HUMANE SOCIETY.—This organization held a meeting thro' its executive committee in the parlors of Ladd's bank, Thursday. There was a full attendance of the members, and several cases of reported cruelty to animals were considered and acted upon. A resolution was adopted asking the Salem papers to give notice that any cases of abuse, neglect or cruelty to animals, children, or unlawful killing of birds be reported to members of the society. A regular meeting of the society is to be held soon. The attention of all persons is called to the three sections of the Oregon statutes on page 952 of Hill's Code. The influence of this society is being felt by all classes.

EXCURSION TOMORROW.—One of the finest boats on the upper Willamette river has been charternd by the university band and will leave Salem at 7 o'clock tomorrow morning for Albany. To say a delightful time will be had is not to express the pleasure at all which is in store for those who can spare a day out of the city. The band found little difficulty in selling the required number of tickets enough to assure the financial success. There will be room for a few more in the morning. Those who are anxious to go had better secure their tickets tonight from any of the band boys.

WEDDING BELLS.—Invitations have been received in this city for the marriage of Miss Eva T. Earhart to Mr. Francis Henry Allston. The ceremony will be pronounced at the home of the bride's parents in Portland May 13th. The bride is a daughter of Hon. and Mrs. R.P. Earhart, and is well known in Salem where the family lived for several years. The groom is also well known here, having served as clerk in the office of secretary of state several years ago. He is now assistant secretary of the Northwest Inland and Marine Insurance company of Portland.

LAST NIGHT'S LECTURE.—There was a good audience out to hear Prof. Alexander last night, the opera house being comfortably filled. He gave an instructive address mingled with wit. A the close of the lecture he "matched" two couples and gave some facts about their capabilities and characters. He will give a lecture to ladies only tomorrow afternoon at 2:30. Saturday evening 8 o'clock he will lecture to gentlemen only. No admission will be charged to these lectures, but a collection will be taken.

ALL AROUND.—What you want in finding a place to trade is a store where you can get anything you want and can save some money on everything you buy. See Ben Forstner's prices on clothing in this paper.

GEORGE RICHES DYING.—This pioneer, who lives in the Waldo hills not far from Ralph Geer's was reported dying at noon today. Mr. Thos. Hubbard was sent for. He has been sick for some time.

PROF. ALEXANDER.—Saturday night Prof. Alexander will lecture at the opera house to gentlemen only and to ladies only at 2:30 p. m.

A SPECIALTY.—Ladies big and little will find very satisfactory lines of parasols and sun-shades at R. Lunn's. 5-8-Fr.

LIVES SAVED.—There are lives saved every day. Farrar & Co. are not in that business, but they save their customers money every day in the year.

FOR SALE.—Three-year-old bay carriage horse, Morgan stock, sound and gentle. C. BODENHEIMER, 130th street. 4-29-2w

AN OPPORTUNITY.—Children's silk cloaks positively at cost for ten days only, at Chas. Calvert's. 5 6tf

CITY LAW MAKERS AT WORK

The Awning Question Settled Without Amendment.

STREET PAVING DISCUSSED.

A Long and Enthusiastic Meeting of the City Council---A Work in the Right Di-Direction.

The city council met in the council chambers last night in pursuance to the adjournment of Tuesday night with the mayor in the chair and all aldermen present. The minutes of the previous meeting were read and the usual routine business was disposed of. The business awaiting the action of the council was then taken up.

The first matter to be brought up was the report of the committee on ordinances. This brought up the matter of awnings. Alderman Gray moved that the ordinance stand as now established. John G. Wright was called on and spoke against the ordinance which compelled the taking down of all awnings not self supporting and not complying with the ordinance as published. The matter was put to a vote and Hutton, Moores, Smith, Gray and Johnson voted for the law remaining in force and Brown and Lafore voted for the amendment. The law is now in effect and all awnings not complying with the law will be taken down.

The matter of putting in an electric fire alarm system was brought up and put to a vote and was lost by a vote of five to three. Salem will keep her present fire alarm system.

The paving question was brought up and discussed with all the vigor of the previous meeting.

The committee who went to Portland to examine the different kinds of paving reported what it had seen. The committee consisted of alderman Gray. Brown, and Lafore. They reported that they had made a careful examination of all the paved streets in that city and had come to the conclusion that the best thing for Salem to do at this time is to put down macadam, it being less experimental of all pavings.

They had found the bituminous rock highly spoken of, but it was very costly, averaging from $4.00 to $5.00 per square yard. The Belgian block in Portland they said cost from $2.25 to $2.50 per yard and adding to this the cost of a first-class Telford foundation the paving will cost when completed nearly $4.00 per yard. From what they learned vitrified brick made a durable and profitable pavement and the cost of putting it down was reasonable.

With the present opinion of the property owners on the matter of paving, the committee recommended the macadamized roads. This to be put down so as to make a foundation for any other pavement that might be put down later.

Alderman Hutton spoke forcibly against the report as submitted from the committee. He did not believe such a roadway was a paved street at all, and did not believe it would give satisfaction. He was in favor of advertising for three kinds of paving, macadam, vitrified brick, and Belgian blocks. He further believed to make a good macadamized road would cost nearly as much in the beginning as the brick paving. The first would need repairing every year, in a few years the city would have as bad streets as at present and would be out the cost of a first-class paving, and those who now favor macadam will look back with a censure on the present council.

