CAPITOL ADVENTURE COMPANY, Opera House Corner, SALEM - - - OREGON.

JOURNAL ANNOUNCEMENTS.

To-day the EVENING JOURNAL office will be removed to larger quarters in the Postoffice block on Commercial street, opposite the Chenekete Hotel.

This removal causes some disturbance of editorial work. If the JOURNAL to-day and Monday is not as good as it should be please make allowance.

A full and complete afternoon telegraph service has been contracted for from the Western associated press. The arrangement of the circuits is now in the hands of the Pacific coast superintendent of the associated press.

A special advertising edition of our mammoth weekly of 5000 extra copies will be issued Friday, Feb. 23, for circulation in the Eastern states.

Advertisements and extra copies can be ordered any time before Thursday.

A SALEM Statesman reporter climbed into the top of Marion county's \$100,000 court house and describes the view as follows: The view of the Cascades, clothed as they are in the white garments of winter, kissed into a ruddy glow by the setting sun, was a truly grand sight—a sight that one might live in the Mississippi valley three thousand years and never expect to see—a picture hung on the eastern horizon that was truly one of the masterpieces of nature, that superb artist, not approached by the brush in human hands.

"OUR DUMB ANIMALS" is a neatly printed, and handsomely illustrated monthly journal which finds its way regularly to our office. It is edited by Geo. T. Angell, president of the American Humane Education Society, at Boston, Mass. It is full of interesting reading matter and is doing well the work for which it is intended.

Mr. HERMANN's action in voting for the government to pay him \$2800, of which he was robbed by his own negligence is strongly condemned by his old neighbors. And it should be—Roseburg Review (Dem) Mr. Hermann was robbed by the Democratic official Slocott, who decamped to Canada leaving his cash account with members of congress and the government short about \$75,000. His Democratic bondsmen should reimburse Mr. Hermann.

The big flouring mills of Salem, so long locked up in litigation, are now offered for sale. They are the largest mills on the Willamette and a very desirable property.

Parnell's vindication before the people of Great Britain is complete. He stands acquitted of every foul charge which his accusers have been able to invent so far.

THE Willamette University College for February is out. It is a bright number, well arranged and well printed.

Yesterday's "Oregonian" had not yet heard the true report the Marion county grand jury did make.

The people of Jefferson are not antagonistic to the county of Marion assisting to bridge the Willamette at Salem, but think that they are entitled to some consideration at the hands of the county court also.

Hon. Allen West, secretary of state of Washington, arrived in the city on this morning's train.

CONDENSED TELEGRAMS.

Miss Jessie G. Blake is the new postmistress at La Grange.

Wild and Winston, the escaped prisoners of Union, are in custody again.

The valleys of the Sierra Nevada are again cut off from the world by snow.

Fifty-six inches of snow have fallen at Nevada, Cal., the past six days.

The state treasurer of Mississippi is a defaulter to the amount of \$250,000.

Washington will expend \$6000 improving its old state capitol at Olympia.

Jacob Kilrain, the eminent prizefighter, is a helpless cripple from rheumatism. R. knocks them all out.

According to the provisions of the new constitution the Washington legislature provides \$30,000 for a soldiers' home.

The remains of Mrs. Scott, murdered near Wheatland, have been buried by the Odd Fellows, and at last accounts the coroner's jury were still in session.

Telegrams from the Wood River country indicate that cattle and horses are dying in large numbers in that section, and many hands will be wiped out entirely unless a thaw comes soon.

The German elections just held indicate a gain in the opposition to the government. Compared with the preceding election, the Socialist vote in Berlin shows an increase of 33,000, the Liberal vote an increase of 8000, and the conservative vote a decrease of 20,000.

Sentiments of the Press.

Baker City Democrat: Oregon should make as good a showing as possible in the statistics of the next census, as a full census will be likely to entitle us to a second member of congress in 1892.

Astorian: The Posen Courier intimates that Germany is ready for war at any moment, and that 1,400,000 men could be massed on the frontier in one day, at points already selected, and within another week 800,000 men would form a second line.

