

WASHINGTON.

Acting Governor Laughton's Message.

IMPORTANT RECOMMENDATIONS MADE.

Favors Publishing the New Laws in the Newspapers.

OLYMPIA, Jan. 9.—Acting Governor Laughton's message to the legislature was very long and discussed state affairs intelligently and was received with tumultuous applause.

The duties of the executive office, in the absence of the governor, are imposed by the constitution on the lieutenant governor, who, as acting governor, submits this message to the legislature.

As the second legislature of the state of Washington, the people confidently expect that you will, so far as may be possible, by legislative enactment, judiciously amend such laws as may have been found in efficient or contradictory to their provisions, and enact such other laws as will conduce to the harmonious and successful working of our state Government.

At this period of rapid development our system of laws cannot be too carefully considered and constructed in order that there should be a reliable basis upon which to adjudicate all cases that may from time to time arise.

The law entitled "An act providing for printing and distributing ballots at public expense, and to regulate voting at State and other elections," approved March 19, 1890, otherwise known as the "Australian ballot law," seems to have been eminently satisfactory in its operation.

Changes in, and amendments to this law will, however, doubtless be suggested by more familiar acquaintance with its practical results.

Section 29, article 2, of the constitution, provides that after the first day of January, 1890, the labor of convicts of this state shall not be let out by contract to any person or corporation.

You are required to provide for the working of convicts for the benefit of the state. This mandate of the constitution should be obeyed by the speedy enactment of a law giving appropriate effect to it.

I shall refer more fully to the employment of convict labor for the benefit of the state in considering questions relative to the penitentiary at Walla Walla.

in compliance with this provision of the constitution, create a railroad and transportation commission, whose duty it shall be to adjust differences and discriminations between common carriers and the people of the state, and who shall be restricted to such functions as are contemplated by the constitution.

IN MAINE. Gov. Burleigh in his inaugural says the time has come for Maine to adopt the Australian system of voting, and urges the citizens to renew their efforts to keep Maine in the van of temperance states.

MISCELLANY. THE HOSTILE INDIANS MUST FIGHT OR SURRENDER.

PINK RIDGE, S. Dak., Jan. 9.—Yesterday afternoon all the commands in the field were ordered to march from three to five miles nearer the hostiles. Late last night the order was put into effect.

At intervals of two or three days the column will be drawn more tightly around the hostiles until they agree, either come in peaceable, or be whipped into submission. The disposition they display to accept the overtures of General Miles is susceptible to but one interpretation, and that is that they propose to surrender and retain their arms or die in their own defense.

The coming in of Red Cloud is variously interpreted but his good faith is doubted.

INDIAN TROUBLES IN OKLAHOMA. ST. LOUIS, Mo., Jan. 9.—A special from Guthrie, O. T., says much excitement prevails here regarding the present Indian outlook.

Grave apprehensions are felt, and trouble is expected as soon as the disarming of the Indians begins. The Cheyenne and Arapahoe Indians came into King Fisher and purchased every cartridge that could be had.

The aspect is serious. Judge Sea, of the supreme bench, said to-day that the inland towns should at once organize in companies to aid, if necessary, settlers along the borders.

THE CRISIS APPROACHING. WASHINGTON, D. C., Jan. 9.—There were no telegrams from General Miles at the war department this morning, and the idea prevailed that the situation was unchanged at Pine Ridge. The opinion is spreading that the crisis of the campaign so often predicted and so long deferred is nearly at hand.

Secretary Proctor is constantly in receipt of requisitions from various sources, mostly from governors of states adjacent to the scene of trouble, asking for arms, with which to supply local troops raised for defence. The requests have not been complied with.

THE HARVESTER TRUST. CHICAGO, Ill., Jan. 9.—Some time since preparatory steps were taken by leading manufacturers of agricultural implements looking towards the formation of a gigantic combine to be known as the American Harvester company.

To-day President McCormick furnishes the following statement to the Associated Press: "The American Harvester Co., has been brought face to face with grave legal obstacles to the consummation of the enterprise for which it was formed. They are of such a character that the whole undertaking must be abandoned."

DIVIDING UP THE SPOILS. New York, Jan. 9.—The subcommittee of the advisory board of the western railroads met this morning to complete the bylaws begun by them yesterday.

A discussion was had upon the Pacific roads and the manner in which the business across the country was to be divided. The subcommittee wanted to have the distribution of freight left to them and this way was decided as objectionable to the others.

PARAGRAPHS. GIBRALTAR, Jan. 9.—A large wood and petroleum warehouse situated in dangerous proximity to a powder magazine is in flames. The fire troops are doing everything possible to prevent what may prove a terrible disaster.

ARMON, S. D., Jan. 9. A disastrous fire has destroyed the whole business part of the town.

Including Indians (244,705) and Alaskans the total population of the U. S. is put at 63,000,000.

