

THE CAPITAL JOURNAL.

PUBLISHED DAILY, EXCEPT SUNDAY.

Capital Journal Publishing Company. (Incorporated.)

Entered at the postoffice at Salem, Or., as second-class matter.

JACOB L. MITCHELL - - - - - Manager

See fourth page for terms of subscription.

Advertisements to insure insertion (for no same day) should be handed in by 1 o'clock.

Correspondence containing news of interest and importance is desired from all parts of the state.

No attention will be paid to anonymous communications.

Persons desiring the CAPITAL JOURNAL served at their homes can secure it by postal card request, or by word left at this office.

Specimen numbers sent free on application.

Office, corner Court and Liberty Streets.

SATURDAY - - - - - NOVEMBER 20

Of all the essences, the devil best loves acquiescence.

THE United States of Brazil decreed universal suffrage.

JAMES H. BEATTIE, of Idaho, has been appointed Chief Justice of the supreme court of Idaho.

In the national flower discussion the marrygold and the toddy blossom have been grossly neglected.

THE good that men do may be interred with their bones, remarks a contemporary, but the coffins of some men are not crowded.

WHAT do we mean when we pray "forgive us our debts as we forgive our debtors?" Do we want God to take us literally? If he should, how much would he forgive?

EVERY church needs three G's—grace, grit and greenbacks. God will supply the grace if we ask him; the minister should supply the grit, and it is the part of the congregation to supply the greenbacks.

As to how to preach; a busy city pastor offers the following homiletical suggestions:

- 1. Have something to say.
2. Say it.
3. Quit.

THE man who for years lives in one community and leads a reputable life, even though he be of moderate ability, will grow in the confidence and esteem of his fellows.

On the same principle a newspaper advertisement becomes familiar to the eyes of the readers. It may be seldom read still it makes the name and business of the man familiar, and its presence in the columns of the paper inspires confidence in the stability of his enterprise.—P. T. Barnum.

A LITTLE IMAGINATION. EDITOR JOURNAL:—I notice in the morning paper a short squib in reference to the haunted barn in South Salem. It seems that since the Salvation army has left town that the periodic spleen of ye Statesman reporter must be leveled at South Salem in some manner. A short time ago it was the Gypsies, now we have it as the Haunted Barn. Now I don't think it's either honorable or fair to make any special portion of the town a target for base insinuations when they are entirely uncalled for. South Salem is well located and is peopled with a respectable decent people; can be found anywhere, and if the said reporter will desist for a brief period from mixing his drinks I think he will find as much to commend in South Salem as anywhere.

Yours, SOUTH SALEMITE, November 20th 1889.

SALEM'S OPPORTUNITY. "There is a tide in the affairs of men which, if it ken at the flood, leads on to fortune."

Wasted opportunities have been the cause of more regrets and sadder reflections than all other misfortunes that have come to mankind. Communities as well as individuals have the same causes for regrets.

This is, therefore, the greatest necessity for watchfulness and careful attention to the affairs of men, whether they effect individuals or communities, in order that the tide may be taken at the flood which leads to fortune.

Salem is a beautiful city, beautiful in her locations and surroundings as well as in her broad streets and prospective parks. Her river frontage, her undeveloped water power, and these fertile lands that surround her reveal possibilities hardly to be measured by her present advancement.

The busy hum of the artisan will soon utilize the forces at command and gather in the fruits of the land if, in the whirl of excitement and eagerness for personal aggrandizement, the avenues of trade are not permitted to close up and drift away from our gates.

Business enterprises cannot succeed without patronage, and patronage cannot be secured without a patronizing community, and a limited community can only sustain a limited amount of business, hence if Salem attains her best she must

reach out for patronizing territory, seek to make herself a commercial center by reaching out for the trade of the more remote districts.

Bridges and good roads are a step in the right direction, but these are local in their effects. Broader and more far-reaching plans should be made, and not only made, but worked. It is not to be expected that all things can be done at once, but let no opportunity pass unimproved.

The Silverton motor line reaches out to a patronizing territory of 5000 inhabitants; this territory is being settled up very fast and will soon double in population.

The trade of these people have drifted from us; shall we not improve the opportunity to regain it? This is one of Salem's opportunities; let it not pass unimproved, and when others offer seize them at the flood tide.

The above was taken from the State Democrat, whose editor seems to fully realize the importance of the Salem and Silverton motor line.

Cured Her Freckles. Misses Lila Jordan and Emma Elwood, of this county, a few days ago were at the junction of the Corydon branch and the Air Line railroad, and had occasion to cross a deep ravine, over which was a very high and long trestle. They ventured upon the lofty structure, and with careful step managed to keep safely upon the cross ties until they had reached about the center of the trestle, when looking ahead of them, they saw a train coming. What could they do? If they should turn back the train would overtake them before they could get half way off, and to jump from the trestle would be a doom equally as horrible. So the thought came to them that nothing could save them from an untimely and awful death but to swing under the trestle until the train could pass.

