Citizen—So you think of locating here?
Physician—Yes. I thought some of practicing among you.
Citizen—See here, young man, there's a good opening here for a man as understands his biz, but we don't want no *practicing, or experimenting—doctoring's what we want!*

Many times women call on their family physicians, suffering, as they imagine, one from dyspepsia, another from heart disease, another from liver or kidney disease, another from nervous exhaustion or prostration, another with pain here or there, and in this way they all present, alike to themselves and their easy-going and indifferent or over-busy doctor, separate and distinct diseases, for which he prescribes his pills and potions, assuming them to be such, when, in reality, they are all only symptoms caused by some womb disorder. The physician, ignorant of the cause of suffering, encourages his "practice" until large bills are made. The suffering patient gets no better, but probably worse by reason of the delay, wrong treatment and consequent complications. A proper medicine, like Dr. Pierce's Favorite Prescription *directed to the cause* would have removed the disease, dispelled all those distressing symptoms, and instituted comfort instead of prolonged misery. It's the only medicine for the weaknesses, irregularities and painful derangements peculiar to women, sold by druggists, under a **positive guarantee** that it will give satisfaction in *every case*, or price paid for it will be promptly refunded.

DR. PIERCE'S PELLETS regulate and cleanse the liver, stomach and bowels. One a dose. Sold by druggists. 25 cents a vial.

THE OUTLOOK GROWS BETTER.

Oregon Will Maintain Her Reputation for a Bountiful Yield of Nature's Substantial Gifts.

Following are the pleasing tidings given out in the crop-weather bulletin by Oregon weather bureau for the week ending Saturday, July 5:

The extreme heat of the fore part of the week did little injury to crops. The weather during latter part of the week was very beneficial to the growing crops. Fall wheat is now generally past the point that the weather could injure it. Spring wheat is doing remarkably well, and if no unforeseen causes interfere the yield will be much greater than anticipated. The warm weather is beneficial to corn which is growing well.

Columbia county reports hay a fair crop, on uplands very good; in Washington county hay is an average crop; in Clackamas county fall wheat will be ready to cut inside of two weeks, crop will be an average one or more, spring wheat and oats growing well; in Yamhill, Polk, Marion, Benton and Lane wheat outlook is very promising, spring wheat will make more than was expected, corn, oats, hops and hay will average well. Codlin moth doing some damage. Fall wheat will soon be ready to cut, heads are well filled. In Douglas county good crops are now assured. Josephine and Jackson counties will have fair cereal crop. Fruit crop will be large, except peaches; melons promise to be plentiful, berries are in abundance. Clatsop, Tillamook, Coos and Curry counties will have very good crops, fully up to the average.

Hay is quite generally reported to be short in Western Oregon and to be an average crop in Eastern Oregon. Wasco county has indications of a better wheat crop than for years, the same for Morrow county. Sherman and Gilliam counties report average crops. In Umatilla and Union counties reports indicate a yield of from 30 to 50 bushels per acre. Wallowa, Baker, Crook, Grant and interior counties bid fair to make average or more than average yields. The present outlook is most encouraging for a fine harvest throughout.

JEFFERSON NEWS ITEMS.

[From the Review July 5.]

Prospects are very flattering for a bountiful harvest.

Dr. Hawk is preparing to build a fine dwelling house.

Miss Pauline Looney has been sick for the past few days.

Late sown spring wheat is growing fast and will make a fair crop.

The fruit crop looks fine and never was more favorable for a bountiful crop.

Grandmother Looney has been quite poorly in health for some time but at present is feeling quite well.

H. A. Johnson, of Salem, was in the city Tuesday, visiting his son, S. T. Johnson. Mr. Johnson is an old time Oregon settler, having come here in 1847.

G. F. Long, living near Shelburn, left at our office two turnips that are somewhat large. They measured 45 inches in circumference. How is that for turnips on the first of July? Mr. Long brought several sacks of turnips to town, but the two mentioned were the largest.

AGRICULTURAL NOTES.

The present is likely to prove an abundant blackberry year.

The common elder bush of the Atlantic states becomes a tree in Oregon and California.

Whenever you see a rat hole pour a little tar in it. The rats will not come near it.

Late potatoes will do well on a piece of land from which a crop of clover hay has been cut.

Feeding a horse on corn in summer is a good deal like building a fire in the parlor stove the 4th of July.

If you have no time to plow the weeds in mow them down. Treat them in any manner you prefer, so you prevent them from seeding.

Young trees should be set leaning about 12 degrees toward the prevailing summer winds. In about six years, it is said, they will stand upright.

