ONE of the society events of the week by the Brooklyn elite last week was the presence of John L. Sullivan at the christening of a girl baby. The great brute blushed in the presence of the ladies, and admitted that he will never be able to behave in their presence.

THE new straw binding harvester will soon be on the market and is claimed will work to perfection, doing away completely with the twine trust. Let us hope it may be It is claimed that the new device is more simple than the twine binder and as easy of operation.

ENTHUSIASM PREVAILS.

McMinnville Wants a Railroad to the Sea, and She Will Have It. Wake Up and Work Your Jaws.

The McMinnville Telephone Regster says the railroad meeting held in the opera house Monday night was very enthusiastic and was well attended. A delegation of Salem people was in attendance and helped the ball along. They were some of Salem's substantial business men and are pushing the scheme. Everybody knows them; they were: E. M. Waite, B. S. Cook. E. B. Me-Elroy, Squire Farrar, and H. W. Cottle.

A. J. Apperson was elected chairman of the meeting, and J. L. Rogers secretary. If the meeting is a criterion the railroad will be built, for the people assembled, were in favor of the road, and all expressed themselves as willing to do everything in their power in order to get it.

Speeches were made by the entire Salem delegation, Wm. Galloway, J. E. Magers, George Burnett, T. B. Merry, and others.

The three passes through the mountains west of the city were discussed, and the Salem delegation expressed themselves that McMinnville was the desirable point; provided however, that McMinnville will hold out a helping hard to Salem. The passes west of us have a must be long.

Tillamook is!Ready.

Tillamook is all ready for the Salem, Astoria & Eastern, as the following from the Tillamook Watchtower would indicate: "The good people of Salem are alive at last to their own interests and clamor for an outlet to the sea. It does make some difference whose ox is gored. We of Tillamook are now and havebeen very anxious for a railroad from Tillameok to Salem, but with all our efforts we could gain no sympathy from those outside. Now the matter has changed, at least in part. We of course, are just as anxious as ever, while Salem is more anxious than we are. Yet we will find no fault with her but will join hands with her and help her to come marching to the sea through Tillamook, and in point of real fact we would be pleased with a Salem connection. To be connected with the state capital is no bad investment; and so we will join the ranks as we go marching through Tillomook,"

Of all royal personages, the Prince of Wales is the most noted for the enormous quantity of luggage which he causes to be sent with him on his journeys. He takes whole boxes of hats and huge trunks of dress suits, morning suits and other changes. He makes a point, when visiting anywhere, of not being seen twice in the same coat, and the variety of his garments is as astonishing as the tailor's bill for them

AN UGLY DISCOVERY.

A Report that Should Be Read.

"A recent analyzation in Philadelphia by a celebrated chemist of ten popular brands of Barsaparilla discloses the astonishing fact that these ten samples of blood purifiers (?) contained in the aggregate sizten different minerals, eleven of which were active poisons. Iodide of Potash was discovered in every sample, mercury was found in all but two, while arsenic existed in six of the ten brands. Not one brand was the pure article." A reporter took the above clipping to E. W.

Joy, the manufacturer of Joy's Vegetable Sarsaparilla. Mr. Joy exhibited no surprise. He said druggists knew it. He said he long ago saw the crying need for a safe and absolutely pure vegetable preparation of Sarsaparilla, hence his was named Joy's Vegetable Sarsaparilla, because it contained nothing but pure syrup of sarsaparilla, combined with the pure juices of California's vegetable alteratives. Unlike potash sarsaparillas, it does not force impurities through the skin, but stimulates the various secretive organs, thereby correcting functional derangements and eliminating all impurities through the natural channels -San Francisco Examiner.

ABOUT THE CITY OF SALEM.

Lots in Highland Additon are High and Dry and Well Located; Most Excellent Drainage

The soil is black and rich. From all points a fine view is obtained of the public buildings and our highest mountain peaks. Arrangements are already being made for the location of two churches in this addition, and a number of residences are soon to be built. Buildings only of the best class will be permitted. Residence lots within the limits of the city of Salem are worth on an average over \$1000. We can sell you better lots in Highland addition for one-third of the money, and being directly on the line of the street railway they are practically not half so far from the public buildings and the business part of the town as the majority of the so-called "inside lots."

Buy a Lot in Highland Addition for Three Hundred Dollars,

And let some other fellow pay \$1000 for an inferior lot not so well located. With the difference of \$700 you can build a beautiful cottage, or put it out at a rate of interest that will buy you nearly two thousand street car tickets every year.
