MURDER AND SUICIDE Souix Falls, S. D., April 20 .-When Frank R. Hide, a prominent leader of the independent party, returned to his home Saturday evening he found his young wife lying on the floor of a front room, stupefied and breathing heavily. In the cradle his 5-months-old baby was lying, and on the bed lay his 2-yearold daughter, dead. After a cursory search the francie husband and father found a note written by his wife declaring that she felt that insanity, which was hereditary in the family, was creeping upon her; that her children were destined to the same fate, and rather than live to burden her husband with such an iffliction, she had decided to kill herself and children. An empty bottle which had contained morphine lay near by. Mrs. Hyde had always been of a happy disposition, and nothing had ever been said or done to give the husband warning that such a terrible calamity was impending. The family occupied a high social position and the city is profoundly shocked. When Mr. 900 dome on the state house. Two children are left in Germany to mourn the death of the woman. She has a husband there, too, but it is not likely he will shed tears over her taking off, because she and yielding to the persistent pleading of the woman, came with her to this country, where they lived as man and wife.
