MURDERED BY APACHE INDIANS.

Important General News by the Associated Press.

FIRE AT YAKIMA.
NORTH YAKIMA, Wash., May 26.—About 8:30 last night a disastrous fire broke out in this city, caused by the explosion of a lamp in the Harris restaurant. THE GOVERNOR'S DEFENCE.

Repudiates the Charge of Irregular Land Sales.

SAYS EVERYTHING WAS STRAIGHT.

The Law Fixes the Prices of School Lands at \$1.25 Per Acre.

Portland Telegram, May 26: A reporter called at Governor Penoyer's residence yesterday afternoon, and found him taking a well-earned rest after his Southern Oregon tour. The object of the reporter's call was to secure, if possible, the governor's answer to the charges recently made with reference to the sale of indemnity lands of the state.

"What will you say, governor, about the charges made by Mr. McDonald, of the land office, in regard to the sale of the indemnity lands?"

"The first time," replied the governor, "that my attention was called to this matter of the state's being entitled to lands in lieu of sections 16 and 36 within Indian reservations, was about the first of September, 1888. A Mr. Williams came into the state land office, asking me to select certain lands as lands in lieu of school sections in the Siletz reservation, and for which he made the necessary legal application. I refused to receive his application on the ground that the state had no right to lands in lieu of such sections in reservations. Upon investigation, however, I found that the interior department had ruled that the state was entitled to such lieu lands."

"I then before receiving one single application, and for the very purpose of allowing all citizens an equal show to secure such lands under this ruling, caused a statement to be telegraphed to the Oregonian which can be found in the issue of that paper for September 12, 1888, apprising the public of such ruling."

"If the land commissioner, or the land board, was interested in any syndicate that was trying to secure such lands, this public notice would have been poor policy; and I will here state that among the first to make applications for such lieu lands was Mr. Henry L. Pittock, of the Oregonian, who on October 11, 1888, made application for 320 acres. This shows that Mr. Pittock reads his own valuable paper, and wisely took advantage of this information which I had given to the public."

"On the 23d of the same month Mr. McBride, secretary of state, brought into the land office a friend of his Mr. T. L. Stewart, who made application for 320 acres for himself and 250 acres for his wife. Senator Hilton, of Wasco county, on December 14, applied for 100 acres, and on the next day his wife applied for 320 acres."

"This was all perfectly right. They were as much entitled to the lands as anyone else, and when they made the proper application, the board under the law had to sell them the lands at \$1.25 per acre, the price fixed by law. So it is readily seen that the notice I gave to the public through the Oregonian, and the names of the applicants, preclude the idea of the state board being in any syndicate to buy indemnity lands."

"Mr. Thompson in his speech at Ashland claimed that a syndicate was buying up indemnity school lands in Eastern Oregon at \$1.25 and selling them at \$3.50 to \$5; and that the state could just as well have been paid \$5 an acre for the lands. The fact is, that the board is compelled by law to sell the lands at 1.25. The charge as to a syndicate in which the state board is supposed to be connected shows that Mr. Thompson knows what might be done, and, measuring our own by his own half-bushel, he necessarily presumes that it has been done."
