The equivalent, in English money, of $2.50 was once offered by an old lady in London for the return of a favorite cat which had strayed or been stolen. People called her a "crank," and perhaps she was. It is unfortunate that one of the gentler sex should ever gain this title, yet many do. It is, however, frequently not their fault. Often functional derangements will apparently change a woman's entire nature. Don't blame such sufferers if they are "cranky," but tell them to use Dr. Pierce's Favorite Prescription, which is an infallible remedy for "female weakness." "Favorite Prescription" has cured thousands of poor, bed-ridden suffering women of "female weakness," painful irregularities, ulcerations, chronic displacements and kindred ailments too numerous to mention. It is the only medicine for women, sold by druggists, under a positive guarantee that it will, in every case, give satisfaction or the price ($1.00) will be refunded.

A Brief Account of the Stock on exhibit at the Fair Ground.

HOGS.

David Craig of the Fir Grove farm near Macleay, has on exhibition at the state fair one imported Poland-China boar and two sows of the finest breeding in Ohio, and also one boar and two sows, the offspring of the above mentioned stock. All are fine and beautiful to behold.

R. W. Cary, of the Oak Lawn farm, near Macleay, has on exhibition two Berkshire boar pigs and seven sow pigs, all of the very first breeding and such specimens are hard to find in any community. Mr. Cary has made the breeding of fine hogs a specialty for many years.

L. K. Cogswell, of Chehalis, Wash., has on exhibition one pair of Chester white pigs that are not related and will be for sale as soon as the state fair is over. They are beauties.

E. J. Chambers, of Salem, has on exhibition one large Poland-China boar, 16 months old that weighed on the first day of the fair 400 pounds, and is not fat at that.

Hon T.T. Geer, of Macleay, has on exhibition one large Chester white boar. He is a registered animal, and weighs 500 pounds; he was imported some two years since from Ohio, and is as fine stock as any in the state.

H. W. Cottle, of Salem, has on exhibition one Berkshire sow and 7 pigs that are as fine as any in the state. He also has two other sows and pigs of the same breed, that are also fine; also one Berkshire boar that is a credit to any money stock in the country. He has also three Poland-China sows, and one Berkshire sow less than one year old, and 3 Poland-China boars, and one Berkshire that are all under one year old. Those are fine specimens of pigs, and show that the owner and breeder has taken much pains and care to improve them up to what they have attained to already.

W. W. Dickenson, of Wilbolt springs, Clackamas county, has on exhibition some very fine specimens of Poland-China hogs, to-wit, one sow and six beautiful pigs seven weeks old. They are certainly as fine specimens as can be produced in this state.

John Craig, of Macleay, Marion county, has on exhibition six English registered Berkshire hogs, as follows: One brood sow, one young boar 11 months old, two young boars five months old, and two sows five months old. All are beautiful specimens of this kind of stock and are worthy to be patronized by breeders.

R. C. Hailey, of Salem, has on exhibition one 2-year-old Berkshire boar, two boars less than one year old, and one litter of pigs two months old, seven in number. They are all full bred Berkshire stock and as fine as the finest, and therefore should be favorably mentioned.

John W. McKenney, of Turner, Oregon, has on exhibition one Berkshire boar 2 years old and one boar one year old, also two sows less than one year old, all fine and high bred animals. This completes the description of all the hogs that were on exhibition at the State fair for the year 1890.

SHEEP.

A report to the CAPITAL JOURNAL of the number and breed of sheep on exhibition at the State fair for the year 1890. The first we noticed was those of David Craig, of the Fir Grove farm, near Macleay, Marion county, Oregon, has on exhibition 14 head of pure bred Cotswold sheep, of very fine quality. Four of these sheep have recently been imported from the east, the flock consists of bucks, ewes and lambs. One large buck weighs 300 lbs, and is the largest sheep on the ground. His ewes and lambs are very fine specimens and it would be the thing to do for all breeders of such stock to examine his flock before they purchase elsewhere. He also has on exhibition 10 pure bred Angora goats all of very fine quality.

