MONMOUTH NOTES.

J. Macey and family, of Salem, were visiting relatives here Saturday. Weather extremely foggy with some frost, indicating that winter is approachigh in due form.

Prof. R. O. Spear's lecture was well attended and very highly speken of by those who neard him.

F. S. Barzee leaves the first of this week for Sherman county, on a business trip, he also has some important matters to look after at Portland, for a company here. The quarterly Sunday school con-Uters H A Walling J D White H W

cert given at the church Sunday evening, was well attended, and an evidence of the efficient work of Zoring J C the management was clearly mani- Zumalt Hardy
A. N. GILBERT, P. M. fested.

The Misses Long and Scriber gave a magnificent literary entertainment here Saturday evening to a small but appreciative audience. We heartily endorse them, and hope we shall be favored with their presence again in the near future.

The city election passed off here to-day very quietly, with the following named gentlemen elected to hold the reins of city government for the ensuing year. Hon. N. L. Butler, President of the council; J. M. Powell, Wm. Sellers, Rev. H. W. Laye, and Rev. John Osborn, councilmen; P. L. Campbell, recorder; Ira C. Powell, treasurer; Thos. Boo thby, marshal.

The Western Oregon Land company, recently organized here, are making a vigorous effort to acquire better transportation facilities, and we trust that at least one feature may be accomplished soon, viz.: a direct line of railroad from Salem to Yaquina bay via Monmouth. This thing is sure to come in the near future, and only for the opposition of capitalists, as we believe, it would have been built long ago.

It has often been charged that the people of the United States, proud of the commanding position of their country in the western hemisphere, and conscious of their overshowing strength, have been unfriendly, bigoted, and contemptuous in their attitude toward the weaker nations to the southward. If it was ever true it is true no longer. The universal and hearty interest shown in the Pan-American congress, and the cordial welcome everywhere extended to the delegates from the Spanish-American countries and the Empire of Brazil demonstrate the desire of the American people for more intimate relations with their neighbors between the Rio Grande and Cape Horn. Intelligent Americans understand now that there are other nations this tide of the Atlantic which not only possess abundant natural resources, but energetic and progressive citizens, and that the Argentine Republic, Chili and Brazil, for example, are making almost as rapid progress as the United States. If the fruits of the congress at Washington fall short of reasonable expectations, it will not be on account of any lack of good-will on the part of the American public toward the other nations represented:

Useful Rags. Rags for daily use. Boil soft rags in a mixture of new milk and nartshern powder in the proportion of one ounce of powder to a pint of milk; boll them for five minutes; wring them as soon as they are taken out, for a moment in cold water, and dry them before the fire. With these rags rub the silverware briskly as soon as it has been well washed and dried after daily use. A most beautiful deep polish will be prouced, and the articles will require nothing more than merely to be dusted with a loather or a dry, soft cloth, before it is again put on the

while on a recent hunting tour

of southern Missouri," said John L. Martin. "was that of a mative of that part of the country, who skinned a coon, or rather removed the coon from the skin through its mouth, thus preserving the skin intact, which I brought home with me, and am having mounted by a taxidermist. The feat is considered a most remarkable one. This is no fish story; it is the truth. The operator removed the flesh and bones, even the bones of the tail, feet and fingers, through the mouth, using no other instrument than a sharp penknife."

For the Public Good.

It is an indisputable fact that the handsomest vestibule trains that are now run
on the American continent are those on
the Burlington route, leaving from Union
depot in Denver, also St. Paul, immediately on arrival of all through trains from the
west. The first and second class coaches
are magnificent, the reclining chair cars
suburb. the Pullman sleepers extremely
luxuriant, and as for the meals that are
served in those palace Burlington dining
crrs—yum yum. The next time you go
east to Kansas City, Chicago or St. Louis,
if you mention to the ticket agent that you
want your ticket to read from Denver or
St. Paul over the Burlington route, you
will get it, and you will always be glad of
it.

will get it, and you will always be glad of it.

If you go via the Northern or Canadian Pacific, the elegant vestibule trains of The Burlington Route, between St. Paul and Chicago, or St. Louis, will carry you along the eastern shore of the Mississippi river for a distance of 350 miles, amidst scenery that cannot be surpassed; or, if you go via the Oregon Short Line or Southern Pacific, and your ticket reads via The Burlington Route from Cheyenne or Denver, you will pass through all the thriving cities and towns located in what is popularly known as the Heart of the Continent. For further information apply to A. C. Sheldon, General Agent, 55 First street, Portland, Oregon.
