MONDAY JANUARY 20

A DOZEN eggs are still worth just as much as the hen that laid 'em.

If there was any way to make "Drowned While Skating," rhyme with "Drowned While Bathing," the poets of the seasons would have two familiar headlines, in summer and winter respectively, a good start for a combined winter and summer poem.

WALTER C. SHELDON at Providence, R. I., two years ago was worth \$75,000. With the aid of wine and women he was selling claims on the streets fourteen months afterward, and when the cold snap came on, his occupation was none other than to sell a dose of morphine and end his life.

AN Oregon farmer says: "In my orchard I have a few trees of greening, from which I gathered thirty-eight boxes of apples, which netted me at the orchard 70 cents per box, or \$7.50 each for the four trees. Taking seventy trees to the acre, which is the usual number planted, gives a nice little return of \$525 per acre."

THE STATE REFORM SCHOOL.

In an interview with a Telegram reporter Saturday morning, Governor Sylvester Penneyer explained why the state board of commissioners, appointed to secure a site for the State Reform school, have been so long in selecting the ground.

"The board consists of myself as governor, Secretary of State Hon. G. W. McBride, and Superintendent of Public Instruction Hon. E. B. McElroy. At the last session of the Oregon state legislature, the sum of \$30,000 was appropriated to pay for the ground and erect the home. We at once began to look about with a view to selecting the most favorable locality. In our search we canvassed the entire state. Land about Portland was held too high. We thought for a while that the vicinity of Milwaukie offered pretty good advantages, but it had its drawbacks, too. During the month of last May, we discovered that we could buy the Warren farm, which lies four miles south of Salem. The farm consisted of 320 acres, the price of which was \$11,280. We concluded to buy it, but as there was a minor heir to the estate, we had to secure an order from court authorizing the sale of it.

"This step was accomplished only this month, and a week ago last Wednesday negotiations were brought to a close by the purchase, and now the state owns the land. Adjoining the farm is a piece of twenty acres, which we bought. This purchase swelled the outlay to \$17,000. By it we secured access to Mill creek, from which an abundant water power can be taken. Thus, the school can carry on a manufacturing business, enabling the inmates to learn various kinds of trades.

"The sum of \$10,000 now remains, with which to do the building. Of course that is not enough to carry it to its entire completion. We can put up such a structure as will admit of wings being added to it. By provision of the bill authorizing the establishment, all the brick used in its composition must be made at the state penitentiary. During the past year the entire output has been used in building the new wing at the asylum. This wing is longer than the one built two years ago, hence it required more brick. Just as soon as we can get the brick, and it will not be long, we shall begin operations. Had we secured the ground and erected the building last year, it would of necessity, have stood idle, because the legislature did not appropriate a cent for operating it. By the time the legislature meets again it will be ready for occupancy. I think we have made the best selection that was available. We got the ground at a low price and it is now worth more than it was bought for. It is just near enough to the city, and is on the line of the Southern Pacific, and I think we can induce the company to establish a station at the school.

"There is no doubt but such an institution will be a great benefit to the state. There are a number of boys in the penitentiary now who should not be there. When the school is established no doubt a provision will be made for their removal to it. It is a shame that boys so young should be put in a great prison among so many hardened criminals. Regarding the name of the institution, I suppose it will be called a reform school, pure and simple. It would be most too nice a distinction, I think, to give it a more aristocratic name."

Hidden Just in Time. Philadelphia North American. Mr. Geo. Kennan, the Siberian explorer and exposé, is one of the most entertaining conversationalists whom a person can meet. He is a very unassuming man and very modest. Some of his most thrilling experiences will probably never be put in print, or, at least, not for a number of years, for strange as it may seem, Mr. Kennan hopes to again visit Russia at the end of two or three years. He has had many narrow escapes from death and the mental strain produced by them was naturally very great. One of these which has not been printed occurred once while he was in a nihilist's house. He had papers with him which, if found, would result in his being instantly shot. He was informed that the officers were on his track, and would arrive at this house within five minutes. Russian officers are very thorough when making a search for anything of this nature, and what to do with these papers was a most pertinent question. But to think was to act, and taking up a hand-glass upon the table he pried out the back with his knife, hastily put the papers in the frame and restored the back to its place just as the officers arrived. The search was made, the glass raised from the table, but the papers were not found. This is but a sample of the many experiences Mr. Kennan had in Siberia. He says that the horrors of the prison system there in vogue cannot be described in words so as to convey any accurate idea to the reader or hearer.

RIVAL TOWNS.

