WHAT an awful thrust the editorial columns of the morning fossil gives to its editor-in-chief and general manager in the following: "A man is not necessarily of heavy caliber because he has a large mouth."

A BALTIMORE dude who was black-balled by a club of that city, took to drink on account of the club's ostracism and finally suicided by the chloroform route. Lately he gave "a tea" to which only ladies were invited and the affair was a howling success. Doubtless that helped him toward suicide, as perhaps he felt that there was nothing more to live for, having achieved such glory as that.

THE latest defaulter is George H. Stevens, treasurer of the Arizona prison board, who has departed with \$6000 of the prison funds. Stevens is a relic of the Zulick regime, and the secret of his bitter opposition to the appointment of an inspection committee for prisons is now revealed. Before the days of inspection he could cover up a shortage successfully for a long time but the new rule brought him to grief. His exposure is the best proof of the wisdom of the new law.

THERE is merit in the order of the secretary of the navy that hereafter when the flag of the nation is raised at morn and lowered at sunset in the nation, the representatives of the navy present shall face the colors and salute, and if bands are on the ships they shall greet the flag with the music of national airs. These ceremonies are disciplinary, will daily renew the sentiment of the flag, and impress more and more deeply respect for the symbol of our liberties. It must have, also, an impressive effect upon lookers-on. It is a simple and proper observance, and that the salutation to the flag should have so fallen into disuse as to necessitate this new order, proves the need for it.—Sacramento Daily Record-Union.

JOAQUIN MILLER: "In Spokane Falls at the Grand Hotel I saw a little box with a few dollars change in it out on the end of the counter in the midst of a dozen or two of the daily papers from various places. No one, so far as I ever saw, was in the charge of either the papers or the money. Any man who wanted a paper took it, toss d his money into the box and took whatever change was his. I set this down as an incredible sign of prosperity, and—let us admit, we bow our heads in humility to the need of that portion of the Lord's prayer which says 'Lead us not into temptation'—of honesty, which is the first born of prosperity.

THE hops of the Pacific Coast are fast becoming famous throughout the world. When there is a prospect of a partial hop failure in Germany, England and New York state, then swarms of hop men come to this coast and contract for the article at whatever figure they can procure them for. If hops go up to 20, 30, 40 or 50c per pound and they contracted the hops at 10, 11 or 12c, the buyer is only too glad to take them in almost any condition they may be in the bale; and is only too glad to advance and pat the hop grower on the back as a jolly good fellow. But how the scene changes, should hops go lower, than the contract price. Drafts are dishonored, fault is found, and the shark hop puncher finds too many stems and leaves, and the bale is too light or too heavy.

They try to bear the market and gloat over the 7 and 8 cent hops at the growers loss. This state of affairs will not always last, for 8 cents per pound duty on the German and English hops will send them to 15 cents no doubt, and the growers in this country will have the satisfaction of seeing their own industry protected and fostered. The buyer can either take or let them alone, they will be worth 15 cents to 25 cents just the same.

THE anarchists of Chicago hissed the stars and stripes a few days ago, and yet their only safety is beneath that flag. They should have the banner's stripes laid on their bare backs three times a day with an ox gad.

Sworn on a Dictionary.

Does it matter what kind of a book people kiss when magistrates swear them? If it does, then a magistrate in a district in this country has gone beyond the bounds of law. Witnesses in his court have been swearing a considerable time by a mutilated Latin dictionary.

"Some time ago," the justice said, "I borrowed a Latin dictionary and it was just about the size of my bible and looked for the world like it. The back was torn and mutilated and the edges were red. The dictionary, as I thought, finally disappeared and could not be found. I kept swearing witness right along with the bible, as I thought, when in fact, it was nothing but the dictionary."

"How did I find it out? Why, the other day, just as I wound up a big case and was rendering my decision, the book fell out of my hands into my lap, open. There it was, as plain as day, the old dictionary."

"Did you suspend trial?"

"Suspend nothing. I just went right along as if it was a bible sure enough. Nobody, you may be sure, in that office knew what I found but myself."—Savannah News.

Population and Subsistence.

No economic discussion has raged more fearlessly than that over the doctrine of Malthus, who threw out the awful suggestion that the human race would outgrow its means of subsistence. The subject has had fresh attention drawn to it by the publication of recent European statistics, which conclusively demonstrate that the birthrate is decreasing in England and in every nation on the continent, in spite of the fact that production is increasing. Indeed the facts are so striking that the philosophers feel warranted in promulgating a new theory, almost the reverse of that of Malthus, and that is that civilization will constantly widen the interval between satiety and the starvation line. In other words, it is now assumed that only ignorant, barbarous, and savage people will press upon the limit of subsistence; all others will instinctively avoid the danger.—San Francisco Chronicle.

Heavy Engines

There are six large locomotives which are said to be the heaviest ever constructed. One is to be owned by a railway company in Brazil, and five belong to the Northern Pacific railroad. The weight of these locomotives is 250,000 pounds, or 125 tons, each, thus outweighing any other machine of the same character. They were built by the Baldwin locomotive works at Philadelphia, and are known as "Decapods."

AN UGLY DISCOVERY.

A Report that Should Be Read.

"A recent analysis in Philadelphia by a celebrated chemist of ten popular brands of Sarsaparilla discloses the astonishing fact that these ten samples of blood purifiers (7) contained in the aggregate sixteen different minerals, eleven of which were active poisons. Iodide of Potash was discovered in every sample, mercury was found in all but two, while arsenic existed in six of the ten brands. Not one brand was the pure article."

A reporter took the above clipping of E. W. Joy, the manufacturer of Joy's Vegetable Sarsaparilla. Mr. Joy exhibited no surprise. He said druggists knew it. He said he long ago saw the crying need for a safe and absolutely pure vegetable preparation of Sarsaparilla, hence his was named Joy's Vegetable Sarsaparilla, because it contained nothing but pure Sarsaparilla, combined with the pure juices of California's vegetable alternatives. Unlike potash sarsaparilla, it does not force impurities through the skin, but stimulates the various secretory organs, thereby correcting functional derangements and eliminating all impurities through the natural channels.—San Francisco Examiner.

Sitting on the Safety Valve.

Many are they who have laughed at the story of the green steamboat fireman who sat on the safety valve to prevent it "leaking." Yet thousands are repeating his folly every day. They are troubled with pimples, blotches, eruptions, salt rheum, boils, carbuncles, ulcers and old sores, and are contenting themselves with suppressing the symptoms without removing the cause. They sit on these safety valves which nature is driving out blood impurities, instead of using Dr. Pierce's Golden Medical Discovery, which cures by removing the cause, which is in the blood. It is a wonderful blood purifier and invigorating tonic.

Do you think the proprietors of Dr. Sage's Catarrh Remedy would offer, as they have done for many years, a standing reward of \$500 for a case of catarrh which they cannot cure, if they did not positively know that the Remedy will absolutely and permanently cure catarrh? Sold by druggists, at only 50 cents.

THE VERDICT UNANIMOUS. W. D. Sult, Druggist, Bippus, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. Abraham Hare, druggist, Belleville, Ohio, affirms: "The best selling medicine I have ever handled in my 20 years' experience, is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure all diseases of the Liver, Kidneys or Blood. Only a half dollar a bottle at Daniel J.
