

gully of violating the rules. When asked if Leeds had been found guilty, Cable replied no, because he admitted his guilt. This meant Leeds would go.

The board took a recess at 1 o'clock for lunch. After recess Chairman Hughtiss said the board had considered the Leeds matter and their finding was that the Missouri Pacific railway through the actions of its freight traffic manager had violated the agreement substantially as presented by the commissioners. In the afternoon it was learned that Traffic Manager Leeds, of the Missouri Pacific, was discharged, and that he leaves for the West. Gould, when asked about the matter, would say nothing more than that he had discharged Leeds. It is rumored Leeds has been offered the position of traffic manager of the Union Pacific, but of this Leeds would say nothing.

EXPLOSION OF A MINE.
CLARKSBURG, W. Va., May 8.—An explosion occurred yesterday morning in the Ocean mine, seven miles from this city. Four miners were killed and several others badly injured. The fire which followed the explosion is still burning.

FROM COKE REGIONS.
SCOTSDALE, Pa., May 8.—At a meeting of the executive board held last night it was decided to continue the fight six weeks longer.

THE LONG ISLAND CITY FIRE.
LONG ISLAND CITY, N. Y., May 8.—Water is being thrown on the fire which started last night. The loss will aggregate \$500,000, the heaviest loser being the Export Lumber Company, the loss sustained by them being \$250,000. Burroughs & Co's lumber-yards came next, with a loss of \$200,000. Nothing definite is known as to the insurance.

CHICAGO'S DEATH RATE.
CHICAGO, May 8.—The records for the health department for April show 3050 deaths, an increase of forty-five over March, and more than double the number in April, 1890. Influenza and kindred complaints were largely responsible.

FROM DETECTIVE O'MALLEY.
NEW ORLEANS, May 8.—Papers here publish a statement by Detective O'Malley, giving an account of his career since landing in this city in 1878. It contains nothing new and is devoted to a justification of himself. He says in closing: "As to my theory of the murder, I have one; but in the absence of direct evidence, I should not like to say what it is. It is certainly not any Mafia or Dago business. I am not afraid of the investigation and only ask for a square trial."

BAKER ACQUITTED.
PHILADELPHIA, May 8.—George C. Baker, formerly clerk in Appraiser's stores here, was acquitted in the United States district court of the charge of altering the records of the Polariscope tests of sugar, consigned to Claus Spreckles, by which it was claimed the government has lost thousands of dollars.

EXPECT HIGH WATER.
SANTA FE, N. M., May 8.—Parties who have returned from the Sierra Armillas, say the flood must soon sweep down the Rio Grande. At Ambassador Hill, Colorado, snow stands up beside the Denver and Rio Grande section, six feet and there it extends for miles, covering the whole range as far as Belted Gorge, and ranging in depth from four to twenty-five feet. All streams are running their banks over. Thus far the weather has continued cool in that region. At Valherd, above San Marcial, much land is under water and there is also trouble in Lajara bottoms.

PROF. HILGARD DEAD.
WASHINGTON, May 8.—Prof. Julius E. Hilgard, late superintendent United States coast survey, died at his home here this morning.

SCHOONER WRECKED.
SAN FRANCISCO, Cal., May 8.—A dispatch to Merchants' exchange from Port Angeles, says the schooner Premier was wrecked off the coast of Alaska April 6th. The crew were saved.

MARKETS.
WHEAT.
CHICAGO, May 8.—At close, Wheat firm, cash \$1.01 @ 1.02, July 98 @ 1.
SAN FRANCISCO, May 8.—Wheat buyer, '01, \$1.74; season, \$1.75.

WEATHER REPORT.
SAN FRANCISCO, May 8.—Forecast of Oregon and Washington, light rains except in Southern Oregon.

FOREST FIRES IN WISCONSIN

The Cities of Ashland and Washburn in Danger.

THE PRESIDENT SPEEDING EAST.

Latest About the Etata, News From Australia and Japan, Foreign News, New Rail Road, State News, Etc.

FOREST FIRES.
ASHLAND, Wis., May 8.—The city is enveloped in dense smoke, from surrounding forest fires. The fire department has been busy all day in the outskirts of the city, fighting the flames. At Washburn a large force of men are at work trying to save the town, which is in great danger. Several lives are reported lost at Marengo. The woods along the Omaha road is a mass of flames. The Northwestern railroad has lost several hundred cords of wood at Ashland, and the Ashland Steel and Iron company has lost over fifty thousand cords at High Bridge.

