These were laid in 1875 and the capital city boasted of her long stride forward in securing such a "fine system" of water mains. The water supply was taken from the river and pressure was given by the water being pumped up into a large tank which was elevated a hundred feet or so, and stood on the bank of the river near the foundry. The pipes were only used about three years until the city had outgrown them and iron was begun to be used in their place. These old relics are the strongest proofs of the progress of the city. Today instead of wooden pipes with a four-inch bore, twelveinch iron pipes are used.

PIONEERS' HISTORICAL SOCIETY. -A meeting of the Pioneer and munication you may send to me will Historical Society of Oregon was held in Astoria Tuesday. As it was a called meeting only the local members were in attendance. Resolutions were adopted to the effect that it was the desire of the society that a meeting be held in Astoria May 11, 1891, and that delegates be invited from the kindred organiza, tions of Washington, Idaho and other parts of this state. The object of this joint meeting is the arrangement for the centennial anniversary of the discovery of the Columbia rival in Salem. He brings his family, 12, 1792.
