Italian legation here by sending him fresh letters of confidence. It is true that Rudini had ordered the minister to withdraw fully a week before the minister obeyed instructions. All that time he spent in sending cautious remonstrances to his government. He withheld the announcement of his recall as long as he could. If he had promptly obeyed instructions without question or demur, the Italian government would have seemed to be in still greater haste than has been made apparent. The final order from the premier was pre-emptory and urgent, and the baron had no alternative but to inform Secretary Blaine of his recall, as he did on Tuesday morning. It is a fact, though, that within a few minutes or hours at most, the baron received another cable from the premier telling him not to present his recall until further orders.

CAVALRY FOR POLICE DUTY.

WASHINGTON, April 6.—Two troops of cavalary have been ordered to California to police the Sequoia and Yosemite national parks.

ACCIDENTAL SHOOTING.

WALLA WALLA, Wash., April 6.—News has just been received from Dixie, Walla Walla county, that Wm. G. Kershaw was shot and killed last Sunday by a boy named John Rodgers. The boy was playing with a needle gun near where Kershaw was sitting, when the gun was discharged either accidentally or with the intention of scaring Kershaw. The ball entered his left side and came out under his right arm, killing him instantly. When arrested the boy said he knew nothing about the shooting except that the gun went off.

STRIKE IN NEW YORK.

NEW YORK, April 6.—A thousand journeymen painters struck today to enforce a demand for higher wages. It is reported that a number of firms have yielded, and granted the advance asked.

P. T. BARNUM.

BRIDGEPORT, Conn., April 6.—P. T. Barnum, showman, who has been ill for several days, has suffered a relapse and it is feared he can live but a short time.

FROST IN MOBILE.

MOBILE, Ala., April 7.—A heavy frost this morning killed tomatoes, cucumbers, squash, beans and peas. The potatoes are cut down about 50 per cent.

BLAINE MAKES DEMANDS.

WASHINGTON, April 6.—Secretary Blaine is preparing to take advantage of the present excitement in Italy to secure, if possible, a surrender by that country of two Italians who were concerned in the murder of Mine Boss Flannigan and Mine Paymaster McClure, near Wilkesbarre, in October 1888. Two Italians were found guilty and hanged, but two others escaped, and were traced to Italy, whither they fled to enjoy the $20,000 they had secured. Through some hitch the Italian government has never surrendered these murderers to the United States authorities, although officers properly authorized were sent over to bring them here for trial. The statement is made here that these two Italians are either in jail in Italy, or under police surveillance. This fact is known to Blaine, and it is said that he is preparing papers in the matter to be used in connection with the United States reply to Italy on the New Orleans affair, and in answer to the demand for an indemnity for the friends of the men who were lynched in New Orleans.

SILVER PURCHASED.

WASHINGTON, April 6.—Three hundred and ninety-four thousand ounces of silver was purchased today, at prices ranging from .98.2 to 98.3.

WHAT THEY THINK.

NEW YORK, April 6.—The Commercial Bulletin of Saturday says: A farmer who can get $1000 in gold for his farm had better sell it before he votes for an alliance president, for the only money he will be able to get if Simpson's motions prevail, is a kind of paper on which any farm owner, or owner of a corner lot, can borrow to the extent of half its market value, more or less. As several thousand millions of this paper will be issued about as soon as the debtors can get their mortgages drawn, paper of that variety is not apt to be long-lived.

COUNTERFEITERS.

PEORIA, Ill., April 6.—Edward Peterson, John Wood and Grant Shoup have been arrested on charge of counterfeiting. All their tools and half a bushel of counterfeit nickels were captured.

FIRE WITH LOSS OF LIFE.

The American Hog Will be Admitted in Germany.

ALL QUIET IN COKE DISTRICT.

Counterfeiters Arrested. Strike in New York. P. T. Barnum Dying Canadian News, Foreign News, State News., Etc.

FIRE AND LOSS OF LIFE.

ROCHESTER, Pa., April 6.—A large frame structure occupied by a tea and coffee store, a millinery store, and the upper part used for residence, was burned early this morning. Eleven persons perished.

The residences were occupied by J. Keene and family, Italians. All the bodies have been found but only two can be recognized; they are Mr. Keene and son. An Italian girl escaped by jumping from the window. The fire started in Keene's kitchen from the explosion of a lamp.

FUNERAL OF STRIKERS.

SCOTTDALE, April 5.—Two more men died yesterday from injuries received at Morewood Thursday morning. The report of their death sent a thrill of excitement through the region and gave rise to rumors of bloodshed and violence. The latest reports from all points of the region last night announced gatherings of strikers, but no violence has yet been reported. The Standard band of Mount Pleasant led the procession from the Catholic church in Mount Pleasant to the Pennsylvania railway station, escorting the bodies of the Morewood victims. There were five coaches in the train and all were filled with friends and sympathizers of the dead. They arrived at Scottdale at 3 o'clock yesterday afternoon and were met by the Emerson band, Jefferson assembly K. of L. No. 245, and about 5000 people. Rev. Father Lambing has sent a request to all of the licensed saloon keepers to close their bars at 2 o'clock, and in response to his request every saloon in town was closed when the strikers began to assemble to greet the funeral train. It had been snowing heavily since noon, and for three hours and a half the densely packed crowd stood around the depot patiently waiting for the arrival of the funeral train.

