SAN FRANCISCO, Feb. 13.—Wheat: buyer, season, $141¼.

CHICAGO, Feb. 13. — Wheat steady, cash 94¾; May 88⅞; July 73⅝.

WASHINGTON NEWS.

DEATH OF ADMIRAL PORTER.

WASHINGTON, Feb. 13.—Admiral David P. Porter died this morning. His death was very sudden. It occurred at his residence here, and was the result of fatty degeneration of the heart, with which he has been afflicted since last summer. His death was calm and peaceful. The nature of the admiral's disease made it dangerous for him to lie on his back, so that he was accustomed to rest sitting up on a large sofa with his back and head supported by pillows.

Flags on the White House and on other public buildings are placed at half mast. The funeral will be marked with the hightest military honors, and the interment will be at Arlington National cemetery. A large number of people in official life called at the house this morning and left messages of sympathy for the family. Telegrams of condolence are also received from all over the country. The time for the funeral has not been fixed.

POLITICAL.

STILL BALLOTING.

SPRINGFIELD, Ills., Feb. 13.—The republican party went to pieces in joint assembly to-day. The 85th joint ballot, the first of to-day's session, resulted as follows: Palmer 101, Oglesby 81, Lindley 16, Stelle 2, L. C. Hubbard 1, L. C. B. Farwell 1, M. W. Matthews 1, P. H. Donnelly 1.

FOREIGN.

THAT SISTER-IN-LAW BILL.

LONDON, Feb. 13.—The house of commons yesterday passed to a second reading, by a vote of 202 to 155, the bill permitting a man to marry the sister of his deceased wife. The bill has been passed several times before in the commons and defeated through ecclesiastical opposition in the upper house.

MISCELLANY.

GEN. SHERMAN BETTER.

NEW YORK, Feb, 13, 2:30 p. m.—Gen. Sherman is resting easily; the disease is arressed and the outlook encouraging.

SELLS HIS BIRTHRIGHT.

HELENA, Feb. 12.—The contestants for the vast estate left by millionaire Davis were greatly surprised to-day at the announcement that Thomas Jefferson Davis, illegitimate son of the late banker, has assigned to John A. Davis for $100,000. Jefferson Davis, by the will now in controversy, is to receive a life annuity, and should the contesting heirs succeed in establishing the fact that the instrument is a forgery, he would come in as first heir and receive a good share of the ten millions.

The only explanation is that he is fond of high life, and has not the patience to wait until the court makes final disposition of the estate. His lawyer was the most surprised. He says it is in direct violation of the agreement entered into with the other relatives. This only adds to the complication.

STRINGENT TAX LAW.

TOPEKA, Feb. 12.—The house yesterday passed Speaker Elder's bill, which requires every bond, mortgage and note held in the state to be taxed. The bill requires that every bond, mortgage or other evidence of indebtedness must bear the stamp of the assessor or it cannot be collected. All the alliance men voted for the bill and nearly all the republicans voted against it.

RAILROAD CHANGES.

OMAHA, Feb. 13.—A circular was issued this morning entirely reorganizing the freight department of the Union Pacific. J. A. Munroe, present assistant traffic manager, becomes freight agent, relieving F. B. Whitney, and will have general supervision of the entire system. B. F. Campbell, present general freight agent, with headquarters at Portland, vice F. B. Whitney, present general freight agent, who becomes first assistant general freight agent, with assistants at Denver, Salt Lake, Portland, St Joe, Kansas City and Butte. The change goes into effect March 1st.

PISAGUA BOMBARDED.

NEW YORK, Feb. 13.—Flint & Co. to-day received the following cablegram from Chili: "Pisagua is bombarded and burning. The blockade has ceased at Valparaiso."

STOCK RAISING RECOMMENDED.

LONDON, Ont., Feb 13.—The report adopted by the Donovan grange sets forth that wheat has been raised at a disadvantage during the past years, and farmers are recommended to give stock raising their attention. The hope is expressed that the barriers of a high tariff are broken between Canada and the United States.

STEAMSHIP DISABLED.

SAN FRANCISCO, Feb. 13.—The steamship Monawai, which left here on Saturday for Australia, was sighted off the coast this afternoon returning, probably on account of an accident to her machinery."

CRIMINAL.

THE SAME OLD STORY.

AYER, Mass., Feb. 13.—President Hartwell has received a letter from missing Cashier Spaulding, in which he says that the money he has been taking for four years past from the bank has been lost in speculation. It was stated this morning by the examiner that the loss of the First National bank is apparently about $27,000.

