MISCELLANY.

BELIEF THAT POWDERLY WILL ORDER A GENERAL STRIKE.

NEW YORK, Aug. 20.—Powderly and Devlin, of the executive board of the Knights of Labor, called on Webb last evening. Toucey was with Webb, and the four gentlemen had an interview which lasted twenty minutes. The offer of Powderly to submit the matter to arbitration was refused by Webb on the grounds already presented. In other words he said: "The company was not jumping on the Knights of Labor. They did not discharge men because they were Knights of Labor, but for good reasons. Neither Depew nor Vanderbilt are opposed to the Knights of Labor as an organization."

Powderly once more urged that the matter be arbitrated, but Webb remained firm. Devlin asked Webb if he would consent to an investigation of the causes surrounding the discharge of fifteen men. Webb reiterated there was nothing to investigate; that the company was managing the road, and he did not see why their actions should be questioned.

Devlin then asked him if he did not owe the public and the employes of the road any duty regarding its management in which all were more or less interested.

Webb did not reply.

Devlin then said there was no use in further discussing the matter, as the railroad company had declared themselves in favor of an independent course.

Toucey then said Master Workman Lee was primarily responsible for the strike.

Devlin asked Toucey if he would revive the question of Lee's action and consider the discharge of the other men. Toucey and Webb retired and that ended the conference.

Powderly and Devlin then withdrew without making any threats or intimating what they intended to do.

Webb gives this version of the interview and said the whole conference was carried on in a most pleasant manner.

LATEST OF THE STRIKE.

NEW YORK, N. Y., Aug. 21.—Chief Sargent this morning said a meeting of the federation of railroad men is to be held at Terre Haute, Ind., Saturday with the undoubted result that a strike on the Vanderbilt system would be ordered. He also said the labor men had decided to adhere to the stand taken. This had been rendered necessary by Webb's arbitrary methods, and his utter refusal to arbitrate the situation made it useless to deal with him any longer.

VICE PRESIDENT WEBB STOLID.

Vice President Webb this morning said he did not believe the impending strike would be nearly so gigantic as the federation and the Knights of Labor would have people to believe. Webb did not doubt that the supreme court of the federation would call out the men, but he was of the opinion that the number who would respond would not be so great after all.

A NEW INVENTION IN SALEM.

The Wonderful Aermotor Power now Introduced in this section.

The attention of the JOURNAL was to-day called to a wonderful new invention called the Aermotor, which, as its name implies, is virtually a wind mill, but such an improvement on the old styles that persons wishing to employ this power of nature will be deeply interested. It is mounted on a tower similar to the ordinary mill, but on a tilter which makes it possible to lower the entire mill to the ground by simply pulling a rope. A child can lower the mill it works so easily, and it can be oiled and raised to place again in less than a minute. The entire motor is made of steel, and the fans of spring steel, making it practically indestructible. It is made in three sizes and is of so light a draught that it will pump water in the slightest breeze when a common wind mill will not budge. It is also cheaper than anything in the market. Parties interested can see this great modern improvement by stopping at the red barn near the depot in Salem, where the agents, Messrs. Hayes & Verchler have headquarters. These gentlemen are recently from Illinois, and will engage in importing Percheron and shire horses besides handling the aermotor.

Threshing is almost all done in this neighborhood and although the yield generally, is not up to the average for this section, on account of continued dry weather during the early season, the grain is of fine quality.