If fruit trees be inclined to "blight," feed them abundantly with night-soil and water, making a strong liquor. Plums especially are benefited by this resort.

The government geological survey is engaged in mapping the soils of the country, preliminary to their more thorough study by agricultural investigators.

It is far safer for a dairyman to raise his cows than to buy them. Thus he is familiar with all the characteristics of the animal and can bring her up with good habits.

Clover should be cut just before the heads begin to turn brown. To cut it sooner is to loose a portion of the nutritious matter, while to cut it after the blossoms turn brown is to permit it to become more woody and less succulent.

There are 1000 farmers working like slaves and competing with each other to make low-priced butter where there is one who has become intelligent on this question, so that he can make a better article and get better pay for his time and labor.

Highest of all in Leavening Power.—U. S. Gov't Report, Aug. 17, 1889.

STATES RIGHTS.

The Chicago organ of the wholesale liquor trade sends us a cartoon representing Uncle Sam chastising Iowa and Kansas for refusing to abide by the original package decision, which is filling those states, which had outlawed the saloons, with original package stores, where liquor is dealt out by the barrel or bottle in violation of state law.

The cartoon represents that those states in refusing to recognize the validity of this supreme court decision are in the same attitude that was taken by the slave holding states in rebelling against the national authority.

In their case they asserted states' rights to uphold an evil. In the case of Iowa and Kansas those states assert the right of the state to put down a great evil. The Southern states claimed states' rights to carry on slave holding and slave-breeding and extension of slavery into the territories and free states. Iowa and Kansas claim the right to suppress the traffic in intoxicants within their own territory, which the original package decision of the supreme court virtually denies.

Is there not a difference here? Is not the argument against the Southern states, that upheld a wrong by the assertion of the same doctrine that the northern states assert to put down an evil?

PITHY POINTS FROM EXCHANGES.

Klamath County Star: The eagle shrieks more musically, joyfully, away up the mountain than down in the lowlands. So let us mountaineers just whoop'er up as we remember that we are the mountain people who love the glorious Fourth! The people on whom there are no strings! The way up people of Oregon, whose patriotism is soaring, whose eagle freedom is eternal and whose blessed crops and ten-pound babies are the pride of the state.

Last week Gertrude Pollock living on Jump off-Joe, near Grant's Pass, while out hunting a cow run on to a large bear, and instead of fainting away she set her dogs on it which treed it. Then she went and informed some hunters who went and killed it.

Eugene State Journal: Hon. D. P. Thompson has, at the request of Charles Francis Adams, taken hold with his companies, and is now the Pacific coast director of the Oregon Short Line and of the Utah Northern, and is Vice President of the Oregon Railway and Navigation Company, and the Union Pacific Extension Company, organized to build a road from Portland to Puget Sound. He is now the business head on the Pacific coast of these great corporations, branches of the Union Pacific.

The citizens of Eugene generously subscribed $600 to aid the Oregonian, and now Eugene has a place in that paper on a supplement page with other boomlets. The daily Oregonian has but little circulation outside of Oregon and Washington, and the money could certainly have been spent to better advantage. It has lent itself to every wildcat town and land scheme with its specials and boom advertisements, and its columns are regarded by the general public, so far as town advertisements are concerned, with distrust. It has prostituted its columns with special dispatches, purporting to be matters of news, when in fact it was paid for by the line.—Guard.

Morning Columbian: The Salem JOURNAL makes this facetious reference to a recent outburst of one of our real estate agents: "Astoria calls herself the 'Gem City of the Ocean.' See here, are you fellows out over the bar?" We haven't been over a bar for a long time, but if the JOURNAL will take a trip down here and bring some dust, he can find plenty of company to hang over the bar with. It must not be inferred however, that Astoria newspaper men are bibulously inclined. They get their wet goods in original packages and use them for medicinal purposes only.

Commenting on the Oregonian's assault on Congressman Hermann for his vote on free silver, the Ashland Tidings says: The Oregonian's comment is in a large degree unjust. It misrepresents both the representative of Oregon, whom it disparages, and the people whom he represents. The Oregonian may or may not have the better side of the argument upon the silver coinage question. Be that as it may, it does not represent the people of Oregon in the position it has taken, and it states what is untrue when it so flatly and arrogantly asserts that the majority of the people of the state do not want a liberal policy pursued in the matter of bi-metallic currency. As to motives, the Oregonian's own reputation makes aspersions from its editorial columns fall with very light weight upon the public men against whom they are hurled.