PARAGRAPHS.

T. P. O'Connor, the Irish patriot, is on a visit at Spokane Falls. He will speak at several points in the northwest.

The anti-Pinkerton bill passed the senate at Olympia on Thursday by a unanimous vote. The bill is aimed directly at armed bodies of special detectives employed by corporations to intimidate striking employes.

Jesse H. Proctor and Frederic Young were hanged in Dover, Del., to-day.

A free-for-all shooting scrape took place in a Butte gambling hall on Thursday morning. Will Sheerin, who had lost $250, opened the ball, and a dozen shots were exchanged. Three men were wounded, Sheerin receiving three shots, and a dog was killed as he lay on the floor.

A vagrant in Seattle, with a kit of burglar's tools in his possession, being sentenced to eighty days by the police judge, has been granted a habeas corpus, and will test the right of a police judge to commit a man for vagrancy.

Mary Ann Reardon and Mrs. Kehoe, two old women living alone in a Chicago shanty, were suffocated to death on Friday by the burning of their clothing.

Critics Must go Slow.

A London cable says: English dramatic critics have to be mighty careful what they say and what they write. Last year when Mr. Terriss, the well known English actor, accompanied by Miss Millward, was in the United States on a professional tour, a cablegram was published in the Sunday Times stating that the Englishman had been received with "noticeable coldness." Upon his return he brought suit for libel, claiming that the item was printed maliciously and was not in the nature of fair comment. The jury gave a verdict in his favor for $1000 and $250 additional for costs. The Sunday Times appealed to the court of appeals, and the master of the rolls in a decision just handed down, not only dismisses the appeal with additional costs, but says that to print a statement that Terriss was received with noticeable coldness was one of the most insolent and scandalous attacks upon a professional man of which he had ever heard.

Remarkable Rescue.

Mrs. Michael Curtain, Plainfield, Ill., makes the statement that she caught cold, which settled on her lungs; she was treated for a month by her family physician, but grew worse. He told her she was a hopeless victim of consumption and that no medicine could cure her. Her druggist suggested Dr. King's New Discovery for Consumption; she bought a bottle and to her delight found herself benefited from first dose. She continued its use and after taking ten bottles, found herself sound and well, now does her own housework and is as well as she ever was.—Free trial bottles of this Great Discovery at Fry's Drugstore.

The Willamette is rapidly rising at this city, and if it continues at the same rate for a few days more she will be to her banks' tops.

Liver Complaint—Biliousness.

The chief symptoms of this disease are depression of spirits; loss of appetite; coated tongue; bad taste in mouth; disagreeable breath; dry skin with blotches and eruptions; sallow complexion and yellow eyes; tired; aching shoulders; dull pain in right side; fatal ness diarrhœa and irregular bowels. This complaint in all of its forms can be readily cured by taking Dr. Gunn's Improved Liver Pills as directed; and a lingering spell of sickness will often be prevented by their use. Sold at 25 cents a box by Smith & Steiner.

Deafness on the Decrease in England.

LONDON, Feb. 12.—The recent introduction in England of the sound discs invented by H. A. Wales, of Bridgeport, Ct., bids fair to perceptibly decrease deafness throughout the British isles.

THE PENITENTIARY.

Report of Joint Legislative Committee

THEY EXAMINE BOOKS AND ACCOUNTS.

Management and Mode of Conducting it Highly Commended.

HOUSE OF REPRESENTATIVES, SALEM, OREGON, February 6'91.

To the Honorable Legislative Assembly of the State of Oregon, in Salem Assembled:

We, the joint committee, appointed to examine the books of the penitentiary and the mode of conducting the institution, have visited the premises and made a thorough examination of its books and the various departments of the prison.

We find the running expenses of the penitentiary for the two years, 1889-90, amount to $72,283.26, which includes the total cost of feeding, clothing and guarding the prisoners, the number of whom has averaged 295 during the term mentioned. The cost also of buying a new suit of clothes for each discharged convict and presenting him with $5 on his release is included in these figures, as also the purchase of work teams for cultivating penitentiary fields.

The superintendent of the prison handles no moneys belonging to the state. When he pays a bill incurred by the institution he draws a voucher to be presented to the secretary of state, who endorses it and draws a warrant on the fund mentioned in the voucher, which warrant is presented to the state treasurer for payment.

