THE NEW YEARS JOURNAL.

The work of gathering the statistics and material for a special issue of the JOURNAL on the above date is well in hand. Mr. Frank Davey has charge of it and persons who have made improvements during the past year can obtain from him or at the JOURNAL office blanks to fill out for use in this edition. The matter for the New Year's edition will all be new and original and special matter. The statistics will embrace every department of business activity and no pains will be spared to make them a complete and reliable showing of what Salem has accomplished the past year in the way of progress and development. The New Year's matter will be printed on as many extra pages as will be required and will go into the Daily, Weekly, and Special editions all of that date. Our effort will be to avoid padding the columns of the NEW YEAR'S JOURNAL but rather to give it character for accuracy of statement and completeness of record. Notices of business houses will be inserted at a moderate rate and the papers will be sold at the usual rate.

HOPPER BROS., EDS.

THE SCOTCH MILLS.—Nothing is yet being done by the Capital Mills. A JOURNAL reporter was down there again, and the place was lifeless as ever. Just when work will be begun to start the wheels turning, cannot be given at this time, as no one seems to know. The man who was sent up here from Portland to make an estimate of the new material that was necessary has not yet returned. When he left he said that work would probably be commenced on the mill ditch this week, but up to this time nothing has been done in that line. The property has been through a long process of litigation and it will take sometime to look up the titles. That is the work that is now being done and the transfer can be made an assured fact and given to the public. Mr. Holland, of this city, and Mr. Wilcox, of Portland, refrain from saying much on the matter. Mr. Holland was interviewed and said he would willingly give anything to the public when the transfer was formally consummated and facts could be given instead of rumors. He further stated that it would be well in the winter before the mills could be started up at best, as it would require thirty days to clean up the mills and get them in running order. Salem is in hopes the time will not be long when they will resume operation.

LEFT FOR PARTS UNKNOWN.—Fred Volney, the man who was shot by Policeman McClain, has left the city. He had almost entirely recovered from his wound, and was to have begun work cooking in the Franklin house (Waverly hotel) Sunday morning, however, he arose very early, about 4 o'clock, got breakfast for himself, eat the same, and skipped for parts unknown. It is believed that he would be arrested for some crime committed before he came to this city, as he always acted very queer. The case against Policeman McClain will now, probably, be dismissed, as Volney was the only witness. Albany Herald.

THE LUMBERING MILLS.—The Capital Lumbering mills are still lying idle awaiting for the river to rise so that logs can be rafted and brought to the mills. A few feet of water would be sufficient to bring a small quantity of logs in from the mud flats across the slough. Away up in the Luckiamute the mill has about 5,000,000 feet of logs that it will require ten or twelve feet of water to get them out. The mill yet has lumber enough to fill all orders that have come in but if the rains continue to hold back much longer they will not be able to furnish lumber to fill the demands of a growing city.

AN ITEM.—Printed plush and India silk direct from New York at Bridges & Houghton's.

A MURDERER ESCAPED.

George Rose Taken from Jail by a Mob of Masked Men at Montesano, Washington.

Western Washington is again thrown into excitement by the murders of the Frederickson family, which cold blooded act was committed last February. The following account of the escape of young Rose is taken from the Pacific Journal of Oysterville, Wash.

On Wednesday last, Sheriff Turner received from Sheriff Bush, of Montesano, a telegram to the effect that a party of masked men had broken open the jail at that place, and taken out George Rose and departed with him for parts unknown. The object of this mob, was evidently to get out of the way the principal witness against the prisoners, now lying under sentence of death in the jail at Oysterville, for the murder of the Fredericksons last spring. But like nearly all lawless acts, the perpetrator, or rather the originators of the scheme, have overreached themselves, and their very action only goes to show more conclusively the guilt of the parties accused.