Dallas Times-M: The appointment of Capt. John W. Lewis, register of the land office in this city, although unexpected, will be satisfactory to republicans in this vicinity. Capt. Lewis is a resident of Grant county, is extensively engaged in the sheep business, served in the army during the war, has been a life long republican, and is in every way qualified for the position to which he has been nominated.

Portland Express: Prof. M. V. Rork, State Organizer of the Union Party will speak on the various issues presented by the new organization in Albina Tuesday and Thursday evenings, Feb. 25th and 27th, and in Portland Wednesday and Friday evenings, the 26th and 28th at 7.30 p. m. The Portland meetings will be held in the old Arion Hall, 105 1/2 First street, next door to Laid's bank.

Astoria Pioneer: Henry George says "I am a free trader because I am a free trader." This is about as sound logic as the gentleman is capable of using. We have just as much use for free trade in this country as we have for a number of other English customs.

Baker City Revelle: No law or levine can ever be passed to make a dishonest man honest. Even the Australian ballot law, the most perfect and satisfactory that has so far been devised, is open to evasion.

From an exchange it is learned that in Nashville recently, the ward-walkers used a "shrewd arrangement" for enabling voters who could not read, to place their crosses in the right place on the ballot of the Australian system.

Yesterday's "Oregonian" had not yet heard the true report the Marion county grand jury did make. The people of Jefferson are not antagonistic to the county of Marion assisting to bridge the Willamette at Salem, but think that they are entitled to some consideration at the hands of the county court also.

M. E. Ridenour, of Weston, writes to the Pendleton Tribune a good letter on farming. We would be glad to get a contribution from his pen. He says the peach crop in the vicinity of Milton will be light next season, most of this excellent fruit having been killed in the bud. Thus far apricots, the fruit next in liability to the killing frosts, remain untouched, and a large crop is expected.

Albany Herald, Feb. 19: George Saltmarsh, who shot himself and wife Monday evening, is still lying in a semi-conscious condition. His wounds were dressed yesterday when it was found that a considerable amount of brains had oozed from the bullet hole. It is not probable that he will recover, although it is not impossible. His wife, whose injuries are slight, has been removed to the residence of Mrs. Saltmarsh, where her husband is lying.

Portland Oregonian: It is said upon good authority that a well-defined movement is under way among the contractors of the city, to insist upon a radical change among bricklayers, etc., in their manner of work upon buildings. The habit has prevailed hitherto, it is said, among these workmen of buying beer, which has been freely circulated among the laborers on buildings. The contractors, it is said, have resolved against it, and will in future require the absence of any intoxicating drink among their workmen.

What are the Women Doing. Eleven women in Santa Clara, Cal., run and manage prune orchards. Miss Susan B. Anthony reached her 70th birthday Feb. 15. A number of middle-aged Capital City ladies have taken up the study of the French language.

The queen regent of Spain can converse in Spanish, French, German and English. She is fond of music and literature. Mrs. Logan is writing her reminiscences, which will embody those of General Logan, and will be published in her Home Magazine.

Rosa Bonheur is sixty-seven. She says she still has work enough in her mind to fill two lifetimes. She sold her latest picture for more than \$10,000. Mrs. Frank Leslie gave a reception lately to the Women's Press Club of New York and to the officers of the Men's Press Club.

Clara Morris is a great lover of birds, and has a regular aviary, filled with bright-plumaged specimens from all parts of the globe. They know her, and manifest their delight upon her approach by shrill chirrups, or by breaking into silvery song. In Germany women physicians, however well qualified, have no legal standing, and are forbidden to sign a prescription.

Woman suffrage has become a favorite subject of discussion in the magazines. The February Home-Maker has an article by Lucy Stone on the affirmative side. Rose Terry Cooke will contribute our next month in the negative, and Frances Willard another the month after in the affirmative.

Forty-seven girls of Plymouth, Pa., have formed a Young Ladies' Protective Union. When a young man pays attention to one of the members, a committee of three is appointed to find out what is his standing, morally and financially. If the lover is all right, his good qualities are reported to the young lady in the presence of the club. If not, she is informed of it in private. If she is found to be a black sheep, and she continues to receive letters, she is dropped from the club.