In Missouri Senator Vest has been renominated.

If Your House is on Fire You put water on the burning timbers, not on the smoke. And if you have catarrh attack the disease in the blood, not in your nose. Remove the impure cause, and the effect subsides. Take Hood's Sarsaparilla, the great blood purifier, which permanently cures catarrh, strengthens the nerves. Be sure to get only Hood's.

Our state possesses jointly with Oregon one of the grandest rivers in the world. Aside from the wonderful natural beauty of the Columbia river, its importance as a commercial waterway should be utilized. No effort or cost should be spared to make every mile within our state free from obstructions, thus rendering it navigable and putting it in a position to afford priceless facilities for commerce.

A RAILROAD COMMISSION. I recommend the advisability of providing for the publication of each law immediately after its approval in the newspapers of the state. I believe that such provision would more fully tend to carry out the spirit of our constitutions.

THE LEGISLATURE.

No Compulsory Educational Law in Illinois.

GOVERNOR THAYER PROVES A STAYER.

An Alliance Speaker in Minnesota—Other States.

IN ILLINOIS. SPRINGFIELD, Jan. 9.—In the senate, in accordance with the action of the caucus of democrats held last night, a bill was introduced for the repeal of the compulsory education law and substitution of an enactment which practically concedes the sectarian opponents to the present law all they demanded during the last campaign.

IN NEBRASKA. LINCOLN, Neb., Jan. 9.—The morning session of the legislature was wasted in wrangling over the minutes of the joint convention, which are badly mixed on account of the confusion. This work was unfinished at noon. All the newly elected state officers are in possession of their offices, except Governor Boyd, who is kept out by Governor Thayer, on the grounds that he is ineligible.

Governor Boyd was sworn in as governor, at noon yesterday, by Chief Justice Maxwell, of the supreme court. This morning he took the oath of office before a notary public as did also all the republicans elected.

Governor-elect Boyd called on Gov. Thayer and the latter informed him, (Thayer) would not give up office on the ground that Boyd was not a citizen of the United States. Governor Thayer has barricaded himself in executive office with police and a company of militia on guard. It is understood he will remain governor if possible, until all questions affecting his successor are settled. Boyd's father, it will be remembered, came to this country from Ireland while Boyd was a minor. He took out his first papers, but never perfected citizenship, and his son was never naturalized. It is claimed, therefore, he is ineligible to office.

TO-DAY. Powers the Alliance candidate took the oath of office today and it is said the legislature will recognize him as governor. All the new state officers are fully recognized now except Governor. Tom Major is installed as Lieutenant Governor and president of the senate, under protest of Governor Boyd is recognized by the New State officers and they will report to him.

IN MINNESOTA. the deadlock has been broken. Thursday afternoon Sivers, democratic candidate for speaker, withdrew in favor of Champlin, the Alliance candidate, and the latter was elected, over Searle, republican. St. Paul, Jan. 9.—The house completed its organization to-day by the election of a "Fusion Alliance Democratic" ticket.

IN CONNECTICUT. the situation of affairs Jan. 8th was that the senate declared the democratic state officers elected, while the house has sent out an inquiry as to whether any one was selected, and meanwhile the old state officers (republican) hold their offices, although Lieutenant Governor Merwin has not appeared in the senate, and that body is presided over by its own president pro tem.

MARRIED. CHITENDEN-SAYRE.—At the Baptist church in this city, Jan. 8, 1891, Mr. W. E. Chitenden and Miss Francis Maud Sayre, Rev. Robt. Whitaker, officiating. The ceremony was private. The young people have both been living in Salem, but took the overland train last night for Eugene, where they will make their future home.

BIRDS. All kinds mounted to order. ALLAN RHODES, SALEM, OREGON.

FRESH MILK. Capital Dairy Co. A. D. Fawcett, B. J. Kelly and are prepared to deliver fresh milk cooled on ice, to any part of the city. Leave orders at Minto & Lewis's stable.

UNFAIR TAXATION.—The city authorities are trying to enforce a license ordinance that calls for \$20 a year from any hotel soliciting passengers at the boats or trains. Mr. Wagner of The Willamette, runs a free bus to all trains and says he considers this tax an outrage. He says: "If it is right for all to pay, I am willing to pay too, but when others run hacks and buses and solicit passengers just the same as I do and pay nothing, it is an outrage to single me out for a pinch of this kind. I have put a good deal of money into this hotel, and am willing to do all things reasonable. But when it comes to riding a man just because he is able to pay, I kick." Mr. Wagner has labored to give Salem a first-class hotel and should not be unfairly taxed.

AT THE OPERA.—The Swedish National Ladies Concert company has arrived in the city and will appear to-night. From the reports of their entertainments elsewhere and the sale of tickets it is safe to say the entertainment will be all that is claimed and will be one of the best that has appeared in this city for a long time.