THE PRESIDENT.
BOISE CITY, May 8.—The presidential party entered the state about two o'clock this morning and arrived here at seven. The visitors were received at the depot by Governor Willey, Mayor Pinney and the general committee, and escorted through the city to a stand opposite the capitol, where the formal reception was held.

THE ETATA.
SAN FRANCISCO, May 8.—The Alta California has positive information that the United States steamship Charleston will sail for San Diego to day in pursuit of the Chilean ship Etata. Secretary Tracy telegraphed special orders yesterday and the Charleston left Mare Island.

SAN DIEGO, May 8.—It is claimed that when the Etata left the harbor, and when about ten miles out, she was overtaken by another steamer from off the Coronado islands, who fired two guns and passed out of sight, in company with the Etata. From what was seen it does not look as if they were kindly disposed. Another statement is made that the Corvete passed San Diego going north at 9 o'clock Wednesday, flying the Chilean flag.

Two deserters from the Chilean steamer Etata were seen yesterday, and in an interview stated that being tired of staying on board they got away, intending to try their luck on the North American continent. They state positively that the big warship Esmeralda accompanied the Etata as far north as Cape St. Lucas, and is now awaiting the return of the latter vessel between here and that point in order to get provisions and coal. The United States man-of-war Omaha arrived in port at noon yesterday from Mazatlan. It is supposed she has been ordered here on account of the recent trouble. She will take coal and leave for the North in a few days.

SPENCER'S STATEMENT.
SAN DIEGO, May 7.—Deputy Marshal Spencer, made a statement yesterday. He says the first intimation he had of the vessel's preparations to leave was a hasty movement on the part of the crew, and when the captain invited him to his cabin from the dining room he was surprised to find the steamer under full headway. Then he made the following statement: "Going into the captain's cabin I was joined by three passengers. They exhibited revolvers and asked me if I was armed, Captain Manzeum acting as spokesman, who then said: 'I have contraband goods on board and it is life or death with me.' He then pointed his finger to his throat and said: 'See this is what it means.' I was so dumbfounded that I could not answer. He then called two of the Chilean crew and they stood guard near the door, each armed with a revolver and a rifle. He then told me not to be alarmed but that if I went out of the cabin during his absence he would not be responsible for what would happen, telling me also that if I attempted to give a sign or to jump overboard he would not be responsible for the result."

"About this time I noticed them lifting out of the hold four small steel cannons, which they immediately placed in position on the upper deck, all of which guns they loaded in my presence. The captain then stated that he intended putting me off at Ballast point. He then led me out of the cabin, followed by his companions, each taking their revolvers. On reaching

the bridge I found on the deck below one hundred Chileans, all armed to the teeth, each having a repeating rifle and a revolver. The captain laughed and said: 'See, we have changed to a man of war.' I looked at the pilot and said: 'Are you going to pilot the ship out?' The captain spoke up and said, 'no', exhibiting a revolver. 'This is going to guide it.' The Etata then passed out of the bay, heading north until they arrived at the spot where they put me off."

LATEST ABOUT THE ETATA.
WASHINGTON, May 8.—The policy of the government with respect to the escape of the Chilean vessel, Etata, is still an official secret. Secretary Tracy and other officials this morning refused to discuss the matter. There can be no doubt of the fact that the government is exceedingly anxious to exhibit all possible zeal in the effort to recapture the vessel, in order to avoid any unpleasant consequences that might arise through presentation of claims for damages on behalf of the Chilean government. It is not possible to get an authoritative answer to the question whether the Charleston will be sent after it.

SEEKING AN OUTLET.
SALT LAKE, May 8.—Articles of incorporation of the Salt Lake, Halley & Puget Sound railroad have been filed. The capital stock is \$3,750,000. The line is to be along the south shore of Salt Lake, via Grantsville, Skull valley and Cedar mountain, to Lucen, on the Central Pacific, and thence to the Idaho state line.

THE CRIMINAL.
ANOTHER JACK.
SAN FRANCISCO, May 8.—According to advices received yesterday Japan has produced a "Jack the Ripper." The man is named Tomita Kanjiro. He killed and mutilated his mistress in the same manner as the "Ripper" killed his victims. Five policemen found Tomita beside his disemboweled victim, but before they could master him he killed one of them with the knife he had carved his mistress with, and wounded the other four severely.

