SATURDAY..... JANUARY 25 SPECIAL ANNOUNCEMENT.

Telegraph Service—Special Home Edition of 3000—New Management.

The public are invited to take notice that on next Monday, Jan. 27th, the EVENING JOURNAL will put on a press and special telegraph service, giving in complete and condensed form all the important news of the day up to the hour of going to press.

The liberal advertisers of the capital city have made arrangements with us to send to the East an extra edition of 3000 copies of the EVENING JOURNAL to set forth the peerless merits of the state of Oregon in general and the city of Salem in particular.

The new management of the JOURNAL, with increased force to serve the public, will take charge on the above date.

A GERMAN traveler considers Niagara Falls "Der sublimity of v. t. ness."

THE Albany Herald has moved into larger and more commodious quarters.

THE regions of the big snows have one consolation—they are reasonably assured of big crops.

WE are pleased to receive the Willamette Valley Tribune, Independence, as an exchange.

A TACOMA man has the contract for boarding the city prisoners at 15 cents a meal. Cheap enough if the bill of fare is all right.

It is said tobacco smoke has a dangerous and poisonous effect on meats. Hence don't smoke in a meat market or kitchen.

To Secretary of the Treasury Windom at Washington: "Get a better grip on silver or you may lose your grip on the people."

To make a good impression on visitors let every true friend of Salem see that the yard, street and alley about his place is as neat as a pin this spring.

As nearly as we can ascertain the number of cases of la grippe is rapidly diminishing, and we hope soon to chronicle the entire absence of this friend to the doctors.

A NUMBER of our exchanges are exercised over the actual population of the bad place. Those editors should be more concerned about getting in the other direction.

JOHN L. SULLIVAN has a faculty for striking hard blows in a telling manner. The other day he said: "I am getting tired of making stereotyped expressions." A good hit.

It is the country's cry. In his inaugural message to the legislature Gov. Abbott of N. J. said that the best sentiment of the country in all states demands ballot reform and honest elections.

THE Democratic Tacoma News gives this rather difficult advice to its party: It is time for men to renounce their partisanship and assert their qualifications for good citizenship.

THE Oregonian inclines to the opinion that: "We have no democratic party in Oregon." We seem to have a democratic governor and democratic treasurer just the same. And Dr. Lane is a democrat.

THERE is a man in Washington who makes a living by waking people up. If such a man could do this work in the proper way he ought to come to Portland. He would find considerable work to do. —Evening Telegram.

OUR government must do more to encourage the building of American steamship lines. The Canada Pacific railroad is backed by the English steamers that ply in the Atlantic and Pacific. A Victoria telegram says: The Parthia sailed this morning with 247 tons of freight, principally cotton and flour, for China and Japan.

AN exchange describes a class of men "who appear to be of those petty minds that are quick to believe the worst about any man and are too narrow to credit men who differ from them in opinion with pure motives of honesty of purpose."

THERE is a strong movement in Canadian parliament for the abolition of the French official language in the Canadian northwest. It will be opposed only by French members. Destiny would have the English language as the official tongue of the American continent. In 300 years it has whipped out all the rest.

THE Dalles Times Mountaineer says: This portion of the northwest is no longer dependent upon the sale of stock as a means of support. Our agricultural resources have been developed, and we suffered more from the partial failure of the wheat crops last season than from any other cause for a number of years. Give the people of Eastern Oregon good crops, and they do not care about an occasional snow storm during the winter.

PEOPLE who have visited the Willamette valley, or resided here for a time and returned to the East generally come to the conclusion that this valley is far ahead of any other place they found. A gentleman who has visited the valley, and now resides in the Eastern states, writes that if he could make his home out here the Willamette valley would be his choice. For scenery, variety, climate and opportunity, no place equals it. California may be a nice state, but taken the year round, Western Oregon is far ahead of her. —Ex.

THE Boise City, Idaho correspondent says: These two years of moderate and fully justifiable growth have caused an inflation of values, or rather a locking up of property, slightly injurious to the town. It is simply impossible to buy desirable property at an advance of 50 per cent. on the prices of two years ago. Nine-tenths of the property owners decline to name any price for centrally located real estate. In their blindness they are making haste to shut the gates of the town, and prevent the growth they desire and expect.

