CHARLOTTE, N. C., April 16.—The trouble between the whites and negro population in this city, which originated over the murder of Maccia, an Italian, presumably by Henry Brandham, colored, and which led to an attempt to lynch the prisoner Monday night, is becoming ominous. The hardware stores were raided by citizens in search of firearms, and young men, boys and all have guns. Never before in the history of the city has such excitement existed as during the past twenty-four hours. The ladies are badly frightened. Five people at least have been killed already in this case and when the mystery of George Rose's disappearance is cleared up, there will probably become more judicial killing."
