INVESTIGATING PAVING.—Aldermen Gray, Brown and Lafore and street commissioner went down Portland this morning to make a thorough investigation of the different kinds of pavings and macadamized roads in Portland and East Portland. This committee, sent to investigate for that purpose, will make a thorough examination and report the results to the council at the next regular meeting.

SCHOOL BUILDING QUESTION.—A meeting of the taxpayers met with the school directors Wednesday afternoon in the office of the school clerk to discuss the question of the school buildings and the issue of the school therefor. It was decided to build and build two new buildings in the south and eastern parts of the city at a cost of \$22,000. It was also decided to sell \$14,000 worth of school bonds to N. W. Harris of New York, at 3 per cent interest. This was the bid offered by H. H. Albert a few weeks ago. Albert was not bidding for himself but for the above firm. The school board has not decided where they will erect the South Salem building. They are looking up the site to the property now owned by the school to see if it can be transferred to other parties. They are also looking into the titles of other property which they contemplate purchasing. The other new building will be located on block one in the north.

WHEAT MARKET.—The price paid for wheat in Salem is still on the rise. The flouring mills are now paying 80 cents per bushel in wagons and 77 in the warehouse. This is encouraging to farmers. Buyers in Polk county are offering to contract for the new crop at 75 cents. Eighty cents a bushel for wheat is the highest it has been quoted in Salem for several years. The indications are that the new crop will enter on the market at about 15 cents a bushel higher than it did last year. The embarrassment to farmers at this time is they have no wheat to sell. They sold last fall at 65 cents.

RESIGNS THE JUDGESHIP.—Judge J. H. Bird, of the Seventh Judicial district, has sent his resignation to the governor, asking that it receive attention at once. Judge Bird resigns on account of poor health. His request will probably be granted and his successor appointed in a few days.

A DIRE SWINDLE.

A Fake of the Deepest Hue Endeavoring to Delude Innocent Persons—The Scheme Exposed.

A circular has been received by a few persons in Oregon from a man in New York, who signs himself Robert Lester, which leaves the impression of crime on the very face of it. Nearly a column of closely printed matter, which is represented to be clipped from a New York paper is sent along with the letter. The printed matter represents the impossibility of the United States government to detect the counterfeit from the genuine greenbacks. It also gives an account of a case at court, where men could not be convicted. This clipping is nothing more than an electrolyzed plate matter, made for this swindling business. This man urges the greatest secrecy and asks that no letters be sent to him. Given below is part of his letter, which any one can see is endeavoring to lead some one into crime:

Dear Sir:—I am in possession of a good thing, and with your confidential and friendly co-operation I can make you independently rich, and at the same time, better my own condition.

I know it is quite a journey for you to make, but ye Gods just think of the "gold mine" in store for you—in the way of profits. Furthermore, I always make a liberal allowance in goods to cover the expenses. Make up your mind to come on—I know you will always be thankful for your visit to me. You will find me a square and honorable white man in every particular. When you arrive here, I will show you my entire stock, from which you can make your own selections. Then, if my goods are not all that I claim for them, and are not as fine as the enclosure speaks of, I will make you a present of one thousand dollars in gold, and also cheerfully pay all expenditures incurred upon your journey. Fair enough, isn't it? My prices are as follows: \$300 gets three thousand; \$400 gets five thousand; \$500 gets ten thousand; \$1000 gets thirty thousand. The more you invest the cheaper you get the goods. The sizes run from "One" to "Twenty." \$300 worth of my smallest goods is positively the very smallest amount I will sell under any circumstances. If you will invest \$500 or more I will agree to give you the exclusive state right. Now, should you wish to do business with me, you must obey the following instructions, and do only as I tell you.

Don't as long as you live, ever write a letter to me until I give you permission. If you do it will be refused. See? I mean exactly what I say, and furthermore, all business relations between us will end.

SUPERFLUOUS DISPLAY.—Some newspapers, like some individuals, indulge in uncalculated display. The dude is not a true example of a gentleman, nor is the big display of head lines a true indication of journalism, or of the true merits of the article to follow, though it should be. For example, the Evening Telegram of a recent date had a "nine times" heading, occupying a quarter of a column, over a short article giving an account of a servant girl being severely, though not fatally, burned. In the same issue of that paper an account of a team running away in which no one was hurt was prefaced with six headings. The Astoria Bulletin is another paper which indulges in such distasteful display of headline. That kind of newspaper work comes nearer being ridiculous than journalistic. The headlines of an article should bear an impress of what is to follow, but all should not be given in the heading.

RIVER RISING.—The Willamette river at this city registers seven feet above low water mark and is slowly rising. The rains are melting the snow in the mountains, which will assure a rise of several feet more. This will give a supply of water sufficient to keep the river at an excellent boating stage for two or three months. A few days ago a man who came out from the Dry Gulch region reported eight feet of snow on Stampede mountain and two feet at the mines. That amount of snow will feed the river for a month. Indications are favorable for a good stage of water until late in the season. The O. P. company have promised to make an effort to run two of their boats between Salem and Portland all summer. This they will probably do with the proper support from Salem.

WHEAT MARKET.—The price paid for wheat in Salem is still on the rise. The flouring mills are now paying 80 cents per bushel in wagons and 77 in the warehouse. This is encouraging to farmers. Buyers in Polk county are offering to contract for the new crop at 75 cents. Eighty cents a bushel for wheat is the highest it has been quoted in Salem for several years. REACHING A CLOSE.—The damage suit is at last reaching a close.