The last legislature appropriated sums aggregating $81,580 for the benefit of the penitentiary, divided into sixteen funds, as follows:

General expense	$34,000 00
Guards	13,200 00
Shop guards	5,760 00
Wardens	4,200 00
Superintendent	3,000 00
Watchman	3,960 09
Erecting water tower and tank	3,500 00
Concrete floor in workhops	3,500 00
Engineer	1,800 00
Bookkeeper	1,800 00
Physician	1,000 00
Firewood	3,000 00
Teamster	960 00
Ventilation	800 00
Iron fence	600 00
Repairing roofs	500 00
There remains a surplus unused in the guard fund of	3,424 57
In the concrete floor fund	3,469 26
Ventilation fund	622 23
Shop guard fund	117 00
Engineer fund	202 00
In the repairing roof, tower and tank, iron fence and watchman funds the unused money amounts to	4 99
There is a deficit in the general fund of	2,485 62
In the firewood fund	1,965 82

The remaining funds are balanced.

According to the report of the last legislative committee of investigation, the average cost per annum of keeping each prisoner during 1887-8 was $133.99.

The average cost during 1889-90 was $122.50, showing a reduction in the cost of feeding, clothing and guarding each prisoner for the past two years of $11.49 per annum.

The concrete floor fund was not used on account of the objections on the part of the Northwestern foundry in whose employ the most of the convicts have been kept making stoves. The objections were on the ground that prisoners would find the matter of breaking casting on the hard floor very easy, and that it would be difficult for the prison authorities to tell whether the breakages occurred accidentally or through the malicious intent of the prisoners. As a plank floor, laid close on the ground, would proceed to rot immediately on its completion, and prison discipline will not admit of a space underneath a plank floor, which affords prisoners convenient hiding places, your committee would recommend laying concrete wherever new floors are necessary, covering the runways and exposed portions with planks, thus insuring dry, firm and lasting foundations without additional risk of breaking castings.

At the present rate of increase of prisoners, the penitentiary will contain about 450 prisoners by the next regular session of the legislature. There are only cells enough to confine 404, with two in each cell. We therefore recommend that twenty-four double cells and thirty-two single cells of the material such as is now used in the prison be purchased and added to the tiers on the north and south wings. These will cost in the neighborhood of fourteen thousand dollars and will accommodate eighty prisoners.

The motive power of the prison is used by an electric light company during the night, for the purpose of lighting the state house, insane asylum and penitentiary. As much higher speed is necessary in the production of light, the additional friction on the machinery of the stove works injures and wears it inordinately. We would recommend that the state take charge of and run the electric plant, with special motive power for the purpose.

About 13,000 pounds of pork per annum is raised by convict labor, the swill from the penitentiary kitchens being utilized in doing so. The present hog sheds and cow stables are in a swampy locality and in a decaying condition, and new buildings should be erected on higher ground. Two thousand dollars will buy sufficient lumber for building these sheds, and renewing the various line fences on the grounds, which are also in an advanced state of decay. The work of building sheds, pens and fences can be done by prison labor.

The guards and employes at present are obliged to sleep in sheds and stables in the vicinity of the prison. As these men should always be within call, we recommend that a few cheap cottages be built on the grounds and rented to the officers and guards at reasonable rates.

All moneys earned by the penitentiary are paid into the state treasury. During the past two years the Northwestern foundry has paid in for convict labor, $41,179.41. The amount paid by the United States for the board of military and civil prisoners, and that received through minor incidental sources amounts to $5,860.82, so the institution for the past two years has come within $12,621.51 per year of being self-sustaining.

The amounts expended in buildings and improvements, and for fire wood used in burning 1,100,000 brick for the reform school, have not been figured in the running expenses of the prison; neither has the value of the brick been credited to its earnings.

We are of the opinion that the penitentiary, under Mr. Downing's management, is and has been conducted upon strictly economical business principles, and that the supervision could not be in better hands. The system of keeping the books is plain and direct and the work of overhauling them is therefore comparitively plain and easy. Both Mr. Downing and the officers of the institution have courted the fullest investigation of all the departments.