Ninety out of every one hundred were foreigners, and were unable to speak the English language, while at least one-half of them wore emblems of mourning, to denote their sorrow over the death of their fellow workers at the hands of deputy sheriffs. They were very quiet; scarcely a word was spoken, and when they did address each other it was in subdued and awe-stricken voices. Proceeding from the depot, the funeral procession marched down the valley to the Catholic cemetery, where the remains of the dead were buried with the religious ceremonies of the Catholic church. After the funeral the vast crowd assembled on the Emerson flats and listened to addresses by the labor leaders, who counseled peace. It is generally believed, however, that there will be trouble in the region within the next two or three days

THE COKE DISTRICT.

MOUNT PLEASANT, Pa., April 6.—Quiet prevails in the coke region today. There has been no disturbance of any kind. The first effort to start the coke works since the riot was commenced, was made this morning. Four hundred men are at work, the majority of them being old employes. They were not interfered with in any way. Sheriff Clawson came over from Greensburg this morning with warrants for 25 rioters, and Supt. Morris Ramsey has sworn out warrants for the arrest of 15 additonal Italians. These warrants will be placed in the hands of constables and it is expected that before midnight at least 30 of the rioters will be in jail.

OF INTEREST TO RAILWAY TRAINMEN.

GALESBURG, Ills., April 6.—S. E. Wilkinson, grand master of the Brotherhood of Railway Trainmen, has discharged Chas. T. Salisbury, John G. Glen, Charles W. Flanders, John O'Rourke and R. S. Bedman, grand trustees of that organization. The reason for this, Wilkinson said were, usurpation of authority and failure to make proper examination of the books of various officials. Salisbury, of this city, one of the trustees, denies the authority of Wilkinson to discharge them, and says that they still are serving, regardless of the order.

STATE.

SIGLIN RESIGNS.

MARSHFIELD, Or., April 6.—J. M. Siglin, brigadier-general of the Oregon National Guards, has sent his resignation to Governor Pennoyer. He has been in ill health for some time, and finds his military duties encroaching too much upon his time. He has no idea as to who will be his successor as brigadier-general beyond the fact that he will probably be a democrat. His personal choice is Colonel Beebe of Portland as being well qualified for the position.

WORKMEN WIN.

MARSHFIELD, April 6.—The striking car drivers employed by the Oregon Coal Company are victorious, the company reconsidering its determination to cut the wages. Work will be resumed Monday, the drivers returning to work at the old scale of wages.

THE LABISH VICTIMS.

PORTLAND, April 6.—Saturday noon nine damage suits against the Southern Pacific company, growing out of the Lake Labish disaster, were transferred from the circuit court of Marion county to the United States circuit court. They have not yet been set for trial. They are as follows: A. M. Page for damages in the sum of $25,000; Dr. W. Sproar, $10,000; Annie R. Hammell, $35 000; W. G. Hammell, $30,000; John B. Raub, $70,000; Lottie Magnason, $15,000; Minnie Magnason, $8,000; G. E. Miller, $25,175; John Pengilly, $8,000.

GEO. NAGLEY MISSING.

ALBANY, Or. April 5.—George Nagley, until recently engaged in the livery business in this city, has been missing since Thursday, and it is feared he has committed suicide. He has been ill, and said he wished he was dead. The police have instituted a search, but have been unable to find any trace of him. He is aged 40 and has a daughter in Ohio.

FOREIGN.

GERMANS WANT THE PORK.

BERLIN, April 6.—It is announced that Germany has resolved to withdraw the embargo upon American pork. Official notice will probably be delayed some time, in view of certain negotiations going on between Germany and the United States.

O'SHEA VS. PARNELL.

DUBLIN, April 6.—It is hinted that the O'Shea-Parnell divorce case will probably be reopened. Should this be done, further revelations damaging to Parnell will be made.

THE MANITOBA SCHOOL ACT.

QUEBEC, April 6.—Canada may now have on her hands a big religious fight as well as a political one over the Manitoba school act which was recently adopted by the legislatnre there and which prohibits religious instruction in the public schools of Manitoba. The entire Roman Catholic hierarchy has entered upon a war against it.

RECIPROCITY TREATY.

WASHINGTON, April 6.—The conference between Secretary Blaine and the Canadian officials, concerning the reciprocity treaty, has been postponed. The president has signified his desire to be present at the conference, and as his coming trip west would interfere, it was thought best to postpone negotiations until such time as the president could give the matter his attention.

STRIKE IN NEW JERSEY.

TRENTON, N. J., April 6.—Twelve hundred brick makers struck this morning against a decrease in wages.

The World Enriched.