The editor of the Tacoma Globe gets in a booming state and pines the following for the direct benefit of his Seattle brethren. "Seattle knows how to advertise and that's a good thing to know. Not long ago a telegram went through the country which said that Seattle had raised \$25,000 in a few minutes as a little sop for Sullivan and Jackson, provided they would fight in that city. Jackson and Sullivan will fight in some other place for less than half the sum which Seattle was said to have offered. Hence it is natural to suspect that Seattle had a very large tow-line attached to that \$25,000. But it was a good 'ad.' Seattle builds railroads on paper until it seems to be almost a wonder that there is any good paper for railroad building purposes left. Now Seattle is going to be heated by steam and is also to have an arrangement which will throw a hundred streams of salt water from a given section of the city, and the power will also be used to drive elevators and numerous other things. The fact that Seattle has this all arranged for—on paper—has already been telegraphed throughout the country and makes a good advertisement. Little, however, is being said about Tacoma's arrangements of a similar though much more thorough character. This city is not only to be heated entirely by steam, but that same steam will be so adjusted as to do the cooking for all households, which will accept the service free. It will also run great dynamos, capable of furnishing the power for an immense rolling mill; the trains on all local railroads, nineteen new grain elevators, two additional smelters and a small match factory, which will be parts of the general plant. To this will be added a great expanding shovel, or scoop, worked by the same power and handled by mighty derricks, which in case of fire, will be capable of being dipped into the Sound and lifting up a sheet of water four inches deep and a hundred yards square in surface, at each dip, which can be thrown upon a burning block, much as one throws down the lid of a chest, thereby quenching a conflagration by one dab, as it were."

Leads the World. The United States now leads the world in the production of pig iron. The Iron Age says: "We are producing at a rate now which comes pretty close to the greatest production ever recorded in the history of Great Britain. We are now actually making more pig iron than that country is currently producing." The Philadelphia Press says: "The production of pig iron on November 1, was the largest ever known in this country, the weekly capacity of the furnaces in blast being 165,225 tons, or 14,168 tons more than October 1, and 10,827 tons more than on January 1, which was the period of the highest production previous to November 1. This enormous production places this country first in the world as a maker of pig iron. The output in England is now at the rate of 7,898,634 tons per year, while that of the United States is at the rate of 8,500,000 tons per annum."

Man is Composed of Air.

The following is from Justus Liebig, the greatest chemist of the nineteenth century: "Science has demonstrated that man, the being which performs the greatest wonders, is formed of condensed air, or solidified and liquefied grasses; that he lives on condensed as well as on uncondensed air, and by means of the same agent, moves the heaviest weights with the velocity of the winds. But the strangest part of the matter is that thousands of these tabernacles formed of condensed air are going on two legs, destroying other forms of condensed air which they may need for food or clothing, or on account of their power, destroying each other in pitched battles, by means of the same materials of which they are composed. Chemistry supplies the clearest proof that, so far as concerns this, the ultimate and most minute composition and structure, which is beyond the reach of our senses, man is, to all appearances, identical with the ox, or even with the animals lowest in the scale of creation."

German military experts in the course of recent experimental maneuvers found that barbed wire could be made very efficacious in fortifying entrenched positions.

The university of Sydney, New South Wales, will shortly come into the best quest made by the late J. H. Chubb, of property amounting to \$1,000,000.

A Better System at Seattle.

SEATTLE, Jan. 7.—The Seattle Steam, Heat and Power company closed a contract to-day for the construction of a 60,000 plant to heat and furnish power for elevators and for twenty-three of the largest brick buildings in this city. The system will be connected with the bay so that in case of fire 100 streams of salt water can be turned on at once, which is seven times the amount the present water works can do in the district covered by the new system.

The Pulpit and the Stage.

Rev. F. M. Shroust, Pastor United Brethren Church, Blue Mound, Kan., says: "I feel it my duty to tell what wonders Dr. King's New Discovery has done for me. My lungs were badly diseased, and my parishioners thought I could live only a few weeks. I took five bottles of Dr. King's New Discovery and am sound and well, gaining 20 lbs. in weight."

Arthur Love, Manager Love's Funny Folks Combination, writes:

"After a thorough trial and convincing evidence, I am confident Dr. King's New Discovery for Consumption, Coughs, Croup and Cures what everything else fails. The greatest kindness I can do my many thousand friends is to urge them to try it." Free trial bottles at Daniel J. Fry's Drug Store. Regular sizes 50c. and \$1.00.

The United States make 2,151,515,393 cigarettes yearly, and 3,867,887,640 cigars. Horses are carried by steam in Chicago, and 150 horses are cleaned in two hours. Some New York shoe manufacturers work their hands 16 hours a day for barely enough to live. In Michigan part of a mine fell and the compressed air blew the miners like chips, killing three. An Albany, Vt., man has shipped to western markets this year 8,000 tons of maple sugar, valued at \$97,000. The scarcity of camphor is caused by the government of Japan allowing its poor to cut the trees down for fuel. J. W. Branch, of St. Louis, received a letter the other day that was written to him twelve years ago. Some Pennsylvania manufacturers are talking of getting up a large steamship with which to peddle their products along the South American coast.

Epoch.