If it had been the act of an outraged community, taking the law into their own hands, the body of young Rose would have been found next morning somewhere conveniently near by, swinging in the breeze. But not so, he had disappeared completely, and the probability is that he has been smuggled on board some foreign bound vessel, or securely packed under a few inches of earth, with an epitaph, that "dead men tell no tales."

The county has been made a most bankrupt, in endeavoring to mete out justice to the perpetrators of that cowardly murder of last spring, two of the accused given a fair impartial trial, and found guilty by a jury of twelve impartial men, and sentenced to sudden death, as punishment for the crime, as provided for by the laws of their country.

AGRICULTURAL COLLEGE FUNDS.—State Treasurer Geo. W. Webb paid \$15,000 to treasurer of the State Agricultural college at Corvallis Tuesday. This money is from the national government and was appropriated by an act which passed congress and became a law on the 30th day of August 1890. The act provides that \$15,000 annually be given to each of the several state territories for the benefit of mechanical and agricultural colleges. It further provides that a \$1000 additional be appropriated each year, until the sum reaches \$25,000. This money was sent to the state treasurer, rather than to the school direct. This not being a part of the state funds and the enactment requiring that the money be paid when demanded, Mr. Webb paid it without the usual course of warrants being drawn.

WRESTLING WITH A CRAZY.—An exciting scene occurred Tuesday afternoon in East Salem near the High school building. The tragedy was the capture of a crazy who had escaped from the asylum a short time before. The old man who had escaped was a very quiet old chap and was allowed to do chores around the basement. In the forenoon he concluded he had been in the institution long enough, so he skipped out, but was pursued and caught in the city. He made a desperate fight when they endeavored to take him back, four men being required to tie him down. After he was securely tied he was taken back in the asylum bus.

NEW CHURCH.—The Highland Park people have started a movement to build a Quaker meeting house. A few weeks ago Elder George of Sheldon, Iowa, arrived and this morning a subscription paper was started by Messrs. Minthorn and Cook setting down their names for \$100 each, \$2,000 is to be raised and the building is to go up inside of 60 days.

AT EUGENE.—G. R. Crisman, of Eugene, is having plans drawn by C. S. McNally, of this city for a two story brick building in that city. The building will be of the latest improved plans with an iron front, and will be 50x50 feet.

THE BIRDS OF SPRING.—Tra-la, they are gone, but those superb bargains at B. Forster & Co's. Farmers' store are still to be had by one and all. Don't fail to see their superior stock of oil and rubber goods.

STILL MORE.—Geo. W. Johnson & Son have still more shipments of winter clothing on the road, and they propose to keep at the head of the procession in the clothing and furnishing trade.

THE WORLD ENRICHED.—The facilities of the present day for the production of everything that will conduce to the material welfare and comfort of mankind are almost unlimited, and when Syrup of Figs was first produced the world was enriched with the only perfect laxative known, as it is the only remedy which is truly pleasing and refreshing to the taste and prompt and effectual to cleanse the system gently in the Spring-time or, in fact, at any time, and the better it is known the more popular it becomes.

ITALIAN PRUNES.—J. H. Settlemier, of the Woodburn nursery, informs us that he has between 50 and 60 thousand Italian prune trees left from his immense stock of one and a half million nursery trees. Parties intending to plant would do well to confer with him at once as he says they are going very fast. See his ad.

UP-RIVER IMPROVEMENT.

In regard to the improvement of the Upper Willamette Major Hanbury states that the appropriations for this purpose is \$11,000 of which \$5000 may be expended in dredging at Ross Island and Clackamas rapids. He does not know whether it will be worth while to expend this sum at those points, but is having a survey made to ascertain. At Clackamas rapids some sixty feet of the old dam was blown out a short time since, which has somewhat improved the channel there. The snag boat Corvallis has been in use on the Upper Willamette for years, and it is absolutely necessary that she shall have a new hull. When this is built, if it should be considered advisable to dredge at Ross Island there will be but a small amount left for the improvement of the Upper Willamette, - Oregonian. This is the same old story, the appropriations are so small that by the time the boats and dredges are put in readiness the money is all expended and the river is no better for navigation than it was before the appropriation was made. The money that has been appropriated for the Upper Willamette has always been in such small dribs that little could be accomplished. The people are about despairing of congress giving any permanent aid to navigation. This far off part of the country is considered of small import to the eastern legislators.

