COUNTY COMMISSIONERS.—In the matter of county roads the following proceedings have been had before the county court the present session: The report of viewers on Crabtree road was read a second time, and dismissed at the cost of petitioners. The request for resurvey of county road between the Simmons and Sayres lines was dismissed without prejudice. Geo. B. Miller is appointed supervisor for the re-building of the Bouvier bridge on the Salem and Champoeg road. Report of viewers on the Karr and Choquette road read first time. L. Wentz, I. M. Wagner and T. H. McIntire were appointed viewers, with W. J. Culver, county surveyor, on the road petitioned for by Wood and others, and A. Stephens, J. W. Gilbert and N. Bartholemew were appointed on the road to Chemawa, to meet July 23, at 10 o'clock a. m. Viewers' report on the Dan Clark road, read a second time and established. J. C. Thompson, L. M. Herren and Adam Mishler, with the county surveyor, were appointed viewers on the road from the McLeod land to 25th street in Salem, Dr. Stott was allowed a bill of $25 on the pauper fund for medical services, amputation of leg and after treatment. A spirited contest is in progress pro and con before the court this afternoon on the Karr and Choquette road, a matter in which a large number from the St. Paul neighborhood are interested.

DRAMATIC AND GLEE CLUB.—Members of Capital lodge of Good Templars held a preliminary meeting last evening for the purpose of organizing a glee club and amateur dramatic company, that they may practice regularly and be prepared to give musical, literary and other entertainments at intervals either at regular meetings of the lodge or at open meetings, festivals, etc., for the pleasure of lodge members and their guests. Messrs. A. T. Yeaton, Geo. W. Armstrong and Frank Davey were appointed a committee to draft by-laws for the government of the club, to present at next Wednesday evening's meeting. There is plenty of good talent in this lodge, and in Union lodge, whose members will also join, to make a strong combination, and the result will be shown in the near future.

HARVESTING.—A prominent farmer who manages a large farm near Brooks, was interviewed last evening by a JOURNAL reporter about crop prospects in his part of the county. He stated that the yield on his farm would be good and was almost ready for the sickle. Several binders in that neighborhood are now running and others are only waiting for the weather to settle, when the hum of the reaper will be heard in every field. Not only was the grain crop good but vegetables are in abundance and there will be more fruit in the vicinity than for the past few years. It appears from the reports that are attainable this is one of the prosperous years for the Willamette valley in every variety of products both from farm and factory.

THE QUARTZVILLE MINES.—Joseph Smith recently returned from Quartzville, and reports the snow three feet deep in places. Mr. Smith brought in to the Lebanon Express office some specimens which are rich, says the Albany Herald. A specimen from the "Bonanza," owned by an Albany company, was well set in gold, which is plainly visible to the naked eye. Ore from this claim assays $2110 in gold, thirty-seven ounces of silver to the ton. Little nuggets, weighing from $1 to $1.50 are picked out of what is known as the Red Bull mine. Decomposed ledge matter on the "Bonanza" yields twenty-five cents to the pan.

WILL ENTERTAIN.—The members of Protection lodge, A. O. U. W., took the initiatory steps at their meeting last evening, for one of their periodical entertainments of a musical and literary character, to be followed probably by a supper, for the pleasure and enjoyment of members of the order and their families. A committee of arrangements was appointed, consisting of Frank Davey, W. S. Boggs and W. W. Johns, whose duty it shall be to carry out the intent of the lodge. The time is not fixed yet, but due notice thereof will be given.

PAINFUL HURT.—While catching ball in the avenue last evening, Ed. Fuller had the ill fortune to have the ball enter between the little finger and the one next to it on the left hand splitting the connecting fibres apart to a painful depth. He will have a very sore hand, but then, "it's all in the game."

THE STATE PRISON.

Superintendent's Report for Quarter Ending June 30th—A Very Good Showing.

Geo. S. Downing, superintendent of the state penitentiary to-day filed his report for the quarter ending June 30th, a full abstract of which is given below, from which will be seen the expenses of the institution during that quarter exceed the earnings by $3,373.95, but a good portion of this is for wood which is on hand for the coming season. The price of meats is much increased from previous years, which also adds to the expenses. Following are the figures:

STATE VS. COUNTY.—Among the numerous baseball matches going on and suggested, the JOURNAL knows of none around which greater interest would accumulate than a contest between the occupants of the state offices and those of the county offices. There is plenty of good material to make a grand show. Gov. Pennoyer could be the captain on the one hand and Judge Wm. Waldo on the other, while Mayor Williams, of Salem, would make a disinterested umpire. Judge Strahan, for the state officers and County Superintendent Yoder, for the county, would make excellent short steps and the whole crowd would show up finely.