MURDER FIRST DEGREE.
SAN FRANCISCO, May 8.—The jury in the case of Sidney Bell, the footpad, returned a verdict of murder in the first degree last night. Bell was charged with having murdered Samuel M. Jacobson the night of November 23, 1891, just as he got off the car and was about to enter his parent's residence.

BURGLES AT WORK.
MILWAUKEE, May 8.—Burglars are following in the wake of a circus in the interior of the state, and many robberies are reported. The most serious occurred at Marinette, Wis., when the safe of the Marinette Iron Works was blown up and \$7000, mostly belonging to employers, was taken.

Tired all the time.
Say many poor and men women, who seem to be worked, or are debilitated by change of season, climate or life. If you could read the hundreds of letters praising Hood's Sarsaparilla which come from people whom it restored to health, you would be convinced of its merits. As this is impossible, why not try Hood's Sarsaparilla for yourself and thus realize its benefit. It will tone and build up your system, give you a good appetite, overcome that tired feeling and make you feel, as one woman expressed it, "like a new creature."

FINANCIAL.
NATIONAL BANK CLOSURES.
PHILADELPHIA, May 8.—Spring Garden National bank closed its doors at 11 o'clock this morning. Among stock holders and depositors a strong feeling prevails that the closing of the bank will prove but temporary, and that they will recover their money.

THE SILVER PURCHASED.
WASHINGTON, May 8.—Four hundred and fourteen thousand ounces of silver was purchased to day at prices ranging from \$98 15 to \$98 40.

STATE.

A CLOSE CALL.

PORTLAND, May 8.—A frightful accident happened yesterday forenoon, near Piedmont, by which Alfred Bennett came near losing his life.

Bennett and his brother were at work clearing and chopping wood. The two were both working with axes close together. In some way Alfred made a misstep and fell forward, his head coming directly under the uplifted axe in the hands of his brother. Down came the keen blade, striking Alfred's head a glancing blow on the side, causing a fearful gash from which the blood poured forth in torrents. As soon as the young man who had struck the blow could recover from his horror, he called for assistance and removed the wounded man to the nearest house. Dr. Boyd, of Albina, was summoned and quickly responded. He found the young man had received a fearful wound. He dressed the injury, and thinks the man stands a fair chance of recovering.

By a mere chance the blow was a glancing one. Had the axe come down squarely on the young man's head, his skull would have been split open.

CRIMINAL.

ANOTHER JACK.

SAN FRANCISCO, May 8.—According to advices received yesterday Japan has produced a "Jack the Ripper." The man is named Tomita Kanjiro. He killed and mutilated his mistress in the same manner as the "Ripper" killed his victims. Five policemen found Tomita beside his disemboweled victim, but before they could master him he killed one of them with the knife he had carved his mistress with, and wounded the other four severely.

MURDER FIRST DEGREE.

FARM AND HOME NOTES.

There is health, wealth and moral culture in small fruits. Electric wands are now used in bean tanning.

The meeting of Maud S. with Ansel will unite the blood of the two renowned broodmares, Miss Russell and Green Mountain Maid.

Robert McGregor, 217, has the fastest record of any stallion in the stud in the state of New York. Village Farm held this mark of honor until the death of Prince Regent, 2-16.

When heating your pansy bed, choose a place that is shaded part of the day, as they cannot stand the hot mid-summer sun. A row of morning glory vines trained on common bean poles, on the south-west side of the bed, will furnish sufficient shade.

Mr. Ralph Geer, of Howell Prairie, has been a fruit grower in Oregon for nearly forty years. He says hogs and poultry are very valuable in keeping orchards clear of pests. He says it is no use trying to do without them.

Senator Stanford ought to be satisfied with his success last year. Sunol trotted the fastest mile of the year, 2:10, Racine ran the fastest mile in the race, 1:39, and Palo Alto trotted the fastest mile in a race, 2:13. This trio was foaled at a little stock farm Palo Alto.

A beautiful Buffalo girl was not feeling well, and her parents suggested that she might be about to have chicken pox, then prevalent. She went to bed laughing at the idea, but early next morning went into her parents' room, looking very serious, and said: "Yes, it is chicken pox, papa. I found a felder in the bed."

The story of Hutchinson, familiarly known as "Old Hutch" the great Chicago grain gambler, may be briefly told, says the Cincinnati Commercial Gazette. He was shrewd and lucky, and made money rapidly. At one time he was worth several millions of dollars. But he did not know when he had enough. Like most gamblers, success did not satisfy him. He kept on in the hope of grasping more until he came to destruction.

