

ordered out, and a number of de-
termined men, supplied with rifles,
marched to the house where the
sufferers were and surrounded it.
The Mexicans were still obdurate.
The command to load was given,
and a moment later they would
have been fired upon had they not
dispersed. The excitement was
intense.

DESERVES HANGING.

ATLANTA, May 6.—A special ses-
sion of the grand jury was called to-
day, and the result was the indict-
ment of Dr. Mel Martin for the ruin
of a 13-year-old child. Dr. Martin
is the city physician and an influen-
tial local politician. Little Katie Bro-
gan was a playmate of the doctor's
children. Her mother had cause to
enquire into her condition, when
she confessed and made disclosures
which led to Dr. Martin's prompt
arrest. The doctor denies the story,
but the prompt action of the grand
jury certainly saved him from the
shotgun of the girl's brother.

THE BEHRING SEA.

WASHINGTON, May 7.—The Post
to-day says that communications are
again passing between the United
States and the British govern-
ment in relation to the Behring sea
controversy, and that, in conse-
quence, the dispatch of revenue cut-
ters and treasury agents to Behring
sea there has been delayed, in antic-
ipation of an order declaring a closed
season in the seal fisheries.

CAR-WHEEL WORKS BURNED.

SYDNEY, O., May 7.—At 1 o'clock
yesterday the shops of the Ameri-
can Wheel Company were burned
Loss on stock, \$100,000. The com-
pany carried \$60,000 insurance, part
of which has lapsed. Two hundred
are thrown out of employment.

GREAT LUMBER SYNDICATE.

DUBUQUE, Ia., May 7.—All the
property of the great lumber cor-
poration, the Knapp-Stout com-
pany, including yards at St. Louis
and Dubuque, mills at Menominee,
Wis., several hundred thousand
acres of timber land in Wisconsin,
and a flat of raft-boats, will be short-
ly transferred to an Eastern syndi-
cate. F. B. Flanders, of this city,
late agent for Bradstreet's com-
mercial agency, several months ago
secured an option on the property
for between \$7,000,000 and \$8,000,000.
W. N. Balch, of New York, a pro-
fessional English and American
promoter, has charge of the Eastern
end of the deal. He has succeeded
in floating most of the bonds, and
the transaction will be shortly con-
summated.

LEPROSY IN NEW YORK.

NEW YORK, May 7.—Mr. Alonzo
Blauvelt believes he has discovered
an alarming case of leprosy in a big
tenement-house in Oliver street.
He reported the case to the board
of health on Tuesday, and Dr. Edson,
chief of the Bureau of Contagious
Disease, at once took the matter in
hand, and started on a tour of in-
vestigation. Dr. Edson refused to
reveal the place where the supposed
leper was found, and says he will
not make all the facts in the case
public until he has completed his
investigation. It is ascertained,
however, the patient is a Greek ped-
dler, who came to this country from
Mexico only six weeks ago.

RECEIVER ASKED FOR.

ST. PAUL, Minn., May 7.—Russell
Sage, of New York, has asked that
a receiver be appointed for St. Paul,
Stillwater & Taylor's Falls railroad.
A month ago he secured a judgment
against the company for \$211,000,
but United States Marshal Dun-
shower returned the judgment un-
satisfied. Judge Kelly issued a tem-
porary injunction restraining the
company from removing its effects
from the state, and will next week
hear the request for a receiver.

REMAINS OF J. F. SWIFT.

SAN FRANCISCO Cal., May 7.—The
steamship Belgio arrived this morn-
ing from China and Japan, bringing
the remains of late United States
Minister, John F. Swift. The cas-
ket containing the remains was
placed on a Calson drawn by six
horses draped in black and conveyed
to Mortuary chapel of Trinity
church, where they will lie in
state until Sunday, the day of the
funeral.

WANTS RECIPROCIITY.

CHICAGO Ills., May 7.—A Wash-
ington special says: Peru wants re-
ciprocitiy with the United States.
Peru is the only South American
country, besides Brazil, which pro-
duces sugar in large quantities so it
is important to Peru that it insure
a lasting free market with the
United States.

ON HIS WAY EAST.

THE DALLES, Or., May 7.—This
morning was cloudy with light
showers of rain at intervals, but the
skies cleared up about 10:30 o'clock,
and the remainder of the trip
through the picturesque valley of
the Columbia was made in bright
sunlight, which disclosed the moun-
tains and Cascades through which
the road passes in all their beauty
and grandeur. One of the pleasant-
est incidents of the run from Port-
land was a visit to Multnomah Falls.
The entire party, including the
president and ladies, left the train
for closer inspection and spent sev-
eral minutes viewing the scene and
gathering flowers and wild ferns as
mementoes. Short stops were also
made at Bonneville, Cascades, and
Hood River stations. There was a
general handshaking at each station,
and much enthusiasm was mani-
fested. The president and postmas-
ter general made brief speeches at
Hood River station. The first stop
of any importance was at The
Dalles, where the president received
an enthusiastic welcome. The presi-
dent was welcomed by the mayor
of the city, and made an address
from the rear platform; in the course
of his remarks the president said, I
quite sympathize with the sugges-
tion of your mayor, that it is one
of the proper government functions to
improve and open to safe navigation
the great water ways of our country.
(Cheers.) The government of the
United States has reserved to itself
the exclusive control of all navigable
inland waters, and that being so,
it is of course incumbent upon the
government to see that people have
the best possible use of them. They
are important, as they furnish
cheap transportation and touch
points that are often either for econ-
omy or natural reasons inaccessible
to railway traffic.

