

EVA AT THE SEASIDE.
Some Fashionable Arrivals
--Stories About Seals--
Kanooski--Denizens of Big
Creek--Eulogy of Well-
Dressed Portland Women.

Special Correspondent to the Journal:
WALLEN CAMP, Aug. 22.—Gossip for the JOURNAL is not very plenty at Newport, and your correspondent has been lazily drifting about and going through the unimportant routine of a restful family camp life. There are new arrivals and departures to chronicle daily, but I am not much given to personalities.

THE SEALS.
Among other fashionable and sleek-moustached arrivals are the seals. We enjoy seeing them sport in the bay all the past week. It is a pleasure to watch their graceful movements in the water. Their heads pop up here and there all over the bay, they look around and sink beneath the waves. Sometimes a huge, boiling commotion indicates where one has captured a fish. Old fishers here say the seal experience no difficulty in chasing down the salmon, most powerful and swiftest of all fish, and that seals often get into and tear a fisherman's net all to pieces.

BABY SEALS
are splendid pets and in twenty-four hours will follow one with the fidelity of a slave. They are not easily obtained however and are difficult to keep. A gentleman who lives here tells of taming one, and finally getting tired of it had it carried over the bar and dropped in the open sea. The boat returned never expecting to see it again. Up on landing at the wharf the baby seal, and with a piteous whine it demanded to be taken up. It lived around the shore a long time and finally disappeared as winter came on.

AN OLD HUNTER
whose cabin is near our camp tells us about the only way to get a seal by shooting is to aim at the neck. If shot into the throat the head drops down, and the air does not escape from the body, and it floats. If only wounded the seal invariably disappears, and when floating on the ice-floe it is almost impossible to kill them so dead that they will not scramble off into their native element. We women are not interested in this so much as in the fact that sealskins cost only \$10 apiece when first sold, but are sold back to us at \$200 to \$300 for a seal coat, manipulated so that we do not know whether it is seal we are getting or not.

KANOOSKI
is the name of a large Siberian star-brought by the skipper of the Mischief upon returning from a recent sealing voyage. This fine dog was found on an island by that name in the Arctic seas and has a romantic history. He had evidently belonged to a settler, who with his family occupied the island. The Indians had some difficulty with the settler, attacked and destroyed his hut and drove him and his family off the island. They left Kanooski behind and when found he was nearly starved, and only too glad to join the crew of the sealer, who have brought him to Newport and he is now a properly naturalized American dog. He stands with his head nearly four feet high, is a powerful animal, but kind as a kitten. He amuses the boys by leaping into the surf after sticks and is quite a pet.

Queer Freaks of Cold Type.
In "making up" newspapers, or the piecing together of different paragraphs into columns, two separate items will sometimes be jumbled together and most amusing results appear. A French newspaper had a good specimen of this kind of mixture: "Dr. X. has been appointed head physician at the Hospital de la Charite. Orders having been issued by the authorities for the immediate extension of the Cemetery de Parnasse." The New Haven Journal some ago made a curious jumble of two items. One read: "A large cast iron wheel, revolving 900 times a minute, exploded in this city yesterday after a long and painful illness. Deceased was a prominent thirty-second degree Mason." The other paragraph detailed how "John McFadden, the well-known florist and real estate broker, of Newport, R. I., died in Wardner & Russell's sugar mill, at Crystal Lake, Ill., on Saturday, doing \$3000 damages to the building and injuring several work men severely."

Removing a Cinder From the Eye.
The proper way to get a cinder out of the eye is to draw the upper lid down over the lower, utilizing the lashes of the lower as a broom, that it may sweep the surface of the former and thus get rid of the intruder. Or gently drawing the lid away from the globe, pass a clean camel's hair brush—or fold of a soft silk handkerchief—two or three times between them. This procedure will, in nearly all cases, suffice; when it does not, the services of a physician are necessary. It is a remarkable fact that a very minute body will give rise to intense pain, and even after it has been extracted, the sensation remains an hour or more. After the intruder is out gently bathe the lid every fifteen minutes in ice-water till the feeling subsides.—Ladies' Home Journal.

Highest of all in Leavening Power.—U. S. Gov't Report, Aug. 17, 1889.

LATEST TELEGRAPHIC NEWS.
Gathered From the World Wide Sweep of the Wires.

THE STRIKE SITUATION.
NEW YORK, Aug. 23.—Yesterday ended the second week of the great strike. The men who left their places two weeks ago with confidence of reinstatement upon their own terms, held local assemblies last night to consider the situation. They are joined in council by members of the executive board. The leaders of the labor men have been considering their immediate interest, and the men are pleased. They feel reinforced and more hopeful.

WEBB DECLINES TO ARBITRATE.
NEW YORK, Aug. 23.—The state board of arbitration once more presented itself perfunctorily in aid of a settlement. Powderly hastened to accede, but the railroad has declined.