We recommend the following appropriations for the year 1891-2:

General expenses	$37,000 00
Guards	12,200 00
Shop grounds	7,200 00
Wardens	4,200 00
Superintendent	3,000 00
Watchman (principal and outside)	4,200 00
Concrete floor in shops	3,500 00
Wooden floor covering concrete	500 00
Engineer	1,800 00
Bookkeeper	1,800 00
Physician	1,000 00
Teamster	960 00
Fencing penitentiary lands	1,000 00
Material for hog pens and cow sheds	1,000 00
Building cottages for guards and employes	1,500 00
Firewood	3,500 00
Painting prison	1,800 00
Twenty-four iron cells	14,000 00

The sum of $500 per annum should be placed at the disposal of the superintendent, to be used at his discretion for the purpose of moral education of the prisoners. Under our constitution no chaplain can be employed, and so the work of reclaiming the prisoners, many of whom are young men, has been left entirely to the desultory efforts of the ministers and people of Salem. In most other states a chaplain is employed, whose duty it is to pass upon all correspondence coming in and going out of the prison, and to look after the moral advancement of the prisoners. Respectfully submitted,

C. E. MOORE,
T. CAMERON,
W. F. MATLOCK,
E. W. BARNES,
A. C. JENNINGS.

Pendleton Made Happy.

Pendleton celebrated Tuesday evening. Anvil boomed from in front of W. W. Roper and Neagle Bros.' blacksmith shops, and formed an artillery support to the intermittent volleys of fire crackers which assailed the air. We had fireworks, also, successfully manouvered by T. C. Taylor and H. A. Faxon, and touched off in front of the opera house to the sound of music by the band. Everyone was happy over the knowledge that Pendleton's hopes have at last been realized by the opening of the Umatilla reservation, and all our citizens feel an increased confidence and interest in the success of their city. We feel good, and we want the world to know and join in our gladness. For this reason telegrams have been sent to nearly every leading newspaper in the United States, scattering the news throughout the land that the reservation has been ordered sold, and that a splendid chance has been offered the homeseeker.—East Oregonian.

Advertisers will understand the value of an evening paper as an advertising medium when they remember that the evening paper is essentially the home paper. The evening paper is the fireside companion, and the paper which is read by the family is the one the advertisers want to use.

What a Change

Is wrought in the people who suffer from rheumatism when they take Hood's Sarsaparilla. Acidity of the blood, is neutralized, the blood is purified, the aching joints and limbs rest easily, a feeling of serene health is imparted. Hood's has accomplished much for those subject to rheumatism.

Would not be Without it.

Dr. E. S. Holden: Send by express quarter doz. of your Ethereal Cough Syrup. Please be sure and send by return express, as I do not wish to be in the house without it.

PILLSBURY HODGKINS.

San Fracisco, Dec. 1878.

Large size $1.00 small 50 cents. For sale by all Druggists.

LEGISLATIVE REVIEW.

JOURNAL Editorial Headquarters, Legislative Assembly.

Miller's house bill No 97, increasing the power and defining the duties of railroad commissioners, was read 1st and 2d time by title and referred to committee on railroads, with permission to report at any time. Upon motion of Senator Tongue, the committee on railroads was instructed to report on their bill by Tuesday, at 10 a m.

***

House bill No 214, by Garfield, submitting to the people the relocation of the county seat of Coos county, was indefinitely postponed upon motion of Senator Sinclair.

***

House bill No 149, to relocate the county seat of Grant county, was indefinitely postponed upon motion of Senator Dodson.

***

The Multnomah delegation was granted leave to report house bill No 49 at any time after 2 p m Monday.

***

President Simon signed house bill 122—the Australian ballot bill, at 11:15 today.

***

Fifty-five house bills are now on second reading in the senate.

***

Fulton introduced a joint memorial in the senate, asking congress to establish a salmon hatchery in the upper waters of the Columbia. The memorial was adopted.

***

Rep Jennings' new railroad commission bill provides for a commission of three members, one of whom shall act as clerk, at a salary of $1500 each, except the member acting as clerk who shall receive $500 additional for clerical services. This would make the railroad commission cost the people $5,000—per year when it now costs $9,500.

***

Astoria representatives are congratulating themselves on the fact that they have secured nearly everything they want.

***

Some of the members are attributing the excessive amount of weather to the presence of Chief Pague of the weather bureau at Salem.

***

There are fifty-nine small bills yet to be read a third time.

***

The substitute for senate bill 39 by Cross, relating to road work is an excellent bill and should pass both houses as it is a great improvement over the old law. It provides that the supervisor shall apportion the labor performed so as to make one day's labor for every thousand dollars' worth of taxable property.

***

Senator Blackman is on the sick list and is unable to attend the sessions of the senate.

Three Periodicals.

The word "Croup" carries such terror with it, and is applied to so many conditions in infancy, that Dr. W. L. Carr's exhaustive article on "Croup as a Sympton in Different Diseases," in the February number of Babyhood, will be read with the greatest interest by thousands of young mothers. Fifteen cents a number; $1.50 per year. Babyhood Publishing Co., 5 Beekman Street, New York.