They hastily got down between the cross ties, and locking their tender arms around a girder, they swung off under the trestle a hundred feet or more from the ground below, while the train went thundering over them, almost shaking them from their grip for life. When the train had passed over, the girls had barely strength enough left to drag themselves back upon the trestle and complete their journey. When they reached home their faces were deathly white. When they recovered from the fright it was found that the freckles had entirely disappeared from the face of one of the ladies.—Corydon (Ind.) Cor. Louisville Courier-Journal.

How Gold Rings Are Made. Gold rings are made for bars nine to 15 inches long. One of these bars, fifteen inches long, two inches wide and three-sixteenths of an inch thick, is worth \$1,000, and will make 300 four penny-weight rings. A dozen processes and 20 minutes' time are required to convert this bar into merchantable rings. First a pair of shears cuts the bar into strips; then by the turn of a wheel a guillotine-like blade attached to the machine cuts the bar into slices, one, two or three-sixteenths of an inch wide. A rolling machine next presses out the slices and makes them either flat or grooved. Each strip is then put under a blow pipe and annealed. The oxide of copper comes to the surface, and is put into a pickle of sulphuric acid, after which the gold is stamped "14k," "16k" or "18k" according to quality. Next it is put through a machine which bends it into the shape of a ring of the size desired. The ends are then soldered with an alloy of inferior fineness to the quality of the ring. Many people think that rings are moulded because they can't see where they are soldered. The ring spins through the turning lathe, is rounded, pared and polished, first with steel filings, then with tripoli and rouge.

CAUSE OF THE GROWL. "What are you growling at, sir?" "At the amount you are eating, sir! Have you no regard for the feelings of a dyspeptic, sir?" "No sir! Go and take a course of Joy's Vegetable Sarsaparilla and you won't have the dyspepsia, sir!" John Argall, of 628 Golden Gate avenue, writes: "You may also use my name as an additional authority that Joy's Vegetable Sarsaparilla will cure dyspepsia and liver and kidney complaint. It has done it for me." James Wells, Oakland, Cal., writes: "I suffered acutely from dyspepsia for years, scarcely taking a meal without the distressing pains of indigestion. Joy's Vegetable Sarsaparilla relieved me of it entirely."

\$60 Salary, \$40 expenses in advance, allowed each month. Steady employment at home or traveling. No soliciting. Duties delivering and making collections. No postal cards. Address with stamp, HAFER & CO, Piquette, Ohio. 11-13-89

I wish to employ a few ladies on a salary to take charge of my business at their homes. Light, very fascinating and healthful work. \$10 per week. References given. Good pay for part time. Address with stamp, MRS. MARION WALKER, Louisville, Ky. 11-13-89

the foreigner pays none of the tax, since he becomes rich by importation, and finds here the highest market in the world. The man who wears the imported hat bears every ounce of the tax-burden. * * * It will thus appear plain that so long as the importation of foreign hats continues, the American consumers are paying the full amount of the tariff tax, not only upon all those imported, but upon the entire volume of our own productions also. But if importation stops, as it must when the domestic price has touched a figure even a shade less than that dictated by the tariff (\$1.50), then all revenue ceases, and the protection of the home manufacturer is complete, since he has an absolute monopoly of the market. But the tax burden of the hat-wearer is almost as great as before, and the whole of it goes as a bonus to the domestic manufacturer and not a cent of it in to the till of the government.—Prof. Edward Taylor.

Cured Her Freckles. Misses Lila Jordan and Emma Elwood, of this county, a few days ago were at the junction of the Corydon branch and the Air Line railroad, and had occasion to cross a deep ravine, over which was a very high and long trestle. They ventured upon the lofty structure, and with careful step managed to keep safely upon the cross ties until they had reached about the center of the trestle, when looking ahead of them, they saw a train coming. What could they do? If they should turn back the train would overtake them before they could get half way off, and to jump from the trestle would be a doom equally as horrible. Catarrh

is a constitutional and not a local disease, and therefore it cannot be cured by local applications. It requires a constitutional remedy like Hood's Sarsaparilla, which, working through the blood, eradicates the impurity which causes and promotes the disease, and

Catarrh

effects a permanent cure. Thousands of people testify to the success of Hood's Sarsaparilla as a remedy for catarrh when other preparations had failed. Hood's Sarsaparilla builds up the whole system, and makes you feel renewed in health and strength.

Catarrh

I used Hood's Sarsaparilla for catarrh, and received great relief and benefit from it. The catarrh was very disagreeable, especially in the winter, causing constant discharge from my nose, ringing noises in my ears, and pains in the back of my head. The effect to clear

Catarrh

my head in the morning by hawking and spitting was painful. Hood's Sarsaparilla gave me relief immediately, while in time I was entirely cured. I am never without Hood's Sarsaparilla in my house as I think it is worth its weight in gold." Mrs. G. B. GIBB, 1028 Eighth Street, N. W., Washington, D. C.