The facilities of the present day for the production of everything that will conduce to the material welfare and comfort of mankind are almost unlimited, and when Syrup of Figs was first produced the world was enriched with the only perfect laxative known, as it is the only remedy which is truly pleasing and refreshing to the taste and prompt and effectual to cleanse the system gently in the Spring-time or, in fact, at any time, and the better it is known the more popular it becomes.

A Michigan Central Railroad Employe Wins His Case, after Seven Years Contest.

While employed as agent of the Michigan Central Railroad Company, at Augusta, Mich., my kidneys became diseased, and from an impoverished and impure state of the blood, my general health was entirely undermined. I consulted the leading physicians of this city and Ann Arbor, and all pronounced my case Bright's disease. In October last, I began taking Hibbard's Rheumatic Syrup, and am to-day a well man. It affords me pleasure to render suffering humanity any good that I can, and I wish to say that it is the greatest blood, kidney and liver medicine in the world.

E. LARZILERE, Agent M. C. R. R. Albion, Mich.

DR. SCHIFFERSTEIN WILL SOAR.

His Air Ship Differs from Others as an Eagle Differs from a Hen.

Dr. L. J. Schifferstein, of Effingham, has invented a flying machine on which he is now experimenting. He says:

"My theory of a flying machine is that of the inclined plane in combination with a propulsive force and a buoyancy chamber just enough to prevent injury to the machine in case of an accident when up in the air. To make the idea plainer, suppose you have the machine high up in the air; the inclined planes are then set so as to allow of a descent at a great angle, just a little short of a direct fall, say at an angle of 22 degs. from the perpendicular.

"Now, when the machine has acquired a great momentum the inclined planes are so altered that the machine will take a more or less horizontal motion or direction, and after a while again changed so as to make the machine take an upward direction. It is also at this stage of the flight that the propelling force is applied and continued till the greatest altitude the machine is expected to reach is obtained, when again the force of gravity is depended on to carry the machine through about two-thirds of its flight through the air to its destination.

"The dominant idea is: First, to use the inclined plane both as a supportive and as a propelling agent; second, use the force of gravity as a prime propelling agent, and third, to only use an artificial propelling agent to carry the machine upward. After that the force of gravity, acting through the acquired momentum and applied according to the theory of the cycloid, will shoot the machine just like a projectile about two feet in a horizontal direction for every foot of fall.

"This action can be compared to what sailors call tacking, only instead of being in a horizontal direction, like a ship at sea, it will be more or less in a perpendicular direction. By this plan about half the propelling force will be saved, and again, when going against the wind, it will require less artificial propelling force to raise the air ship."—Cor. Chicago Tribune.

The Book of Life.

Every man makes the book of his life day by day as he lives, and at his death the pages are turned over by his friends, and by his record each one is judged. Each later line in the poem of life should add something to the opening lines. Each succeeding year should carry one's politics, character, creed and religion a little higher. One of the dangers to this country is the increasing tendency to devote life to pleasure seeking.

Nothing should displace laughter. It adds to life. But there is not a more pitiable spectacle than that of an adult life wasted in pleasure. Some central utility should rise in every adult life. The census takers could not tell how many people in this country are devoting themselves almost wholly to pleasure.

The rapid accumulation of wealth may have lured a million, perhaps two millions, of people from their usefulness. Next in evil to the devotion to pleasure is the struggle for notoriety. The book of life should be shown only to its writer. Certain parts of life are inexpressible, and every soul has a world of its own in which there can be no reporter's footprint. — Professor Swing

Message Bearing Swallows.

John Desbouvrie, who resides at Roubaix in France, has exhibited there fifteen swallows that he has trained after the manner of carrier pigeons. The swallows were set free, each one marked with a colored ribbon, and they dispersed in all directions. In fifteen minutes later the first one returned, and perched on one of Desbouvrie's fingers; one after another the others came back in quick succession. Desbouvrie is of the opinion that swallows are far superior to pigeons for the carrier service in time of war. Their flight is higher and swifter, and they are more reliable, smarter and more easily fed.

They need not rest when flying long distances in order to partake of food, because they can do so on the wing. They are also trained with greater facility than pigeons. Desbouvrie has also succeeded in retaining a number of swallows during the winter in perfect liberty, and their migratory inclinations did not carry them southward, so that even this obstacle would not interfere with the systematic training of swallows for the carrier service. —Toronto Globe.

Drawing an Inference.

"You have been so long about the minister's hand, John, that I dare say you could preach a sermon yourself now," said a gentleman one day to a beadle of his acquaintance.

"Oh, na, sir," replied John; "I couldna preach a sermon." Then, after a brief pause he remarked, "But perhaps I could draw an inference, though."

"Well, John," said the gentleman, humoring the quiet vanity of the beadle, "what inference could you draw from this text: 'A wild ass * * * snuffeth up the wind at her pleasure?' " (Jere. ii, 24.)

"Weel," replied John, "the only natural like inference that I could draw frae it is just this—that she wad snuff a lang time afore she would fatten on it."—Gentleman's Magazine.

Something in a Name.

"Why do you always refer to your black valet as your 'retainer?' "

"Because he always keeps everything he finds."—St. Joseph News.