The primary Sunday-school articles in the Kindergarten (Chicago) are proving invaluable helps to teachers of infant classes in the Sunday school. We learn from the columns of this magazine, that each lesson is an outgrowth of the personal experience with the writer's class of sixty little ones, which is having unprecedented success. Parents are becoming so greatly interested that many of them visit the class every Sunday morning and ask Miss Bryan "how it is that she makes them so useful, they are anxious to work at something every moment, in order to express their love in deeds, as well as words."

The Art Amateur for February, 1891, is an enlarged issue, with special articles devoted to the forthcoming sales of the important Brayton-Ives and Seney collections, which are copiously illustrated. A talk with Mr. Shugio on Japanese Porcelains, and many notes on rare bric-a-brac of all classes, make the number appeal specially to collectors. This number is even more copiously illustrated than usual, the frontispiece, "Eight Bells," direct from the original painting by Winslow Homer, being perhaps the most noticeable of its many engravings. Price 35 cents. Montague Marks, Editor and Publisher, 23 Union Square, New York.

There is Catarrh in all sections of the country, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, but constantly failed to cure with local treatment. This has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. For circulars and testimonials. Address, F. J. CHENEY & Co., Toledo, O. Sold by Druggists, 75c.

A Sure Cure for Piles.

Itching Piles are known by moisture like perspiration, causing intense itching when warm. This form as well as Blind Bleeding and protruding, yield at once to Dr. Bosanko's Pile Remedy, which acts directly on the parts affected, absorbs tumors, allays itching and effects a permanent cure. 50 cents. Druggist or mail; trettise free. Dr. Bosanko, Philadelphia Pa. Sold by Smith & Steiner.

Oregon Courier: Herman Antony, of New Era, returned last week from a two weeks' sojourn at a Portland hospital, with his fractured foot on the road to recovery. The accident occurred while he was employed on the railroad's steam shovel at Canby.

Hibbard's Rheumatic and Liver Pills.

These pills are scientifically compounded and uniform in action. No griping pain so commonly following the use of pills. They are adapted to both adults and children with perfect safety. We guarantee they have no equal in the cure of sick headache, constipation, dyspepsia and biliousness and, as an appetizer, they excell any other preparation 177 1y

Smith & Steiner, sole agts.

The Problem Solved.—An Unrivaled Blood Purifier.

Found at last in Hibbard's Rheumatic Syrup—A remedy which expels all poisonous matter from the blood, A well known citizen of West Lebanon, Ind., testifies to its value:

It affords me pleasure to state that my wife has received greater benefit from Hibbard's Rheumatic Syrup than from any medicine she has ever taken. We find it to be the best family remedy and the greatest blood purifier that we have ever used. It is truly all it is claimed to be by its founder. You cannot recommend it too highly.

Yours Truly,
FRANK WALLACE, West Lebanon, Ind.

Kid gloves were never so cheap as at the special sale at Holverson's this week,

Their gentle action and good effect on the system really make them a perfect little pill. They please those who use them. Carter's Little Liver Pills may well be termed "perfection."

No one knows better than those who have used Carter's Little Liver Pills what relief they have given when taken for dyspepsia, dizziness, pain in the side, constipation, and disordered stomach.

Do not despair of curing your sick headache when you can so easily obtain Carter's Little Liver Pills. They will effect a prompt and permanent cure. Their action is mild and natural.

Wonderful Results often follow the use of Hood's Sarsaparilla. Severe cases of scrofula, upon which other preparations have been powerless, yield to the peculiar curative powers of this medicine. Distressing cases of dyspepsia, excruciating complaints of the kidneys and liver, agonizing itch and pain of salt rheum, disagreeable cases of catarrh, and aches and pains of rheumatism, are cured by Hood's Sarsaparilla. It purifies the blood, and at the same time tones the stomach, creates an appetite, and gives strength to every function of the body. Give it a trial. **Results**

General Debility

"For four years my wife suffered with large tumor bunches on the glands under the arms, and general debility of the whole system. She became so poor in health that we were on the verge of despair regarding her recovery. Physicians did not seem to understand her case; at all events she never derived any benefit from their treatment. She finally concluded to try Hood's Sarsaparilla. The immediate effect was so marked and satisfactory that she continued to take it, and this is the result: She has gained in weight

From 84 to 111 Pounds

and is stronger and in better health than she has been for years. The bunches under her arms have diminished, and we believe Hood's Sarsaparilla will be too much for them in time." J. J. NORCROSS. 256 Commercial Street, Boston, Mass.
