VALENTINE'S DAY.—The 14th of February is, or more correctly was, celebrated in England, Scotland and different parts of the continent, particularly Lorraine and Maine in France, by a very peculiar and amusing custom. On the eve of St. Valentine a number of young folks—maids and bachelors—would assemble together and inscribe upon little billets the names of the equal number of the maids and bachelors of their acquaintance, throw the whole into a receptacle of some sort, and then draw them lottery-wise—care, of course being taken, that each should draw one of the opposite sex. The person thus drawn becomes one's valentine. But it is far more probable the custom of choosing valentines is a relic of that nature religion which was undoubtedly the primitive form of religion in North-western Europe—as elsewhere; and that it sprang from a recognition of the peculiarity of the season. Hence, the explanation, that, "about this time of the year, the birds choose their mates, and thence, probably came the custom of the young men and maidens choosing valentines or special loving friends on that day." Valentines are not less extensively manufactured than formerly. The newspapers do not fail to record that the post-men delivered so many more hundred letters on that day than they do in general.

NEWS FROM AN OLD SALEMITE.—While Chas. Hellenbrand was in Astoria he met Frank Buley, who formerly resided in Salem and for a time was on the police force. Frank now owns 160 acres of land a short distance back of Astoria and has struck a coal lead on it that he thinks will yield him a fortune. It is a fine quality of stone coal and the vein discovered is four feet thick. He has had samples sent east and a large iron smelting works pronounce it superior to any coal for their use yet discovered, and say that if a sufficient quantity is found, they will establish a branch business on the coast where it will be accessible for the use of this coal. Mr. Buley will fully investigate and explore his new coal field over which he is sanguine of success. Charlie brought back with him a sample of the find.

A BOLD IMPOSTER.—Rev. Wm. Rollins, of the M. E. church, informs a JOURNAL reporter, that a few days ago he was in receipt of a letter from the pastor of the Methodist church of Sidney, Neb., asking him to look upon the church books and see if he could find the name of one B. Benton, saying that such a man was confined in prison there and claimed to be a member of the M. E. church of Salem, Or. Rev. Rollins did as requested but a search upon the records for 30 years back failed to reveal any such person. It is now supposed that he is none other than the man who was mentioned in Tuesday's daily as B. Simpson, and who created considerable excitement over his mode of trying to work forged checks.

THE MOTOR WHIST CLUB.—This club met last evening at the residence of Mr. T. McF. Patton. A new feature of choosing partners was introduced, by the reading of many amusing conundrums. If space permitted we might publish them. The amusement and interest in the game continued until 10 o'clock, when a splendid lunch was served, and while enjoying it, a half hour was passed in pleasant conversation and witty repartee. About 10:30 the started for their homes, wishing the estimable and generous host and hostess, a happy good night.

A YOUNG MAN GOES INSANE.—A young man named Fred Smith was adjudged insane at Corvallis, Saturday, and was committed to the asylum yesterday evening. It seems that he went to Yaquina nearly two weeks ago to take the steamer for San Francisco, but the storms have delayed the boats and he grew so impatient waiting that it has effected his mind. It is hoped his trouble is only temporary.

MEETINGS BEGUN.—Rev. W. F. Cowden, of whom mention has heretofore been given in the columns of the JOURNAL, arrived in the city yesterday, and has begun a series of meetings at the Christian church, to which the public are invited to attend. Rev. Cowden is said to be an able speaker and is highly spoken of.

WORK GROWING ALREADY.—Contractor McCoy, with a large force of men, is pushing ahead as fast as possible on the Electric street car line. The track is laid and the road graded on Chemeketa street as far east as Winter street. If the weather remains fair the work will progress rapidly.

UNITARIAN SOCIETY.—Members and friends of the society will please remember the annual meeting to be held at the hall Thursday evening at 7:30 o'clock.

WITNESSES ARE CALLED.

The Grand Jury Proceeding With the Investigation of the Charges Against the Asylum.

The following witnesses have been called and examined before the Marion county grand jury as to the truth of the charges against the management of the state asylum for the insane, which have been published in the JOURNAL: Martin Rowley, hardware merchant and ex-supervisor at the asylum. Jesse Macy, proprietor of livery stable, and formerly second cook at the asylum. M. Quinn, at present an attendant at the asylum. J. A. Davis, attendant at the asylum up to last July. T. P. Burt, ex-employee in basement.

EDITORIAL COMMENT.—THE JOURNAL seems to be alone in printing the news about the pending investigation of the asylum. The list of witnesses sworn by the grand jury and the time taken to examine them indicates that this body of men who represent the state and the people are doing their duty in a thorough manner. They will be upheld by the people in a fearless discharge of their duty. A complete vindication of Dr. Lane is hardly to be expected but if he is entirely exonerated in the matter charged none will be more ready to do him justice than the JOURNAL. But the interest of the people, the honor of the state and the welfare of the unfortunate ones who are sent here to be treated stands above any personal considerations. Mere love of sensation would never tempt us to print a line of this unpleasant affair. The JOURNAL will publish all obtainable news about the matter.

CITIZENS CALL ON COUNTY COURT.—To-day quite a large number of the citizens of Salem called on the county commissioners at the court house, to ascertain in how far the county would feel able and authorized to assist in rebuilding a bridge at Salem over the Willamette. The object of the meeting of the commissioners was to ascertain the loss in bridges to the county by the late flood, and to take steps for rebuilding the same. The citizens here propose that if the county will assist and obtain the co-operation of Polk county, that an effort will be made to secure an election here for the voting of the remaining \$20,000 bonds authorized by the act of the legislative assembly. We feel that Salem, if taxed, as she will be to rebuild the bridges in other parts of the county, ought to be assisted by the county in the bridge here, and that as Salem pays one-third of the taxes in the county, she ought in justice to receive generous consideration at the hands of the county court, and more especially as Salem has for 25 years or more been paying for bridges all over the county, and receiving scarcely a dollar in return.

WELL KNOWN IN SALEM.—The only death that is reported from Benton county that can be laid at the direct cause of the recent flood, occurred on Monday morning last, near Alsea bay. A large slide came down the mountain side burying Robert Barclay's residence and imprisoning Barclay, two children and Robert Brown. The father and two children were extricated after some difficulty, but Brown was found dead, having been crushed by heavy timber. A barn near by was wrecked and ten head of stock killed. Barclay is well known by many in Salem who will be sorry to hear of his misfortune. Brown the man killed is not remembered by anyone that could be found.

NONE IN THIS CITY.—In answer to many inquiries the JOURNAL will state for the benefit of those who are interested, that flags displayed on account of sickness have several meanings: The yellow flag means smallpox or yellow fever; a red flag denotes scarlet fever, and a white flag denotes diphtheria.
