THE CAPITAL JOURNAL. HOFER BROTHERS, Editors.

Published Daily, except on Sunday, by the Capital Journal Publishing Company.

A DISCIPLE OF DEMOCRACY. The action of the emperor of Germany in sending two special messengers to the Lancashire Federation of miners is an act directly bearing upon the greatest problem of the modern world—the labor question.

NOT THE CITIZEN'S DUTY. Some authorities convey the impression that it is the duty of each citizen to constitute himself a free-graft assistant census-taker, and help the government in every possible way to secure, on its second attempt, an accurate census of Oregon.

AN IMPORTANT SUBJECT. The Baker City Blade touches a question that will be likely to agitate the state of Oregon in the very near future, and as the Blade is an ably conducted newspaper the following expression will be a good starter for the coming discussion:

Catarrh Can't be Cured with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you have to take internal remedies.

WHAT IS A TUBULAR WELL? Be Sure to Read and Get no Other. A genuine Tubular Well is constructed by pulling down three inch iron pipe, with no splittings except top and bottom.

Starting Business. The dictionary by the inhabitants of a locality is often overlooked by the present generation of men and women, but it is their very index, it is their very key.

Before you start for the sea shore or mountains don't forget to order the EVENING JOURNAL to your camp.

MODERN EDUCATION. The Kindergarten and its Influence in the Education of Children.

Inasmuch as the Kindergarten is a new feature in the west, and just about to be introduced in our schools, we clip the following from the Hull, Iowa, Advance, to further familiarize the JOURNAL readers with the nature of the work:

The following from the pen of Mrs. Grant D. Harrington, in the Book Valley Register, is a high compliment to the Kindergarten school. Mrs. Harrington, aside from being a gifted writer is one of the best educators of the state. She says: "Miss H.'s summer Kindergarten in Hull is not only doing a grand thing for the little folks of the town, but is teaching something of much value to the older people and to the parents."

It is always the good swimmers who drown in the surf and elsewhere. Deer hunters who slay more men than deer should be called in out of the woods.

Young men afraid of their shadows, and whose hair raises at the rustle of a leaf, should not be permitted to go hunting and dispatch valuable citizens by mistaking them for deer.

John Boyle O'Reilly. The death of John Boyle O'Reilly stirs a throb of sorrow wherever there is a heart in sympathy with Irish patriotism, splendid genius or true manhood.

He was the friend of the down-trodden and friendless of every race. His views of the race problem are more radical than those of Archbishop Ireland, and his sympathy with the colored man has won him the warm friendship of the leading men of the race in America.

As a poet his rank is accorded him by those who were not disposed to discriminate kindly in favor of an Irish political convict, but he won his place by the right of true genius alone. He stood among the first journalists of the day.

CAPITAL JOURNAL JOBS. The press of Oregon evidently appreciates Portland's 80,000 hospitality.

Dyspepsia. Makes many people miserable, and often leads to self-destruction.

After Eating. I have been troubled with dyspepsia. I had but little appetite, and what I did eat distressed me, it did me little good.

Headache. I had but little appetite, and what I did eat distressed me, it did me little good.