STILL GOOD.—The Chicago Comedy company had a fair house last night and all were well pleased with the rendition of "M'Liss," all the players sustaining their high character. To-night, that popular and pleasing drama, "Hidden Hand," will be put on in fine shape and will without doubt draw a full house. It would be difficult to spend a more enjoyable evening than witnessing a performance of this accomplished company.

POPULAR IDEA.—The suggestion of the JOURNAL in relation to broken and dangerous sidewalks, and the best mode of reaching their repair or replacement, have met the approval of nearly every citizen who has been heard discussing the matter. Now, gentlemen and ladies, do not come to the newspaper with any complaints, but speak or send a note to the street commissioner describing the location of the walk complained of and he will see that it receives attention.

BOARD OF TRADE.—An adjourned meeting of this body is set for this evening at the usual hour, the principal purpose being to discuss the advisability of continuing a man at Portland in the interest of immigration, but as it is an adjournment of the regular meeting of course business of any nature can be transacted.

KICK A COMING—Catterlin the photographer says he wants the people to let up a little as he wants to get caught up with his work to go to the coast, but from all appearances, the way work is coming in, there is no coast for him this season.

ARTICLES FILED.—The Southern Portland Property company filed articles of incorporation in the secretary of state's office to-day, with Wm. Reid, C. J. McDougall and E. Wilcox, incorporators, capital stock, $100,000.

How to Cure Nervousness.

A body with a nervous temperament will make known its wants through its natural medium—the nervous system. If it fails to receive proper nourishment the nerves will be the first to cry out. Dr. Miller's Hydrastine Restorative ensures perfect nutrition to those who take it, and a perfectly nourished body cannot be nervous. For sale at D. J. Fry's.

HOP PROSPECTS.—A JOURNAL representative this morning hunted up one of Salem's big hop dealers and accosted him for information concerning the hop industry, both as to prices and prospects for the yield. Both are found to be very encouraging. He had closed a contract with one grower for 18,000 pounds at 15 cents, which is better by three cents than contracts were being made at this time last year. The acreage this year is fully up to the average, with the prospect of a heavy yield. There is one yard only a few miles from Salem from which the owner says he will be able to sack 3000 pounds per acre, while 2000 pounds to the acre is a good harvest, and at the contract prices will return $200 per acre. There are no yards reported from which the yield is estimated less than 2,000 pounds to the acre. With favorable harvest weather for saving the hop crop Oregon will reap good returns from the industry this year. New York quotations indicate a rise rather than a fall in prices.

TENDER RACE AT ALBANY.—The boys of Tigers' tender team, this city, believing in their running powers and desiring to convince the Albany boys that the latter cannot hold a candle to them, propose to have the matter tested for "keeps." The Albany Democrat of last evening has the following which more fully explains: "The Albany tender team to-day received a challenge from the Tiger tender team of Salem to run a race in this city in about two weeks for $100 a side, and the same was accepted. It will be a gamey affair, and will attract considerable attention. This is the result of an after dispute between the contesting teams at Salem." The Tiger boys have good metal and will bring home the honors and the ducats.

SAD ACCIDENT.—While riding home last evening Dr. J. C. Shelton's oldest boy, about nine years old, had the misfortune to be thrown from his horse and have his arm broken. The JOURNAL is informed that the accident was the result of some boys throwing stones at the horse Robbie Shelton was riding, which frightened the animal, causing him to jump one side, with the above result. Luckily the fracture is not a bad one. Doctor Shelton has the sincere sympathy of the community in the several calamities which have followed one another in quick succession the past year.

THAT STOLEN BOAT.—The boat belonging to Ed. C. Herren which was stolen last week from the big bridge by two hobos who had been working there, has been found. After pulling down stream until they reached a safe place, the thieves landed on the Yamhill county side near Westport, pulling the boat out to dry landing on the river bank. Marshal Ross knows the whereabouts of the suspected fellows, but the difficulty would be to fasten the crime on them, as nobody is known to have seen them take the boat or have it in their possession.