News of the Various Churches.

Rev. Charles J. Mason, late assistant minister of St. James church, Philadelphia, has entered upon his duties as assistant minister of Grace Episcopal church, San Francisco, with most encouraging prospects.

Simpson Memorial Methodist church, on Hayes street, reports a large majority vote against the admission of women as lay delegates to the general conference. The vote stood nearly two to one against.

The First Congregational church of Sacramento has gained considerably in attendance since the advent of the new pastor, Rev. J. B. Silcox. A largely increased attendance in the Sunday school is also reported. A new Congregational church has been recently organized, and recognized by council, at Chula Vista, Cal. They expect soon to build a church edifice.

The German Congregational Church of Santa Rosa completed its organization last Sunday, and under circumstances that gave more than ordinary promise of success. It starts with a membership of forty. Rev. J. K. Harrison, of First Church, Santa Rosa, and Rev. Dr. Warren of S. F. assisted.

Rev. W. F. Price resigned the pastorate of the First Presbyterian Church of Santa Ana.

A lot has been donated for an Episcopal church at Carpentaria, Cal., and \$1200 has been collected as a building fund.

St. John's Episcopal church at Stockton, has arranged for the building of a handsome brick and stone edifice, to be commenced in a few months.

The new Methodist church at Antioch, Rev. J. A. Van Ande pastor, is nearly ready for dedication. A revival has been going on in connection with the Methodist churches of Sacramento for a few weeks under the lead of Evangelist C. N. Crittenden, of the Midnight Mission, New York. Many conversions are reported and many backsliders said to be recovered.

Improvements costing \$1300 have recently been made on the Methodist church at Gilroy Cal., of which amount one of the church members - W. N. Steuben - gave \$500. The joy of the reopening services were dampened by the death of the generous Mr. Steuben for whom memorial services were held last Sunday.

Mrs. Bayertz, the converted Jewess from Melbourne, Australia, has commenced a series of revival meetings in the First Baptist church, Sacramento.

Sumpter Camp No. 88, of V., at their regular meeting this week, elected the following staff of officers for the ensuing year: Captain, A. T. Wain; first lieutenant, S. E. Howard; second lieutenant, J. P. Rogers.

Ranier, Or., wants a church edifice and an effort will be made at once to raise the money for the erection of a building.

Rev. F. J. Edmunds has left Roseburg, Oregon, and accepted the pastorate of the Presbyterian Church at Medford, Oregon.

The Presbyterian Church at Los Gatos has more than doubled its membership during the past year under the labors of Rev. Mr. Gardner, and a branch church has been organized at Alma, where Rev. Mr. Martin preaches every Sunday.

The General Mission Committee of the Methodist Episcopal Church, at their recent meeting in New York, made among their appropriations the following for the Pacific coast: California conference, \$5,500; Columbia River conference, \$5,500; Puget Sound conference, \$5,500; Southern California conference, \$6,500.

LUMBER.—Contractors and parties contemplating building, should not fail to call on J. F. Jackson for estimates on rough and dressed lumber. Yard and office near agricultural works.

Select your holiday presents early and so get the cream of the display. Get something useful and sensible, for lady or gentleman, at the old White Corner.

It is a Go.—There is no longer any doubt as to the intentions of the Chicago syndicate who are negotiating for the Salem street railway and propose to convert it into electric roads. The Oregon Land Co. have received a telegram from their agent, Mr. Edward F. Cragin, of Chicago, informing them that the Chicago parties have put up money on the deal. The JOURNAL editors are acquainted with Mr. Cragin and know he would not be dealing with any but straight men.