There is a growing belief among persons who follow the course of events closely that there will be no further strike. State Arbitration Commissioner Donovan last night sent a letter to Vice-President Webb, stating that it having come to the knowledge of the state board of mediation and arbitration that another strike was seriously threatened on the line of roads of your company he is instructed by the board to again communicate with you, and invite a joint conference in the office of your company between you and the representatives of your employees, with a view of devising some means whereby the threatened strike may be averted.

A similar letter was sent to Powderly. Powderly in his reply stated that the general executive board of the Knights of Labor is willing to comply with the request and holds itself in readiness to respond at a moment's notice.

Webb came forward last night in a response to the speech of Powderly, with a prepared statement. He started out with the assertion that no man had been discharged by the company because he was a Knight of Labor or member of any other organization. Then, for the first time since the beginning of the trouble, Webb names a list of offences among which are those because of which the Knights of Labor are said to have been discharged.

Webb continues: "The company discharges the men irrespective of their membership of the order of Knights of Labor for drunkenness, incapacity, breach of duty, insubordination, and for lack of sufficient work to employ them, and it will continue to do so whenever proper occasion, arise. It would be moral and probably criminal neglect of duty for me to omit to discharge a switch-tender man for drunkenness, upon whose sobriety and fidelity to duty depends the safety of life and limb of some millions of passengers transported annually by this company. The foregoing gives without setting forth the name or place of employment, the causes which called for the discharge of the men referred to in Powderly's appeal. For these discharges, and to avert a threatened strike, I have been called upon by Powderly and his associates to consent to the monstrous absurdity of satisfying by some kind of arbitration or investigation persons other than the constituted authorities of the company that these causes existed, a demand, which so long as I occupy the position with which I am intrusted, I feel it my duty to firmly decline."

CALIFORNIA HOOPS.
WHEATLAND, Cal., Aug. 23.—Contracts for hoops were made here last week for Bear river hoops at 25 cents. Buyers are now willing to offer 30 cents. Hoops are in fine condition, and the yield heavy. The first car load of hoops was shipped to New York the 15 inst., and will arrive there Tuesday.

CALIFORNIA DEMOCRATS.
SAN JOSE, Cal., Aug. 23.—At the session of the state democratic convention last night Walter C. Graves, of San Francisco, was nominated for attorney general; John P. Dunn, re-nominated for comptroller; Adam Herold, for treasurer; W. E. Hendricks, re-nominated for secretary; S. C. Boone, of Humboldt, was nominated for surveyor general; for superintendent of schools, Henry C. Hall; clerk of the supreme court, J. D. Spencer.

Military Matters.
The president has directed the following changes in the army, to take effect in September: First, Brigadier-General John P. Gibbon will relieve Major-General Miles, in command of the department of California and the division of the Pacific, consisting of the departments of California and the Columbia. Second, Major-General Miles is assigned to the command of the division of the Missouri, comprising the departments of Dakota and Platte. Third, Brigadier-General Alexander McCook is assigned to command the department of Arizona, with headquarters at Santa Fe, N.M. Fourth, the commanding general of the de-

partments of Texas and Arizona will report directly to headquarters of the army. Fifth, so much of the state of California as belongs to the department of Arizona is transferred to the department of California.

Before you start for the sea shore or mountains don't forget to order the EVENING JOURNAL to your camp.

Encouragement for the Feeble.
So long as the falling embers of vitality are capable of being re-kindled into a warm and genial glow, just so long there is hope for the weak and emaciated invalid. Let him not, therefore, despair, but derive encouragement from this and from the fact that there is a restorative most potent in restoring the depleted powers of a broken-down system. Yes, thanks to its invigorating tonic virtues, Hostetter's Stomach Bitters is daily reviving strength in the bodies and hope in the minds of the feeble and nervous. Appetite, refreshing sleep, the acquisition of flesh and color, are blessings attended upon the restorative processes which this priceless invigorator speedily initiates and carries to a successful issue. Digestion is regular, the blood purified and sustenance afforded to the system, and the invalid, who is otherwise unable to take food, is enabled to eat heartily. It is a safe and reliable remedy, and is equally beneficial to the young and old. Use it, and regain vigor!

Eugene City Bonds for Sale.
NOTICE is hereby given that under the provisions of an act of the legislature of Oregon entitled, "An act to incorporate the city of Eugene and to repeal all acts and parts of acts in conflict herewith," filed in the office of the secretary of state, February 20, 1889, the common council of the city of Eugene will issue and dispose of the bonds of said city at par value of from \$200 to \$500, in denominations of from \$200 to \$500 as the purchaser may desire, payable 30 years after date of issuing the same. Interest thereon at the rate not to exceed 5 percent per annum, payable semi-annually. Said bonds will be received by the undersigned at Eugene, Oregon, until September 30, 1890, and all proposals received will be opened and considered on the 5th day of September, 1890, and said bonds will be disposed of to the person or persons making the best offer or offers thereof. The common council reserves the right to reject any and all proposals. By order of the council.
B. F. DORRIS,
Recorder for the City of Eugene.