The transition from long, lingering and painful sickness to robust health marks an epoch in the life of the individual. Such a remarkable event is treasured in the memory and the agency whereby the good health has been attained is gratefully blessed. Hence it is that so much is heard in praise of Electric Bitters. So many feel they owe their restoration to health, to the use of the Great Alterative and Tonic. If you are troubled with any disease of Kidneys, Liver and Stomach, or long or short standing you will surely find relief by use of Electric Bitters. Sold at 50c. and \$1 per bottle at Daniel J. Fry's Drugstore.

The Best Residence Localities

In the city of Portland and other prosperous towns are those owned by men or corporations who have the disposition and ability to improve them.

HIGHLAND ADDITION

—IS OWNED BY—

THE OREGON LAND COMPANY!

And this Corporation is determined to

Make It The Most Attractive Addition

To the city of Salem. They have at this time fifteen teams employed and the contemplated improvements have scarcely begun. It is intended to make the drive leading from Commercial street through Riverside and Highland additions and around Highland Park

THE FINEST DRIVE IN THE STATE

Of Oregon. The line of the Salem Street Railway Company runs through the middle of this addition, and no lots will be more than two blocks distant from the line. Highland Park will in the near future be

THE MOST POPULAR RESORT

ABOUT THE CITY OF SALEM.

Lots in Highland Addition are High and Dry and Well Located; Most Excellent Drainage

The soil is black and rich. From all points a fine view is obtained of the public buildings and our highest mountain peaks. Arrangements are already being made for the location of two churches in this addition, and a number of residences are soon to be built. Buildings only of the best class will be permitted. Residence lots within the limits of the city of Salem are worth on an average over \$1000. We can sell you better lots in Highland addition for one-third of the money, and being directly on the line of the street railway they are practically not half so far from the public buildings and the business part of the town as the majority of the so-called "inside lots."

Buy a Lot in Highland Addition for Three Hundred Dollars,

And let some other fellow pay \$1000 for an inferior lot not so well located. With the difference of \$700 you can build a beautiful cottage, or put it out at a rate of interest that will buy you nearly two thousand street car tickets every year.

Sheriff's Sale.

NOTICE is hereby given that by virtue of an execution issued out of the Hon. Circuit Court of the State of Oregon for the county of Marion on the 12th day of December 1889, and to run directed upon a judgment rendered in the justice court for said county, in favor of the plaintiff, state of Oregon, and against the defendant, state of Oregon, and a certified transcript of which was duly filed and docketed in the office of the clerk of the circuit court of the state of Oregon for the county of Marion, on the 4th day of May, 1890, wherein said state insurance company, recovered judgment against O. E. Dennis, for the sum of \$10 with interest thereon at the rate of 10 per cent per annum from the 30th day of April 1888 and costs, and disbursements taxed at \$10.85 and commanding me to satisfy the same together with accruing cost out of the property of said O. E. Dennis, I have levied upon and will sell the highest bidder for cash in hand on Saturday the 14th day of February, 1890, at the court house door in Salem, Marion county, Oregon, at 1 o'clock p. m., of said day all the right, title and interest which O. E. Dennis had on the 4th day of May 1888 or since in and to the following described real property to-wit: Lots No. fifty-three (53), fifty-four (54) and fifty-five (55), as known and designated on the lands of Thomas Cross in township 36 south range 12 west in Marion county, Oregon, as recorded in the clerk's office in said Marion county, on the 14th day of November, 1878, the same being known and designated on the plat of the Government surveys as lots one (1), two (2) and three (3), of section four (4), in township six (6), south range three (3), west of the Willamette meridian, Marion county, Oregon, and containing one hundred and eighty-seven (187) 65-100 acres of land, more or less. Dated this 1st day of January, 1890. E. M. CHOLISAN, Sheriff of Marion county, Oregon, 13-wit.

Sheriff's Sale.

NOTICE is hereby given that by virtue of an execution issued out of the Hon. Circuit Court of the State of Oregon for the county of Marion, on the 24th day of December, 1889, and to me directed upon a judgment and decree duly rendered, wherein George A. Sheppard was plaintiff and C. W. Parrish and J. L. Parrish were defendants, in favor of plaintiff and against defendants, by which execution I am commanded to sell the real property herein after described, and out of the proceeds of such sale to pay the costs and expenses of sale, the costs and disbursements of said suit, taxed at \$7.45 and \$10.00 attorney's fees, and the further sum of \$69.86 in U. S. gold coin, together with interest thereon at the rate of 10 per cent per annum since the 15th day of October, 1887, I have levied upon and will sell on Saturday the 23rd day of January, 1890, at the hour of two o'clock in the afternoon, of said day, at the west door of the county court house in Salem, Marion county, Oregon, sell at public auction to the highest bidder, for cash in hand on the day of the sale, all the right, title, interest and estate which C. W. Parrish and J. L. Parrish defendants, owned in said described premises, to-wit: The following described real estate situated in Marion County, Oregon to-wit: Commencing at a point where the east line of the downtown land owned by J.
