, Ohio, affirms: "The best selling medicine I have ever handled in my 20 years' experience, is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure all diseases of the Liver, Kidneys or Blood. Only a half dollar a bottle at Daniel J. Fry's drugstore.

It is said that Queen Victoria is anxious that the Earl of Fife, her new grandson shall be assigned to the post of Governor-General of the Dominion of Canada.

AN UGLY DISCOVERY. A Report that Should Be Read. "A recent analysis in Philadelphia by a celebrated chemist of ten popular brands of Sarsaparilla discloses the astonishing fact that these ten samples of blood purifiers (7 contained in the aggregate sixteen different minerals, eleven of which were active poisons. Iodide of Potash was discovered in every sample, mercury was found in all but two, while arsenic existed in six of the ten brands. No one brand was the pure article."

A reporter took the above clipping to E. W. Joy, the manufacturer of Joy's Vegetable Sarsaparilla. Mr. Joy exhibited no surprise. He said druggists knew it. He said he long ago saw the crying need for a safe and absolutely pure vegetable preparation of Sarsaparilla, hence his was named Joy's Vegetable Sarsaparilla, because it contained nothing but pure syrup of sarsaparilla, combined with the pure juices of California's vegetable alternatives. Unlike potash sarsaparillas, it does not force impurities through the skin, but stimulates the various secretory organs, thereby correcting functional derangements and eliminating all impurities through the natural channels.—San Francisco Examiner.

Take Hood's Sarsaparilla 100 Doses One Dollar

The Chief Reason for the great success of Hood's Sarsaparilla is found in the article itself. It is merit that wins, and the fact that Hood's Sarsaparilla actually accomplishes what is claimed for it, is what has given to this medicine a popularity and sale greater than that of any other sarsaparilla or blood purifier before the public. Hood's Sarsaparilla cures Scrofula, Salt Rheum and all Humors, Dyspepsia, Sick Headache, Biliousness, overcomes That Tired Feeling, creates an Appetite, strengthens the Nerves, builds up the Whole System. Hood's Sarsaparilla is sold by all druggists. Price 25 cents per box. Prepared by C. L. Hood & Co., Apothecaries, Lowell, Mass.

At the approaching session of the Skupchina the Serbian Government will introduce a bill to prohibit ex-Queen Natalie from residing in Servia.

Bucklen's Arnica Salve. The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, letter chapped hands, chilblains, corns and all skin eruptions, and positively cures piles or to pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by Daniel J. Fry, druggist.

The Chinese Customs returns for the second quarter of this year show a falling off of nearly 1,000,000 taels, compared with the same period of 1885.

WE desire to say to our citizens that for years we have been selling Dr. King's New Discovery for Consumption, Dr. King's New Life Pills, Bucklen's Arnica Salve and Electric Bitters, and have never handled remedies that sell as well, or that have given such universal satisfaction. We do not hesitate to guarantee them every time, and we stand ready to refund the purchase price, if satisfactory results do not follow their use. These remedies have won their great popularity purely on their merits. Sold by Daniel J. Fry, druggist.

The Best Residence Localities

In the city of Portland and other prosperous towns are those owned by men or corporations who have the disposition and ability to improve them.

HIGHLAND ADDITION

-IS OWNED BY-

THE OREGON LAND COMPANY!

And this Corporation is determined to

Make It The Most Attractive Addition

To the city of Salem. They have at this time fifteen teams employed and the contemplated improvements have scarcely begun. It is intended to make the drive leading from Commercial street through Riverside and Highland additions and around Highland Park

THE FINEST DRIVE IN THE STATE

Of Oregon. The line of the Salem Street Railway Company runs through the middle of this addition, and no lots will be more than two blocks distant from the line. Highland Park will in the near future be

THE MOST POPULAR RESORT

ABOUT THE CITY OF SALEM.

Lots in Highland Addition are High and Dry and Well Located; Most Excellent Drainage

The soil is black and rich. From all points a fine view is obtained of the public buildings and our highest mountain peaks. Arrangements are already being made for the location of two churches in this addition, and a number of residences are soon to be built. Buildings only of the best class will be permitted. Residence lots within the limits of the city of Salem are worth on an average over \$1000. We can sell you better lots in Highland addition for one-third of the money, and being directly on the line of the street railway they are practically not half so far from the public buildings and the business part of the town as the majority of the so-called "inside lots."

Buy a Lot in Highland Addition for Three Hundred Dollars,

And let some other fellow pay \$1000 for an inferior lot not so well located. With the difference of \$700 you can build a beautiful cottage, or put it out at a rate of interest that will buy you nearly two thousand street car tickets every year.