SALEM LAND COMPANY

—Incorporated 1889—Capital Stock \$30,000.—
POSTOFFICE BLOCK, -- SALEM, OREGON.

THE TIME IS NOW RIPE!
Our City is a No. 1, and
Our Property is the Best.

MONEY TO BE MADE BY BUYING NOW.
Salem is just now offering opportunities for investment such as her citizens will never have again. With advertisements for the Capital City of Oregon reaching two million Eastern readers every week we are bound to have an ocean tide of emigration to our beautiful, healthful and prosperous place. Salem is the making of a city because it is already a city. It is the second city in Oregon, has state institutions, factories and the best advantages to be found on the Coast. Salem is not a city of wind and platted on unsurveyed land, a community suffering from the nervous excitement, nor nervous prostration, chronic in the boomed towns.

The time money is made on real estate is by buying before the boom. Salem has had no boom, her property is still cheap and there is no possible doubt of her going forward.

when the prices have doubled. One of the factors that will insure a return from an investment at Salem is the numerous crop failures in various parts of the Mississippi valley, and even as far east as Ohio, which not only depreciates the securities offered by those sections to investors, but will discourage thousands of settlers, who will gather up their effects and start for a region where crop failures are unknown, and the climate is devoid of extreme heat or cold.

NO DECLINES.

No honest property has declined a penny in Western Oregon, through what is known as the dull season of July and August, when so many of the well-to-do people of the Pacific Coast suspend work and go to the seaside. Prices have not yielded a particle, but so far as placed on the market it assumes a firm and rigid valuation, that has never been known to decrease, but for five years has steadily advanced, until now prices are far beyond the anticipations of the most sanguine citizen a few years ago.

DID YOU EVER THINK OF THIS FACT?

One general fact is always very potential with thinking men and women, because it is made up of a multitude of other facts all tending one way. That tendency has all been to advances in Salem real estate. Several hundred sales in the past few months all showing sharp advances constitute the general fact of all-around rise in valuations. This is significant to the most dull and at the dull season of the year.

IF YOU LEAVE THE CITY

Even for a month and approach it from any direction, upon your return you will express surprise and the conviction will be forced upon your mind that "she grows." When a city has the room to grow in that Salem has, and is spreading out into the surrounding prairies, but one thing will result—a great city. Americans love to build a city on a sightly place. On a beautiful river, with natural forest, it is no wonder our city spreads out like another Philadelphia. You need not go to Puget Sound cities to see streets lead out through native forests. That can be seen right here in Salem, where miles of avenues and streets have been graded this year through natural thickets of evergreens.

EXPERIMENTS ARE COSTLY

at all times, but none are so expensive as real estate experiments. In ninety-nine cases out of a hundred a real estate experiment is a clean out-and-out sacrifice, as all know who have tried it. If you are going to do anything at all in real estate that will be satisfactory, get into something that has passed beyond the experimental stage. Salem real estate has, no one doubts that. Whatever doubts anyone may have about any Pacific coast real estate, it does not attach to investments in Salem property. That is certain. You can place money here with a certain assurance of rise. Not a piece of property in Salem held five years that has not advanced one to five hundred per cent. It will do better in the next year than it has in the past. It is impossible in justice to make this statement any milder. Well placed confidence in the Capital City of Oregon will repay you ten-fold more than other places that seek notoriety temporarily and will soon have relapsed into oblivion.

THE BEST PULL IS A PULL FOR YOUR OWN TOWN

if it is a good town, and that's what we've got in our splendid Capital City of Oregon. While the city has doubled and quadrupled since the last census, it has not begun on the growth it will reach in the coming decade, and you want to be in to take advantage of it. We handle property on merit and believe in setting forth the steady growth and solid merit of Salem. That is all that is necessary. No over-statement is required.

ENGLEWOOD!

IS THE FINEST ADDITION TO SALEM. It is High, Slightly, Beautiful, good Soil, convenient to the business portion of the City and cheap, growing right along, new, neat houses, graded streets—a splendid residence locality.

— OUT ON THE GARDEN ROAD —

We have 5 and 10 acre tracts, most desirable and cheap. In HAMPDEN PARK we also have some choice 5 and 10 acre tracts, and they are selling right along. We also have some excellent tracts in AUBURN and FAIRVIEW. Let us show them to you. We have a general list of Farm, Suburban and City property, on which we offer the best bargains.

We repeat it, people right here at home might as well have some of our rare bargains as to let them all go to strangers. Come and see us, whether you have much or little to invest! We can give you some eye-openers.
