A NARROW ESCAPE.—Yesterday about noon Mr. W. H. Humphreys accompanied by Miss Millie Rodgers, met with quite an accident while on the road to Macleay. They had started from Salem to attend the dedication of the new church at Modern and Macleay. dedication of the new church at Macleay and when they reached what is known as Glover's Hill which is a a long steep grade, in going down this incline the backband of the harness broke letting the main portion of the barness fall down around the horse's feet. This frightened the animal and it started on a dead run down the steep grade but sh'ed out among the oak gaths alongside of the road and for seve all yards things went pretty lively. When in coming around the corner of Commercial and Court streets on Court steet shortly after 11 o'clock the editor J. L. Mitchell was nabled unaware by the hotorious couple who gave vent to some threatening words and proposed to seitle the matter beer and began kicking. Mr. Humphreys and the lady up this time had scaped from the buggy, and after a few vigrous kicks the animal kicked himself loose from the velicle and started on a dead run for the Macleay dedication but falled to wait for his presengers. After the participants in the affairhad picked themselves up an examination showed that neither had sustained any injuries and than Mr. Humphreys was the only loser, as his hat was mizsing. The unfortunate couple were compelled to "foot it" the remaining distance to Macleay and did not arrive until the services were almost over. The horse was found to be severely injured, and the buggy a budly demolished. The creaming badly injured, and may call themselves very lick indeed.

He gives his name as Taylor, is sandy complected, wears chin whiskers, a stiff hat and is very roughly dressed. He works the Grand Army racket to perfection it is said. Look out for him, he is a beat and needs watching.

NEWPORTTO SALEM .- For months Salem and Albany have been discus-sing and planing a railroad to As-toria says the Yaquina Republican. sing and planing a railroad to Astoria says the Yaquina Republican. The indications now point to an early construction of a road from Albany to Astoria. This would give the people of the latter city direct connection to the east and south at Albany. To the east via the Oregon Pacific and to the south by the Southern Pacific. It will be of greater advantage to Astoria than to Albany, as Atbany now has, by the Oregon Pacific, a shorter and cheaper route to the ocean at Yaquina. Salem has no direct line to a scaport except the inland port at Portland and therefore no competition. The most feasible route for the capitol city,—shorter, more easily constructed, and a pearer point to San Francisco—is to build a road through King's valley down the Siletz to Newport, tapping the Astoria & Albany road and the West Side system of the Southern Pacific. A large subsidy could be secured for the construction of this road in Polk county and on this bay. It would have through a fine country abound. the construction of this road in Polk county and on this bay. It would pass through a fine country abounding in timber, stone and coal, that would insure the road a profitable business from the start. A road over this route would bring Salem many miles nearer to a first-class scaport than could be otained by any ine that could be constructed to Astoria. We advise the people of Salem, Independence and Newport to get together and investigate this mater and we believe that they will see the practicability of the project.