GOT SOME SALMON.

CELLELO, May 7.—While here the
president visited the cannery estab-
lishment of I. H. Taffe, and was
presented with a large box of salmon
caught this morning.

THE PRESIDENT.

CASCADE LOCKS, Oregon May 7.—
The presidential party passed
through here at 9:35 o'clock this
morning.

PRAISEWORTHY.

BOSTON, May 7.—All the Italians
of Boston are invited to attend a
mass meeting at Faneuil Hall to-
morrow night, which is announced
for the purpose of forming a society
for the elevation of the poorer and
ignorant Italians whom it is proposed
to teach respect for, and obedience
to the laws of this country.

TO KNOW HOW THEY STAND.

WASHINGTON, D. C., May 7.—The
comptroller of the currency has is-
sued a call for a report of the condi-
tion of National banks at the close
of business on Monday, May 4.

SHOT THROUGH THE NECK.

HANFORD, Cal., May 7.—Frank
Sharples, a contractor and builder
here, was shot through the neck
this morning by George Furner,
who has been a sub-contractor of the
plastering and cement. There has
been bad feeling between the men
for several weeks, arising out of
unsettled business. The wound is
not considered fatal.

THE ETATA.

WASHINGTON, May 7.—The treas-
ury department officials keep fully
informed of the movements of the
Chilian vessel Etata which escaped
from San Diego, Cal., yesterday,
after being seized by marshal. They
refuse however to make public any
dispatches about the affair.

SALMON TO AUSTRALIA.

SAN FRANCISCO, May 7.—Austra-
lians are now eating fresh California
salmon on ice. In the season be-
tween February and July they have
no home supply of fresh salmon.
Over a ton was shipped last Feb-
ruary and found ready market. The
Monowal took an equal amount
last week. If the last shipment is
satisfactory others will follow.
The experiment is a novel one and
may result in establishing a steady
business every summer. The Aus-
tralian trade can easily consume
from ten to twenty tons of our
salmon.

FOREIGN.

WILL NOT TREAT.

VALPARAISO, May 7.—President
Balmaceda has rejected the demands
of the delegates from the Congress
of Insurgent party, who have been
trying to come to an understanding
with the president, by which the
Civil war might be brought to a ter-
mination.

NEWFOUNDLAND.

LONDON, May 7.—The Newfound-
land delegates purpose to petition
the house of commons as soon as
the bill for coercion of the colony
reaches the house. They have pre-
pared a synopsis of the colony's
case for wide distribution through-
out the country. They claim that
the troubles in connection with the
bait question are much exaggerated,
and that the steps taken by the col-
ony to prevent the disturbance are
quite adequate.

HALIFAX, N. S., May 7.—It is re-

ported here that Admiral Wilson
has received instructions from Eng-
land to hold himself in readiness to
proceed to Newfoundland if neces-
sary. Advice was received here
by the military authorities that a
powerful thirty-two ton gun is now
being completed for the new fort at
McNab's Island.

RUSSIA PREPARING FOR WAR.

LONDON, May 6.—Russia is going
busily forward with naval prepara-
tions, and several new iron clads
built in the imperial dockyards at
Vicealief and Sebastopol, are to be
launched on the occasion of the visit
of the czar and czarina to the Crimea.

RUDINI'S SYMPATHY.

LONDON, May 7.—A Rome dis-
patch says that Premier Rudini ha-
jined the Parliamentary Associa-
tion for the Promotion of Interna-
tional Arbitration and Peace, and
that invitations are to be issued to
various countries, including America
for an inter-parliamentary confer-
ence on the subject, to be held in
Rome in November. Signor Bonghi,
president of the association, said
that Signor Rudini has never had
any but peaceful intentions toward
the United States, and that he en-
tertains the deepest sympathy for
America. Signor Maffi has been
appointed secretary of the associa-
tion.

REMARKABLE RESCUE.

Mrs. Michael Curtain, Plainfield,
Ill., makes the statement that she
caught cold, which settled on her
lungs; she was treated for a month
by her family physician, but grew
worse. He told her she was a hope-
less victim of consumption and that
no medicine could cure her. Her
husband suggested Dr. King's New
Discovery for Consumption; she
bought a bottle and to her delight
found herself benefited from first
dose. She continued its use and af-
ter taking ten bottles, found herself
sound and well, now does her own
house-work and is as well as ever she
was.—Free trial bottle of this Great
Discovery at Fry's Drug Store, large
bottles 50c. and \$1.00.

RUSSIAN PAPER IS INDIGNANT.

MOSCOW, May 6.—The Gazette is
indignant at the English and Ameri-
can press in ignoring Russia's con-
nection with the Behring sea mat-
ter, and declares any agreement
made without Russia's consent will
be worthless. The Gazette speaks
with respectful sympathy of Ameri-
can claims, and says it is time
England was taught that the pos-
session of a powerful fleet does not
entitle her to treat every bit of open
sea as her peculiar property. The
Gazette proposes that America and
Russia settle the question without
reference to England.

BISMARCK WILL BE SUPPORTED.

LONDON, May 7.—A Berlin dis-
patch says that Herr Arendt, a free
conservative member of the reich-
stag, has stated that Bismarck will
have a powerful party behind him
in that body, and that he can hard-
ly fail to obtain profound attention
for his utterances. Herr Arendt se-
verely condemned the policy of
Chancellor Caprivi, and said that

ment's May day methods, and has

sufferers, and demanded a pension
