President Manyel, of the Atchison, is now here, also Vice-President Larkie of the Missouri Pacific and Union Pacific. It is claimed that the presidents of nearly all the large systems, who are not already here, are on their way. Steps will be taken at the meeting to make the recently adopted rates permanent. Jay Gould is understood to be working for a more binding agreement than that which now stands. All the Western roads, according to the story, have agreed to enter into the new and stronger contract, except the Burlington and Rock Island, which refuse to join any association. The parties identified with Gould say a conference was held since President Manyel's arrival, looking to the consummation of his scheme to consolidate the Missouri Pacific, Union Pacific, Southern Pacific and Atchison into the new company, and that the scheme came very close to being carried out.

He will not employ this method himself or allow his friends to do it. It will take sixty-one votes on joint ballot to elect a United States senator. NO TRUTH IN THE RUMOR.
WASHINGTON, Mar. 4.—A rumor is current to the effect that, upon information, cabled by the Chinese minister here, the Chinese government has entered an objection to Senator Blair as minister to that country. The Chinese minister being in Peru, Mr. Yo, one of the attaches of the legation, today said that absolutely there was no truth in the report.

The president said to callers Monday that the report that he intended to send a special message urging the passage of the federal election bill was not true. It would be, he said, both superfluous and useless. The president said to these gentlemen that he had no idea an extra session of congress would be necessary. As to the talk of special session of the senate, Mr. Harrison said he had no intention of calling one. There was, he said, nothing in the present outlook of public business which would require it. The president then told his callers he was going on a shooting trip about a week after adjournment.

AFSAIRS IN CANADA.
MONTREAL, Mar. 4.—Thursday will undoubtedly be one of the most critical days in the history of the dominion. Never before has there been such intense interest and intense bitterness aroused, especially in the maritime provinces, the strongholds of the annexionists. War is being carried on in the most scandalous way. Priest, preacher, politician, demagogue and even high born women are going from door to door begging for votes and promising anything to get them. The government is most anxious in regard to the public peace on election day, and all the troops will be ordered to be under arms during the time the polls are open. It is well understood that the government is determined not to put up with any trifling on Thursday. Sir John Macdonald's re-election is of course conceded.

A FREE FIGHT.
BELFAST, Mar. 4.—Henry Harrison, member of parliament, visited the officers of the Belfast branch of the National League on Monday and seized all money and documents to could lay his hands on. Harrison and his friends then declared the branch dissolved. A free fight followed between Harrison's friends and the opponents of the Belfast league. Fists and sticks were freely used. Finally the police cleared the building.

CITY FATHERS IN SESSION.

An Inevitable Resolution Adopted—Wooden Signs Must Come Down.

The city council met last night, with all the members present, except Alderman Lamoureux. The new council starts out in a businesslike way. The committee on fire and water, furnished some recommendations in the changes of the old hydrants now in use by the city. Their recommendations were that as fast as possible the old hydrants be replaced by new ones of the latest pattern, and that the same be equipped with the mads by four-inch pipes, and that they have plunges for both hose and steamer attachments. The committee authorized to receive bids for such changes.

The matter of looking into the report of the last street commissioner, was reported by the city attorney. He now finds that the city is indebted to the commissioner \$16.63, instead of being debtor to the city \$400. The council was not satisfied with the report, and Councilman Gray moved that the attorney be instructed to examine the reports of the commissioner, for the past five years. The motion prevailed, but after a discussion, as to the amount of work required to look into, and compare all these reports, the motion was reconsidered, and two years were substituted for the five.

Several ordinance bills were introduced. A bill was passed prohibiting the hanging of sign and transparencies over the sidewalks. Bill relating to awarding was read twice and referred to the ordinance committee. Bill resuming the contract with the Salem water company to provide the city with pure water for thirty years.

The following resolutions introduced by Councilman Brown were adopted:

"Resolved, That when supplies are needed or repairs are to be made under the direction of the different departments of the city of Salem, the chief or superintendent of such department shall purchase or let the same in open competition to the lowest responsible bidder, or if the amount of such article of supplies or repairs is less than \$5, then such chief or superintendent shall satisfy himself by getting prices of two or more firms or persons having supplies for sale or doing such repairs or work or purchase or have such repairs made or work performed by the lowest responsible bidder, and it shall be the duty of such chief or superintendent to inform such firm or persons that the bill must be presented to him during the month of its contract or purchase. That the city of Salem shall not be held responsible unless such contract or order for supplies or repairs is authorized by the following officers: The mayor, common council, chief of fire department, chief of police, superintendent of streets, and recorder."

Bills as follows were ordered paid:

Alonso Gesner, services, \$53.00

The report was adopted and warrants ordered drawn for the amounts.

After a large number of bills were read against the city the council adjourned until Thursday evening, when they meet in special session to consider the sale of the buildings.
