AMENITIES OF CAMP LIFE.—Dan Fry, der Deutsche Apotheker, comes home from Nescutec indignant.

He says Dr. Golden, who was over there also, cheated him out of a handsome fee one day recently, besides making a poor afflicted brother the object of misplaced confidence.

The grammar lesson treated of the double relative pronoun,—what. This the teachers thoroughly discussed and furnished sentences containing the pronoun in its different uses.

The geography class was conducted by Prof. Peebles, during which an interesting lesson on the government and resources of Mexico, and the imports of the West India islands, was recited.

The mental arithmetic lesson treated of age problems which we disposed of very satisfactorily. The history class conducted by Miss Margaret Cosper, was unusually interesting.

The physiology class discussed the circulation of the blood, the lymphatic system and other subjects. Superintendent Yoder next introduced his method of map drawing, and then the subject of penmanship was taken up.

The session opened with written arithmetic, the subject being profit and loss. The majority of the teachers solved problems by the analytic method as introduced by Superintendent Yoder yesterday.

The attendance to-day was very good. The total enrollment is now 86. Those added to the list to-day were Miss Linnie Lewis and Miss Lizzie Starbuck.

Nearly Drowned.—Sunday afternoon says the Albany Democrat, Alvin Brown, a small boy, was wading in the Willamette river, just below the O. P. bridge.

TEACHERS' INSTITUTE.

Yesterday's Proceedings.—The routine work growing in interest.—Today's Doings.

A good attendance was on hand at 9 o'clock yesterday at the institute, and the work in written arithmetic was begun. The subject of the lesson was percentage.

THE BUSH.—After mature deliberation, the name Chenekette was abandoned as applied to Salem's big hotel, and among the many suggestions of a suitable appellation for the same, it has been finally determined to call it "The Bush."

The owner of the building is Hon. Asahel Bush, of this city, who is known all over the Pacific coast as one of its most solid bankers and capitalists.

The Bush will soon enjoy the prestige of being the most popular and comfortable hostelry between Portland and San Francisco. Now, when the same owner builds his new opera house on the south side of the hotel no new name will be necessary and Salem will be on a par with San Francisco in having "The Bush" theatre.

The above information was not obtained from Mr. Bush, and that gentleman says, since the above was in type, that the matter of a new name has not been fully decided on yet.

UNANIMOUS DECISION.—The Albany Democrat votes with us emphatically: "The Democrat will stand in with Salem in one thing. In the last game of base ball between the Salem and Famous of Portland, which ended in the seventh inning in a quarrel, the club of that city was eminently right and Portland acted the baby in a very emphatic manner.

SOMETHING NEW.—Catterlin, the State street photographer, has just received a new patent burnisher, which finishes pictures finer than any other known process. He says he proposes to put this elegant finish onto his \$2.00 cabinets.

VERY SICK.—Father J. L. Parrish has been quite sick for the last few days. Owing to the old gentleman's extreme age, now about 85, many friends feel some anxiety over his condition.

DIME SOCIAL.—To-night in the parlors of the Christian church. A cordial invitation extended to all.

NOTARY.—Gov. Penneyer to-day appointed A. E. Acklom, of Benton, a notary public for Oregon.

PERSONAL MENTION.—Mr. and Mrs. Geo. Collins took the morning train for Portland. Mr. John Singleton came down from Mehama to-day.

MILITARY ENCAMPMENT.—An effort is being made by the brigade and regimental officers of the Oregon National Guard to have a three or four days' encampment held at Riverside park, five miles this side of Portland, about the middle of October, for drill, review, better acquaintance and general profit and pleasure.

More Freedom Wanted.—The narrower the channels the circulating medium of a country is confined to, the larger will be the rates of interest prevailing in that country. Give perfect freedom to the circulating medium, simplify and perfect the methods of finance and of government, and there would be barely any interest on money.