All the witnesses for the railroad company have been examined and at the time of going to press the testimony was being examined. The case will then be given to the attorneys for their arguments. This will require four hours. The following gave testimony today for the company: W. A. Grandahl, Mr. Habersham, R. Swartz, S. A. Starr, A. J. Robertson, Dr. H. W. Coe, Dr. Bevis, J. E. McCoy, S. F. Craig, A. F. McAtee, Mr. West, F. J. Caterlin, D. S. V. Reid, J. H. Albert, J. W. Montee, Engineer Chesse, of Portland. The rebutting witnesses numbered about ten or twelve.

COMMENDABLE SUGGESTION.—It has been suggested that instead of having all the school children go out in a parade when the president comes to Salem, to have all the school children in the city assemble at the East Salem school and have the president go there and give a short address. By having the children assemble in front of the building and the president stand on the front steps, all can see him; but if they join in the parade and go to the state house not one-third of them will see him, and a less number will hear him speak. The suggestion seems a very commendable one, and the committee will doubtless give it due attention.

BATTALION DRILL.—It is now talked of having a battalion drill in Salem on the occasion of the president coming to this city. There are five companies in the county and a large number of the Grand Army of the Republic. All these it is said would take part in such a display of military science. Three hundred men in uniforms headed by the Second Regiment band could make a grand display. The people will nearly all be here. Why not have them come in military style. Some of the committee on arrangements are strongly in favor of such exercises. The indications are now for the occasion to be a grand day for Salem.

LOCAL BRIEFS. Chinook salmon are scarcer in the Salem market this year than they were during a fishing sea on for several years. In fact heretofore salmon were plentiful and cheap during the open fishing season, but the reverse is true this year. They are both scarce and high.

The young people of the First Baptist church will give a sociable and candy-pull at the W. C. T. U. rooms Friday evening, April 24. Members of the church and congregation are invited to be present.

Alonso Gesner and party will leave this city for Yaquina in about a week to spend two or three months in surveying government land. The party will be made up before leaving Salem.

PERSONAL MENTION. Willie Hepburn, who has been sick for several weeks, is able to be out again.

Dr. Henry W. Coe, of Portland, is in the capital city.

Geo. H. Berger, of the Oregonian staff, is in the city as a witness in the damage suit.

Dr. N. Doane and Rev. C. E. Cline returned from Corvallis this afternoon, where they have been attending the ministerial association of the M. E. church.

A RARITY FOR THE LADIES.

An Exhibition of Art Work by the Singer Manufacturing Company.

A JOURNAL scribe was this morning attracted into the Singer Sewing Machine office, in the insurance block, by a wonderful display of art work now there on exhibition by the company with Mrs. Sommer of New York in charge. The work is all done on the improved singer without any attachments whatever and much of it is being done every day in the presence of visitors. First to attract the visitors eye is the wonderful Kensington work. The best pieces of this are in appearance equal to any oil painting. It is done with the finest sewing silk as well as the heaviest of rope silk, on any kind of material. Among the pieces displayed are a cow's head, which took the gold medal at the Paris exposition, a basket of grapes which show the foliage and bloom of the fruit as natural as can be produced by an artist's brush; the "three dogs at the master's grave" is also a wonderful production. One great beauty of the work is that both sides are exactly alike where silk is used in the shuttle.

The rope silk work is done from the under side, thus enabling the operator to work from a stamped back. This work is used on the heavier materials such as plushes and velvet, for curtains, pillows, cushions, portiers, etc., including fringes. Nothing is finished by hand, but everything is completed with the plain machine, and when done looks much smoother and better finished than hand work; besides, the machine will work ten times as fast as the best hand expert. A beautiful plush portier is exhibited, done with a couching stitch and rope silk, also one in a beautiful magnolia pattern. A very practical piece of work is a handsome smoking lamp shade, which was made entirely, including fringe, with the machine. A beautiful fluff dress is exhibited, made of the finest lawn, and sewed with No. 40 thread, showing smoking and feather stitch. Roman embroidery with buttonhole stitch and edges cut before finishing is neatly executed; also arnasee work, and some exquisite embroidery with wash silks on handkerchiefs and table linen of all kinds. This being alike on both sides makes it doubly practical. The Kensington work on bolting cloth with sewing silk finer than can be used by hand is a wonderful thing to behold and can be used to the best advantage for drapes and similar work.

Ladies should remember that all owners of Singer machines can now be instructed to do this work to perfection free of charge and also that on next Saturday at 3 o'clock p. m. a handsome drape will be given away. All ladies calling before two o'clock will be entitled to a ticket free, and should remember not to fail to see this wonderful exhibit before that time when it will be shipped to Albany.

DON'T Buy a lot in YEW PARK Unless you want to build on it. YEW PARK IS IN THE CITY.

The city water mains are laid through it. It is so near the Depot, University, Postoffice and business portion of the city that it is not necessary to ride, although the street cars run through it and leave every twenty minutes for Commercial street, North and East Salem. YOU CAN'T SPECULATE IN YEW PARK PROPERTY—the proprietors will attend to that; but you can buy a better home site there than in any other portion of the city for the same money. You will have no dust in Summer and no mud in winter. Its perfect drainage insures its healthfulness. The lots are large and many of them beautifully shaded with yew, fir, ash and oak. If you want to buy blocks of lots on speculation, and let them lie unimproved and let adjoining property make them valuable, don't patronize Yew Park.

It is not Built That Way If you want to speculate on options or blocks of eight or ten lots, go out in the country, NORTH, SOUTH, EAST or WEST, or to the suburbs of Portland, Astoria or on the Sound, and invest in a paper town, or what is better, buy ticket in the Louisiana lottery, but keep away from Yew Park.

LOUISIANA LOTTERY. Lots sold at low prices on long time and easy terms to home seekers.