PENSION BOARD.

Three Physicians Appointed to Act as Such at Salem. [Special to the Capital Journal.] WASHINGTON, D. C., Feb. 22.—

Dr. Cusick, Rowland and Richardson have been appointed as a board of Medical Examiners of applicants for pensions to meet regularly at Salem as soon as organized Veterans have hitherto been compelled to go to Portland and Indianapolis to be examined.

JEFFERSON CULLINGS.

Levi Eames has received notice of an allowance of \$222 back pension and \$8 a month regular pay hereafter.

The latest addition to the manufacturing interests of Jefferson, is a paper mill. We have here the best water power. The ground is ready to be donated, a subsidy is ready to be subscribed and the money is ready to be paid, when the proper time comes.

Last spring Richard Burris bought fifty acres of land, in the Santiam bottom, about two miles from Jefferson for which he paid \$30, per acre. During the high water it washed away about ten acres of his farm. This is quite a loss to Mr. Burris and should there come another flood as large as the last one he will probably lose his house, as the water comes up within ten feet of his house at the present time.

A BRIDGE COMPANY.—H. L. Longfield, one of the officers of the Chicago Bridge & Iron Co., with headquarters at St. Paul, (and an old school friend of the JOURNAL), writes us that he will be out to look at Salem and the Willamette valley at an early day. He wants to locate here and organize a bridge company, for the construction of steel and iron bridges. His company manufacture all kinds of bridges and have built some of the finest bridges over the Mississippi and its tributaries.

Our exchanges are beginning to clip the JOURNAL's "Oregon Clips." We have no patent on that heading and "the boys" know a good thing when they see it.

East Salem Grocery Store A. M. Fisher is now ready to wait on all that may wish anything in the line of groceries, and will sell as reasonable as any one in the city. Store located on corner Marion and Fourteenth streets. 222 1/2

Real-Estate - Agents GENERAL AUCTIONEERS! We have a large list of farm lands and city property for sale. We also have a number of auction sales in any part of the state. NO. 204 COMMERCIAL STREET, SALEM, OREGON.

W. A. SHAW, SHAW & DOWNING, W. H. DOWNING. ANNUAL School Meeting Monday, March 3d, 1890.

The annual school meeting of the 1st school district, No. 24, Marion county, Oregon, will be held at the Opera House, at Salem, on Monday, March 3d, 1890.

At 2 1/2 p. m., for the purpose of bringing reports of directors and clerk, to pay a tax for school purposes and payment of interest on bonds, and to transact any other business proper to be done at said meeting. JOHN G. WILFONG, DAVID STEWART, CLERK.

SCROFULA

It is that impurity of the blood which produces unsightly lumps or swellings on the glands of the neck; causes painful running sores on the arms, legs, or feet; develops ulcers in the eyes, ears, or nose, often causing blindness or deafness; is the origin of pimples, cancerous growths, or the many other manifestations usually ascribed to "tumors;" and fastening upon the lungs, the most ancient, it is the most general of all diseases or infections, for very few persons are entirely free from it.

How Can CURED

By taking Hood's Sarsaparilla, which, by the remarkable cures it has accomplished, often when other medicines have failed, has proven itself to be a potent and peculiar medicine for this disease. Some of these cures are really wonderful. If you suffer from scrofula or impure blood, be sure to try Hood's Sarsaparilla. "Every spring my wife and children have been troubled with scrofula, severe itching out on them in various places. My little boy, three years old, has been a terrible sufferer. Last spring he was one mass of sores from head to feet. I was advised to use Hood's Sarsaparilla, and we have all cured. The result is that all have been cured of the scrofula, my little boy being entirely free from sores, and all four of my children look bright and healthy." W. B. ATHERTON, Passaic City, N. J.

Hood's Sarsaparilla Sold by druggists, \$1, six for \$5. Prepared by C. I. HOOD & CO., Apothecaries, Lowell, Mass. 100 Doses One Dollar
