ABOUT THE CITY OF SALEM.

Lots in Highland Additon are High and Dry and Well Located; Most Excellent Drainage

The soil is black and rich. From all points a fine view is obtained of the public buildings and our highest mountain peaks. Arrangements are already being made for the location of two churches in this addition, and a number of residences are soon to be built. Buildings only of the best class will be permitted. Residence lots within the limits of the city of Salem are worth on an average over \$1000. We can sell you better lots in High-land addition for one-third of the money, and being directly on the line of the street railway they are practi-cally not half so far from the public buildings and the business part of the town as the majority of the socalled "inside lots."

Buy a Lot in Highland Addition for Three Hundred Dollars,

And let some other fellow pay \$1000 for an inferior lot not so well located. With the difference of \$700 you can build a beautiful cottage, or put it out at a rate of interest that will buy you nearly two thousand street car tickets every year.

We run a club for 50 weeks. total of from sixty to seventy thouand every member pays us a certain amount every week. This amount amount every week. This amount depends upon the value of the watch or diamoud the member wishes to get. Thus, if the member desires a \$50 watch or diamond, he or she must pay \$1 a week; if he or she wants a \$25 article they can pay either 50 cents a week for fifty weeks the required length of pipes and the or \$1 a week for twenty-five weeks; and so on. In other words, the weekly payments must amount to the price of the watch or diamond in fifty weeks. Now, in return for this money which we take in we this money which we take in we give out one watch or diamond a week until vvery member has been supplied. Thus every one gets just what they pay for and get it on easy | er altitude and an alignment followwhat they pay for and get it on easy terms. Our way of giving out the goods is perfectly fair and open. Every member is numbered, and all of the numbers are placed in a small scaled envelope in a glass jar in plain sight, and then they are in plain sight, and then they are thoroughly shaken up and mixed, Cannon creek and Meadow creek, and then the first one drawn is awarded the watch or diamond that week. We draw a number every Monday evening at 7:30 and all are much more accessible country, and We have also found it desirable not very naturally reduced. Fourth, it to make known the names of the members of our club. Ladies, in destruction from landslides, falling particular, object to having it snown how they buy a watch or diamond, or what they pay for it. For this most important of all points in its reason we assign a number to each favor is that a flume carrying water member, and when we have a drawing we simply announce that such ing we simply announce that such a number draws, without mention-ing the name.

This is not in any sense a lottery or anything of the kind, for every member is sure to get just what he pays for. Now, if any member does not wisk to wait until his num-ber draws, they can at any time pay up the full amount and take their up the full amount and take their under pressure may be put in mingoods. We furnish any kind, make ing districts. Thus a handsome or price of watch desired, or any revenue will be returned from the other article you may want, and we capital invested in the flume, loug endeavor to use every member per after the main purpose for which it fectly fair. Every watch is just us is built shall have been accomplish fully warranted and the price is just ed.