W. D. Claggett of Salem, Or., has on exhibition 4 pure blood Angora goats that are very fine specimens of this kind. They were imported from the celebrated stock farm of Bally, of California, and; besides these animals he has two full blood of his own breeding all of which are well worth the while to examine by all those desiring such stock.

Henry Savage, of Salem Or., has on exhibition some very fine American Merino sheep as follows: One pure bred American Merino buck, a fine specimen in size and quality. He has also 9 head of graded Merino sheep, consisting of bucks, ewes and lambs, all of which are worthy to be seen on such an occasion. Mr. Savage is a new breeder and will make his mark some time at the state fair.

John Craig, of Macleay, is here with an exhibition of fine graded Cotswold sheep, consisting of bucks, ewes and lambs. They are all worthy to grace a place on the premium list of the Oregon state fair.

J L Pornst, at Salem, has on exhibition 2 graded Shropshire sheep, that will be worthy of investigation by all butchers or any that need fat sheep for mutton.

John Minto, of Salem, has on exhibition a full and complete exhibit of American Merino sheep, 10 head in number; consisting of bucks, ewes and lambs, all very fine animals, and worth the inspection of any stock grown. He has also 18 head of cross bred sheep, between the French and Spanish Merino sheep. This grade of sheep he has made a specialty in breeding, and has greatly improved the size of his sheep thereby, and is entitled to credit therefor.

R. Scott, of Milwaukee, has on exhibition eleven head of Cotswold pure bred sheep consisting of bucks and ewes of good quality and hard to beat in any country. He has on exhibition also one large Devonshire long maned buck of very fine appearance and will only need to be seen to be appreciated by any breed of sheep in this country.

D. M. Gutherie, of Dallas, Polk county, has on exhibition two bucks of the Spanish Dalaine Merino breed, sheep of very fine quality; also one 2-year-old Merino buck and four of his lambs, and also one large French Merino buck and two of his lambs, all fine specimens and only to be seen to be appreciated by any person who knows fine sheep. Mr. Guthrie is an old breeder of such stock, and can be seen at the sheep pen at almost any time during the state fair.

R. W. Cary, of the Oak Grove farm, near Macleay, has on exhibition four Shropshire bucks over one year and two bucks of the same herd one-year old and two ewes of the same age, all pure bred animals. Besides this he has four buck lambs of the American Merino breed and four ewe lambs of the same kind of stock, all of good quality, one of the bucks is an imported National Dickenson Delaine Pole and is valued very highly by all those that know anything about this breed for mutton and wool. This sheep is a fine specimen and would do honor to any man's flock.

L. F. Mascher, of Silverton, has on exhibition three French Merino bucks and four ewes and two ewe lambs all very fine sheep. Besides these he has one Shropshire one-year old buck, two buck lambs, three ewes and two ewe lambs; also one graded year old buck, two ewes and two ewe lambs, all of which are fine specimens and of good quality for wool or mutton and should be highly appreciated by all sheep breeders.

J. W. McKinney, of Turner, Marion county Oregon, has on exhibition 2 Leicester bucks and 2 ewes over 2 years old. They are fine sheep and mostly good for mutton.

M. McKinney, of Turner, has on exhibition two graded Leicester ewe lambs and one graded Shropshire buck, all of which are of good size and quality.

R. C. Haley, of Salem, has on exhibition 2 ewes and 5 lambs, all of the American Merino breed. They are fine specimens of said stock.

WHAT IS A TUBULAR WELL?

Be Sure to Read and Get no Other

A genuine Tubular well is constructed by putting down a three inch iron pipe, with no openings except top and bottom. No dirt can get in and only pure water can be got out. This is the only kind of well that worms and insects cannot get into, that is absolutely surface-water proof, and that is forced through the cement strata to the pure living water. It is positively the only kind of well that is worth building in this country James A. Roberts, salem, (residence near fair grounds) makes these wells Terms reasonable 10 years experience. 8-21-1m-d-3m-w