Hood's Sarsaparilla sold by all druggists. \$1.50 per bottle. Prepared only by C. L. HOOD & CO., Apothecaries, Lowell, Mass. 100 Doses One Dollar

The Smallest Printing Press. A firm on Wall street, New York, have in operation and on exhibition what is probably the smallest working printing press in the world. It is an interchangeable cylinder and prints from a continuous roll, with a cut-off. It is but 12 1/2 inches in length and 7 1/2 inches in height. Its width in the widest part is less than 7 inches. In the office where it is in use it has been necessary to furnish brokers and others a daily letter of financial news. Until the invention of this miniature press the service was performed by the manifold system. Nine manifolds, each working very rapidly, were required to perform the service. With this little lightning press, after the types are set, 200 copies per minute of any circular can be printed. With the dynamo machine lately attached, it has printed as high as 700 copies per minute.

Consumption the Incurable Disease. With its attendant sufferings, can be relieved and often cured if Holden's Etheral Cough Syrup is taken promptly. Large size \$1.00, small 50 cents. For sale by all Druggists.

The beauty of having children in the house is that whenever you want small change you can always find it in the children's bank.

Carry a dollar and a nickel in a pocket with a hole in it and you will lose the dollar and save the nickel.

A Woman's Discovery. "Another wonderful discovery has been made and that too by a woman in this county. Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly and could not sleep. She bought of us a bottle of Dr. King's New Discovery for Consumption and was so much relieved on taking first dose that she slept all night and with one bottle has been miraculously cured. Her name is Mrs. Luther Lutz." Thus write W. C. Hamrick & Co. Shelby, N. C.—Get a free trial bottle at Daniel J. Fry's drug store.

The Sacred Standard of Mohammed. The famous Sacred Standard of Mohammed is now at the Museum of Artillery at Turin, Italy. It was formerly in the mosque of Abou Ayoub of Constantinople, but Baron Tecco, the Sardinian ambassador, purchased it in 1839 of the guardian of the mosque, and sent it to King Charles Albert. It is of red silk, with several verses from the Koran embroidered on it in yellow letters. The height is slightly over 6 feet and the width about 6 1/2 feet.

The Verdict Unanimous. W. D. Sult, Druggist, Bippus, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles, and was cured of Rheumatism of two years' standing. Abraham Hare, druggist, Belleville, Ohio, affirms: "The best selling medicine I have ever handled in my 20 years' experience, is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure all diseases of the Liver, Kidneys or Blood. Only a half-dollar a bottle at Daniel J. Fry's Drug Store.

A woman believes that there is nothing that the Lord will forgive more readily than the sewing of a button on an angry husband's shirt Sunday.

Baelken's Arnica Salve. The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter chapped hands, chilblains, corns and all skin eruptions, and positively cures piles or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by Daniel J. Fry, druggist.

The Best Residence Localities

In the city of Portland and other prosperous towns are those owned by men or corporations who have the disposition and ability to improve them.

HIGHLAND ADDITION

-IS OWNED BY-

THE OREGON LAND COMPANY!

And this Corporation is determined to

Make It The Most Attractive Addition

To the city of Salem. They have at this time fifteen teams employed and the contemplated improvements have scarcely begun. It is intended to make the drive leading from Commercial street through Riverside and Highland additions and around Highland Park

THE FINEST DRIVE IN THE STATE

Of Oregon. The line of the Salem Street Railway Company runs through the middle of this addition, and no lots will be more than two blocks distant from the line. Highland Park will in the near future be

THE MOST POPULAR RESORT

ABOUT THE CITY OF SALEM.

Lots in Highland Addition are High and Dry and Well Located; Most Excellent Drainage

The soil is black and rich. From all points a fine view is obtained of the public buildings and our highest mountain peaks. Arrangements are already being made for the location of two churches in this addition, and a number of residences are soon to be built. Buildings only of the best class will be permitted. Residence lots within the limits of the city of Salem are worth on an average over \$1000. We can sell you better lots in Highland addition for one-third of the money, and being directly on the line of the street railway they are practically not half so far from the public buildings and the business part of the town as the majority of the so-called "inside lots."

Buy a Lot in Highland Addition for Three Hundred Dollars,

And let some other fellow pay \$1000 for an inferior lot not so well located. With the difference of \$700 you can build a beautiful cottage, or put it out at a rate of interest that will buy you nearly two thousand street car tickets every year.

John A. Carson, COUNSELOR, ATTORNEY-AT-LAW AND NOTARY PUBLIC. Member of the Bar of Ontario, Canada. Office, 99 State Street, Salem, Oregon.

Educate For success at the CAPITAL BUSINESS COLLEGE, Salem, Oregon. A. P. ARMSTRONG, Mgr. E. L. WILEY, Prin. Business, Shorthand, Typewriting, Penmanship and English Departments. Day and evening Sessions. Students admitted any time. Call at the College or address the Principal for catalogue.
