---Incorporated 1889---Capital Stock \$30,000,--

Many times women call on their family physicians, suffering, as they imagine, one from dyspepsia, another from heart disease, another from liver or kidney disease, snother from liver or kidney disease, snother from nervous exhaustion or prostration, another with pain here or there, and in this way they all present, alike to themselves and their easy-going and indifferent or over busy doctor, separate and distinct diseases, for which he prescribes his pills and potions, assuming them to be such, when, in reality, they are all only symptoms caused by some womb disorder. The physician, ignorant of the cause of suffering, encourages his "practice" until large bills are made. The suffering patient gets no better, but probably worse by reason of the delay, wrong treatment and consequent complications. A proper medicine, like Dr. Pietce's Favorite Prescription directed to the cause would have removed the disease, dispelled all those distressing symptoms, and instituted confort instead of prolonged misery. It's the only medicine for the weaknesses, irregularities and painful derangements preculiar to women, sold by druggists, under a positive guarantee that it will give satisfaction in cery case, or price paid for it will be promptly refunded. tive satisfaction in every case, or price and for it will be promptly refunded.