FINE CROPS.—Farmers from every direction are becoming enthusiastic over the crop prospects. Grain that was in a somewhat doubtful condition a few weeks back is now filling out in grand shape, and the claim of a "half crop" which was numerously heard not long since has been very much increased the past week. No failure and no scarcity are the watch words of the Willamette valley.

APPOINTMENTS.—E. Holgate, Corvallis; James M. Huntington, The Dalles; A. J. Florey, Eagle Point, Jackson county; Martin J. Higley, Fred'k V. Holman and H. N. Hastings, Portland; D. F. Rhodes, McMinnville; H. F. Burleigh, Elgin, Wallowa county; E. DePeat, Athena, Umatilla county, were appointed notaries public by the governor yesterday and to-day.

STEPPED ON A NAIL.—One of the workmen on the big bridge stepped on an old rusty nail in one of the planks from the old structure and received a painful wound. The nail went through the shoe and pierced the foot to quite a depth. The man is at work but will limp around for some days.

NO "FOUR-BIT GAME."—W. S. Boggs, manager of the Salem base ball club, called on a JOURNAL reporter this morning and stated that the entrance fee to the ball game would remain at twenty-five cents, and would not be raised to fifty cents as was reported. The games for Saturday and Sunday promise to be interesting.

COMMITTMENT.—Nicholas Mitty, aged 52 years, was brought from Tillamook county yesterday and committed to the asylum for insane. The cause of his trouble is loss of property. He fears his family will starve and is very despondent, sometimes not speaking for hours.

SHOOTING MATCH.—There will be a shooting match at clay pigeons across the river from the city this afternoon, commencing at 5 o'clock, in which C. D. Gabrielson, Dr. J. C. Griffith, Hugh McNary, Frank Howe and perhaps other crack shots will take part.

A GREAT AMERICAN.

The other day one of America's greatest, cleanest and most successful men—a showman passed the 80th milestone in full vigor of life. Phineas T. Barnum the veteran-circus man quietly celebrated the event with a few of his friends at the Auditorium hotel in Chicago. Messages of congratulation by telegraph and mail poured in on him all day. He believes that he is good yet for ten or twenty years more of existence on this sphere, but nevertheless he has put his house in order and says that he is ready to go at any time. He still gives personal supervision to his show and overlooks the entire management of his vast holdings of real estate. He is now engaged in writing his auto biography, which will shortly be published by a local house, and not only writes every page of the copy, but insists upon looking over every proof two or three times. His fortune is estimated at eleven millions, every cent of which he has accumulated since he reached his 40th birthday. Mr. Barnum is one of the world's greatest geniuses. He has enhanced the happiness of millions. He has always favored and popularized innocent and harmless amusements. He has all his life been a fearless advocate of temperance and a total abstainer from all intoxicants. The world honors Phineas T. Barnum because he honored the world and humanity by his noble devotion to high ideals.

If About to Travel or Emigrate.

The voyager cannot be provided with a safer remedy and protective medicine than Hostetter's Stomach Bitters. Abundant testimony exists to prove that it nullifies hurtful climatic influences and the effects of exposure; that it reconciles the stomach to unaccustomed food, and prevents injurious results from impure water. Mariners, tourists, emigrants and miners have all contributed their quota of testimony in its behalf, and its protective influence has been most effectually demonstrated in regions and under conditions where, if not fairly effective, that fact would long since have been exposed. In no class of disorders have its remedial and preventive properties been more conspicuously shown than in cases of malaria fevers, maladies for which it is the most popular specific in existence, both here and in the tropics, where its reputation is scarcely second to that which it enjoys on this continent. It is, moreover, a most agreeable appetizer and nervine.

1,500 MILES.

But She Got It.—A Sample of Letters Daily Received.

Only those who have tried it can know what it is that prompts one to send 1,500 miles for it to get it again. Here is another of many such instances:—

DEAR SIRS: I send $5, for which please return a half dozen of your vegetable sarsaparilla. I have moved here from Sierra City, Cal. I took three bottles before leaving, hence I send all the way back to California for more. It was just before I left Sierra City, about a year ago, that I began to feel very miserable. My skin was very yellow, and I was all pains and aches, especially under my shoulders and in my head. The doctor said it was my liver, and gave me some medicine which relieved me somewhat. One of my neighbors happened in and told me she had started to take Joy's Vegetable Sarsaparilla, and advised me to try it. I did, and with such good effect that I now feel like a new being. I have persuaded one of my neighbors here to take it, so part of this is for her and part for myself.