Sheep are excellent scavengers, and will eat more varieties of vegetables than any other animal on the farm. In the apple orchard they are lively and quick to gather fallen fruit, and will eat the earliest small windfalls that hogs will hardly touch, even though half starved. Almost every farmer keeps a few pigs to eat what nothing else will. He might well keep a few sheep for the same purpose with better assurance that they would not eat anything that could injure the quality of their meat.—Exchange.

Newberg Graphic: The CAPITAL Journal hits a large class of newspaper men with a wad of advice that would make them of much greater benefit if heeded, when it tells the editors of the Reform Journal and the Woodburn Independent to "get in and be of some use to somebody, and cease to destroy what capacity for usefulness they may possess." A personal newspaper fight is the nastiest thing on earth, and ought to be prohibited by law. If you can't agree with a man on any point, say so, give a reason for it, and let the matter drop. This is legitimate and right, but a persistent flinging of dirty epithets and compromising insinuations is not only an injury to the principals, but an insult to the readers who pay for something else.

Happy Hoosters.

Wm. Timmons, Postmaster of Idaville, Ind., writes: "Electric Bitters has done more for me than all other medicines combined, for that bad feeling arising from Kidney and Liver trouble." John Leslie, farmer and stockman, of the same place, says: "Fine Electric Bitters to be the best Kidney and Liver medicine, made me feel like a new man." J. W. Gardner, hardware merchant, same town, says: "Electric Bitters is just the thing for a man who is all run down, and doesn't care whether he lives or dies; he found new strength, good appetite and felt like he had a new lease on life. Only 50c. a bottle, at Fry's Drug Store."

Results often follow the use of Hood's Sarsaparilla. Severe cases of scrofula, upon which other preparations have been powerless, yield to the peculiar curative powers of this medicine. Distinguishing cases of dyspepsia, excrementary complaints of the kidneys and liver, agonizing itching humors, eruptions of the skin, discharges from the eyes, rheumatism, are cured by Hood's Sarsaparilla. It purifies the blood, and at the same time tones the stomach, creates an appetite, and gives strength to every function of the body. Give it a trial.

General Debility
For four years my wife was afflicted with large tumor lumps on the glands under the arms, and general debility of the whole system. She became so poor in health that we were on the verge of despair regarding her recovery. Physicians did not seem to understand her case, at all. Hood's Sarsaparilla, when the directions are strictly complied with, they are very effect was so marked and satisfactory that she continued to take it, and this is the result: She has gained in weight

From 24 to 30 Pounds
and is stronger and in better health than she has been for years. The lumps under her arms have diminished, and we believe her arms have been used to me much for her time in it." J. J. Nourcross 25 Commercial Street, Boston, Mass.

Hood's Sarsaparilla

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass.

The annual convention of the National Educational Association of the United States for the present year will be held at Toronto, July 14th to 17th, and as it will on this occasion be of an international character, it promises to be the most successful meeting of the series. Most of the railroads have agreed to give half rates, plus \$2 membership fee to all who attend the meeting, this rate being open to the public generally as well as to the teachers. The Canadians are making great preparations to welcome and entertain the visiting teachers, and numerous cheap excursions are being arranged to all important points on the great lakes, the St. Lawrence, and the sea side, after the convention, which will afford to teachers the best opportunity for enjoying their summer holidays they have ever had. The official bulletin, containing program for the meeting, railway arrangements, and all other particulars, is ready, and will be sent free to any one desiring it, on their dropping a postal card to Mr. H. E. Hull, Sec'y of the local committee, Toronto.

When calves are about one day old they are taken with cramps and scouring; eyes sink back in head, mouth becomes cold, they refuse to eat and soon die; have lost five. Cows are fed good hay, no grain until after they come in; are in good condition. F. O. W. Alleghany Co. N. Y. [Give one-third faxated tea and two-thirds milk at proper temperature. Give dose of castor oil. And give, three times a day, twenty drops fluid extract rhus aromatica. Scours come from a variety of causes, and we find it necessary to change treatment to suit circumstances.]—Country Gentleman.

Water was turned into the South Salem mains yesterday afternoon. The pressure now in the city mains failed to raise the water to the reservoir by several feet. If the reservoir on the hill is kept full, or partly full the city will have a stronger and steadier pressure than at any time in the past.