THE Ochozo Review says: It is no longer safe to depend on the range feed for winter, and also that stock, especially sheep, must be run in smaller bands to be profitable. The past three or four seasons have been unusually dry, which has kept the natural grass on the range from growing to its usual height and from winter pasture, but it is also true that the bunchgrass is being killed out, so that it is no longer safe to depend upon it for winter feed. Of course we may expect an occasional mild winter when stock will thrive on the range without artificial feed. But the stockmen must learn from past experiences that there will come winters when stock must be fed, and must make preparations therefor.

ABOLISH THE SUGAR TARIFF. In the United States we consumed in 1886 2,677,845,810 pounds of sugar. On this the refiners, at \$1.10 per 100 pounds extra profit on account of the tariff on refined sugar, received \$29,456,303 over the profit of the refiners in England on the same amount. At the present rate of consumption a writer in the New York Tribune says that in ten years the government will collect as a sugar tax \$580,307,900. He further says that the consumers of sugar could buy the refiners and destroy them, pay all the employees in the refineries full wages for ten years for doing nothing, pay the sugar planters a liberal bounty for ten years, and then save in ten years \$420,307,900 as compared with our present sugar tax.

We trust the republican congress, now republican in both branches, will see the necessity of removing the sugar duty. Abolish this tariff, and enact a law to award a bounty for the encouragement of the production of sugar in this country. That is a pass word of success in the future for the party that brings it about.

Pe-ple We Avoid. New York Sun: People one finds oneself instinctively avoiding:

The person who has conquered his vices, but whose virtues have conquered him.

The person who gives you what you know to be good advice, but which you are not able to follow.

The person who insists upon knowing what makes you look so troubled.

The person who continually reminds you of things that "delight you to have forgotten."

The person who insists upon your expressing yourself upon religion, woman suffrage, or "Is Marriage a Failure?"

The person who always tells you what somebody else has been saying about you.

Work and Wait.

The world isn't as happy as it used to be. Why? Simply because there are too many who try to ape the manners, customs, habits and fables of the rich. In the elder days the young man who had the income of a ploughman, a clerk in a dry goods store, a lawyer's apprentice or anything of the kind, contented himself by staying socially and financially in his place. He said of the rich man, "that person has lived a great many years; he was once poor like I am now, but he worked hard and saved his money, put it into paying investments, succeeded in life, and is now enjoying his 'otium cum dignitate,' his 'dolce far niente,' and all that sort of thing. I will do likewise, and when I have succeeded I will enjoy the things which he is enjoying now," and he did. In those elder days girls learned how to cook and keep house, (unless their parents were rich fools and they learned how to embroider and play the "harpisord") and when they were married they were helpmeets to the honest and industrious young men who married them and thus they lived within their incomes. Luxuries were real luxuries and their children were real children, embryo men and women. Nowadays extensively, a young man with an income of twelve or twenty dollars a week goes to the opera at an expense for tickets for himself and sweetheart of \$3 or thereabouts, a fourth of his weekly salary or thereabouts. He hires a carriage for \$2 to take them home, an expense of another sixth of his salary, or thereabouts. He indulges in fine clothes, suppers and numerous other expenses, which absorb more than his salary, he lives on hope and marries on wind. He aces the rich when he is poor, he hankers after vanities which do not belong to him, and puts on airs if fortune gives one favorable smile. Those who are even financially worse off than he are aping him as much as they can and thus the pattern set by the rich man scorchers the wings of all the little butterflies that flutter about such a light, and the proportion of mortification, chagrin and failure grows abnormal; distress, misery, poverty, come suicide grows apace, and all for going further than circumstances warrant. From these spring nihilism, communism, anarchism and the like, and the world is kept in a flutter and in trepidation.

Young men earn your money before you spend it, and then don't spend all of it. "Save for a rainy day." Learn that fortunes are made by hard work and economy. Don't buy a town lot on credit and expect it to make you rich. Don't be a clam. Crawl before you can walk, walk before you attempt to run. Don't be misled by jack-o-the-lanterns of fashion. Think of the future, of age and responsibility, and some day the world will be your oyster. —Wm. Vlescher, in Tacoma Globe.

The Catholic Church and Divorce. The Catholic Sentinel of Portland says: A recent non-Catholic writer in the Forum has the sagacity to see the danger of divorce and remarriage made easy policy of our state legislation, and has the discernment to perceive that the teaching and practice of the Catholic church on this question is the only way out of the difficulty. The writer says:

The idea that facilities for remarriage should be offered by law to those whose connection has proved unfortunate by the fault of the other party, is of modern origin. The world for a long time did well enough without it, and with far less trouble between husband and wife than now takes place.

