CROP-WEATHER BULLETIN.

The Report of the Oregon Weather Bureau, Co-operating With the U. S. Signal Service.

The Central office, Portland, Oregon, sends out the following for the week ending Saturday May 17th, 1890.

WEATHER.

The temperature rose again the forepart of the week and fell in the latter part. Temperatures of from 80 to 88 degrees, occurred in all parts of the state. For the week it has been above the normal. Frosts occurred in sections of Wasco, Sherman, Gilliam, Morrow, Crook, Grant, Harney, Malheur, Lake and Klamath counties on the 8th, 9th, and 10th, doing damage to vegetation and tender plants. Rainfall fell in the wheat districts of Eastern Oregon, in Southern Oregon and along the coast on the 7th and 10th, doing great good to all vegetation, except in sections of Wasco, Sherman and western Gilliam counties, where, as in the Willamette valley, the rain was very light. In these latter sections rain is badly needed. The mornings have been more cool and cloudy, and these features have helped crops along.

GROWING VEGETATION.

Fall and early spring sown wheat are growing finely. Late spring wheat will not germinate properly without more rain. Oats, barley, rye and corn are doing very well. Vegetables are becoming very plentiful, but for all rain is needed, especially in the Willamette valley. Fruit prospects continue good. Grass is growing nicely, the peach crop is the only one that is now sure to be short. If the codlin moth is controlled, the apple and pear crop will be good. From most every correspondent comes the desire for rain. In Washington county everything is growing rapidly. Cutworms are injuring the onion crop. In Clackamas county cherries and peaches promise large yields. In Yamhill, the wheat crop will be good, without more rain, and fruit will be abundant. In Marion the dry weather is injuring the crops. Fruit will be plentiful in Polk, wheat is doing fairly well. Hop crop will be an average one. In Linn, fall wheat looks fine. Spring wheat is uncertain. Fruit plentiful except peaches. Gardens doing well. In Benton, wheat on loose, moderately well drained, soil, growing well. On low undrained land wheat has made but little growth and needs rain. In Lane some rain fell on the 10th, which was very beneficial, grass growing rapidly and crops fine. In Douglas, rain of past 10 days has been very beneficial. Crops very promising. In Jackson, farmers are preparing to mow alfalfa, fruit has escaped frosts and danger from them is now past. All crops promising. Rain on 19th, moistened soil two inches deep. In Sherman and Gilliam crops doing well, stock fattening up. In Morrow prospects were never better for crops. Thunder on 7th. Rain was very beneficial. In Umatilla and Union the rain was very beneficial. Crops growing finely, excellent prospects. Fruit plentiful. In Crook, Grant and interior counties rain fell last week, frosts did some damage. Hay and grain crops flatter and fruit will be very plentiful.

PORTLAND TELEGRAM.

Rain was needed in Oregon to insure abundant crops, and, as usual, it came just when wanted. Probably there is no country in the world so favored as is Oregon.

Beware of Blisters for Catarrh that Contain Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, and acts directly on the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Sold by Druggists, price 75c per bottle.

ANOTHER.—Yes, yes! left everything.

A rival exchange accuses another paper of warping the truth. If he only warps it he is quite a conscientious editor.

"I have lived in this valley thirty years and I've never seen it go a begging or a starving yet, for want of crops," says an Oregonian.

How many of our "isms" are towers of Babel, foundationless structures that would scheme to the sky and causing only confusions of tongue!

The democratic state central committee is publishing a showing of the state finances from the democratic standpoint in nearly all the democratic papers.

The Louisiana lottery offers \$25,000,000 for a renewed charter for 25 years. It is a big steal and as usual all the newspapers in Louisiana are sustaining the scheme.

The Methodist general conference South in session at St. Louis adopted a series of resolutions upon the Sabbath, denouncing excursions on Sunday, Sunday newspapers and the like.

"The Greatest Thing in the World," by Henry Drummond, author of the "Natural Law in the Spirit World," is making a great stir in cultured circles. It is a classic among sermons.

It's a positive sin to sympathize with such as have never known what it is to "get up and dust" their old cobwebby conditions, or even the bric-a-brac in the front chambers of their mind.

It is reported that a Plymouth Rock hen at Goldendale laid three eggs one day last week, and that they were presented to the editor of the Sentinel. This beats killing two birds with one stone.

An Eastern woman writes, that from the columns of the JOURNAL she should judge the social atmosphere out here is filled with a liability toward and a respect for women that would be delightful to live in and breathe by a self helper. Come and see.

How many of us find as we look back upon our lives that the moments that stand out strongest, the moments when we have really lived, are the moments when we have done things in a spirit of love and self forgetfulness.

The Albany Herald and some other republican papers continue to make the grave mistake of printing the 8th plank of the republican platform to read that the party is in favor of taxing all property "not now exempted by law." This is senseless, contradictory, ridiculous and does the party a good deal of harm. These papers imagine that, because they neither think nor read, their readers do not. This is a mistaken supposition.

West Union, Ia., Gazette: For introducing a bill in congress providing for the exclusion from the mails of "any pamphlet, magazine, newspaper, story paper or any other paper devoted to the publication or principally made up of criminal news, police reports or accounts of criminal deeds or pictures and stories of immoral deeds, lusts or crime," the Dubuque Telegraph, in its zeal for the "downtrodden and oppressed," gives Col. Sweeney the benefit of a half column criticism. The anti-Sweeney advocate of Charles City, ought to copy the Telegraph article that its prohibition readers may know what a terrible fellow Mr. Sweeney is.