Wherever the Roman Catholic religion prevails, divorce is for the most part unknown, because it is condemned by the church.

The truth is, the necessity for this adjunct to marriage has not been shown by the experience of those who have been without it.

The World's Wisdom. From the Atechison Globe: The way to get rich with a rush is to go slow.

Your friends punish you more than your enemies.

When you look at some people the first thing you think of is a club.

Many a man who knows a dollar by sight does not know its value.

Don't try to drown your troubles in a cup; troubles are great swimmers.

It is so easy for a man to say that the people dislike him because of envy.

The first time a man is called badly the thought of a fight comes into his head.

It is safe to say that no girl ever went to a party without wearing something that was borrowed.

There is a coarse streak in every man that lives; it is bound to crop out if you know him too well.

The two ugliest things on earth are the man who looks like a girl

and the girl who looks like a man.

Every man knows how mean he is himself, but is not absolutely sure about his neighbor; hence his fondness for gossip.

RUSTLER.

A QUARTER'S DOZEN.

Michael Hinge, the well-known proprietor of the "Daily" No. 23 Ellis St., San Francisco, last week sent the following letter to the Editor of the "Journal": "My family have been taking Joy's Vegetable Compound for months with splendid results. Our experience has been that after taking it regularly for a short time and getting the system started right, an occasional dose thereafter keeps the system in perfect condition. A peculiarity of your vegetable compound is, that it does not lose its effect, but seems to accomplish the same results continually. As a liver and bowel regulator and corrective in perfection. We would not be without it. In fact I have just bought a dozen bottles to get the reduced price." A. M. Lowe of 223 Jones street, S. F., also writes that it has been his habit for years to analyze the ingredients with a lead-pencil and exclaim: "What a beautiful compound!—the best I have ever had."

My lungs were badly diseased, and my parishioners thought I could live only a few weeks. I took five bottles of Dr. King's New Discovery and am sound and well, gaining 28 lbs. in weight."

Arthur Love, Manager Love's Funny Folks Combination, writes: "After a thorough trial and convincing evidence, I am confident Dr. King's New Discovery for Consumption, Coughs, Croup, and all Cures which everything else fails. Epoch. The transition from long, lingering and painful sickness to robust health marries an epoch in the life of the individual. Such a remarkable event is treasured in the memory and the agency whereby the good health has been attained is gratefully blessed. Hence it is that so much is heard in praise of Electric Bitters. So many feel they owe their restoration to health, to the use of the Great Alleviate and Tonic. If you are troubled with any disease of kidneys, liver and stomach, or long or short standing you will surely find relief by use of Electric Bitter. Sold at 50c, and \$1 per bottle at Daniel J. Fry's Drugstore.

HIGHLAND ADDITION

THE OREGON LAND COMPANY!

And this Corporation is determined to Make It The Most Attractive Addition

To the city of Salem. They have at this time fifteen teams employed and the contemplated improvements have scarcely begun. It is intended to make the drive leading from Commercial street through Riverside and Highland additions and around Highland Park

THE FINEST DRIVE IN THE STATE

OF Oregon. The line of the Salem Street Railway Company runs through the middle of this addition, and no lot will be more than two blocks distant from the line. Highland Park will in the near future be THE MOST POPULAR RESORT ABOUT THE CITY OF SALEM.

Lots in Highland Addition are High and Dry and Well Located; Most Excellent Drainage

The soil is black and rich. From all points a fine view is obtained of the public buildings and our highest mountain peaks. Arrangements are already being made for the location of two churches in this addition, and a number of residences are soon to be built. Buildings only of the best class will be permitted. Residence lots within the limits of the city of Salem are worth on an average over \$1000. We can sell you better lots in Highland addition for one-third of the money, and being directly on the line of the street railway they are practically half so far from the public buildings and the business part of the town as the majority of the so-called "inside lots."

Buy a Lot in Highland Addition for Three Hundred Dollars, And let some other fellow pay \$1000 for an inferior lot not so well located. With the difference of \$700 you can build a beautiful cottage, or put it out at a rate of interest that will buy you nearly two thousand street car tickets every year.