Alderman Moores spoke against the report of the committee and against macadamized roads for streets. He said while in Portland he made the street paving question a specialty. He went to a number of the property owners and those who had seen the streets in Portland in all kinds of condition and the universal verdict was against macadam. Geo. L. Story said it was a nuisance and others told him they would not have it as a gift. He said it was not the pavement for Salem. He said he believed in putting down a pavement that would last, and he believed others than the abutting property owners should be consulted. For twenty-five years Commercial and State streets in the business part of the city had been improved largely at the expense of other property until it had become very valuable, and now it was nothing more than justice that these tax payers should have a voice in the matter. Without the patronage of others the property on these streets would be of no value. He favored vitrified brick as the best and most economical paving.

Eugene Breyman spoke on the question and was in favor of macadamized roads as the best for Salem at this time. T. McF. Patton and others spoke on the subject. All seemed in favor of some kind of permanent improvements, but the matter of expense entered largely into the subject.

Alderman Lafore was in favor of brick, but thought the macadam was the first step toward reaching some better improvements. Alderman Gray was of a similar opinion.

Mayor D'Arcy spoke briefly on the condition of the streets in Portland. He said he found the streets in that city in wretched condition. Pools of water stood on the sides of the best paved streets in Portland. He said the first thing to do in his opinion was to establish the proper grade. The best of paving on a poor grade would not be a good street.

A number of others spoke on the matters of a proper grade being established and all were of one opinion that such should be done.

The amendment of alderman Hutton that the city advertise for three kinds of paving carried.

OTHER BUSINESS.

The committee on accounts and current expenses reported favorably on the payment of the following bills against the city:

C. F. Royal	$ 10 00
Frank Baker	18 75
Wm. Staiger	5 00
Dugan Bros	4 25
C. F. Churchill	5 25
J. A. Bernardi	4 00

The petition for a croquet ground in Wilson avenue was referred to the Decorative Union.

The city surveyor submitted plans and specifications for a sewer thro' block 79. The proper grade not being obtainable on the block the surveyor was instructed to make a survey and estimate the cost of connecting a sewer with that on the next street.

In regard to vacating alley in block 47 the city attorney reported that it would soon be completed satisfactorial to all concerned. The report of the city surveyor was referred to the attorney for examination. The city attorney was instructed to inquire into the floating indebtedness of the city and have it bonded as per charter by the last legislature.

Alderman Moore reported that the matter of opening the Turner road south of the Southern Pacific depot would soon be complied with and a private way granted. The city treasurer was instructed to present all outstanding warrants to the council at their next meeting.

A new electric light was asked for at the intersection of Center and Twentieth street. Referred to committee on streets and public property. John Duncan driver of Tiger engine team, was granted a leave of absence. A petition was read asking for a sewer through block 18 and the University campus, referred. The Humane society recommended that the marshal be instructed to enforce the law against cruelty to animals.

The ordinance committee was instructed to draw up an ordinance extending the fire limits

E. J. McCaustland was appointed surveyor to act during the absence of Alonzo Gesner. A large number of bills against the city were referred to the proper committee. The council adjourned to meet in regular session.

LOCAL BRIEFS.

Hear the "Nine Muses" tonight.

Crook county sent to the state treasurer today the balance due the state for taxes, amounting to $2749.-90.

Everyone will enjoy the fine quartets tonight at the Decorative entertainment at the opera house. Admission 50 cents.

The "obscure organ" got there in its ten column treatment of President's day, and it cannot supply the demand for papers.

Hear the flower songs tonight at opera house given from flower screen. Very artistic and novel. Don't miss them. Tonight.

Don't forget Prof. Alexander's free lectures to ladies Saturday afternoon and gentlemen in the evening.

John Duncan, who has been a faithful driver of the Tiger engine team, was granted a leave of absence and will take a few weeks vacation.

A game of baseball is reported for Sunday between the Salems and the Nob Hills, of Portland, on the new grounds of the Salems, near the fair grounds.

Obscurity is as great a virtue as modesty for any newspaper when it comes to misrepresenting public officers.

Remember the excursion to Albany tomorrow. Secure your tickets of the Band boys. Tickets $1. Only a few left.

THE JOURNAL prefers to remain an "obscure organ," to gaining notoriety by misrepresenting even a Democratic Governor.

Mr. Purdy's four children left East Tawas, Mich., in a small sailboat Sunday for Port Austin, three miles distant. They were supposed to have been lost in the gale that afternoon, as nothing has been heard from the party.

The city recorder this morning disposed of two drunks at $12 90 each, or six days in the cooler; also one "vag," who will pursue his calling in the interests of the city for eight days.

The remains of W. M. Barbour, the Lebanon merchant, murdered for his money in Portland and thrown into the river, have been placed in a hermetically sealed casket, and will be shipped to London, Ontario, as soon as Mrs. Barbour can settle up her business affairs at Lebanon.

Richard J. Wilmot, a blind San Francisco musician, 51 years old, committed suicide Wednesday night. He closed up all the apertures in the room he had hired for the purpose, and turned on the gas. Sickness and the recent violent death of his son were the causes of his suicide. His son was stabbed and killed by a waiter in Oakland last January.

OPINION FROM EXPERIENCE.

The Paving in Other Cites—Vitrified Brick to Become the Material—Major W. H. Bonsall Talks.

Major W. H. Bonsall, of Los Angeles, was in Salem this morning and was interviewed by a JOURNAL representative on the paving question. Mr. Bonsall is now president of the city council of Los Angeles and was for severeal years chairman of the Board of Public improvements and for eighteen years has been connected with the public works. He is also a man of keen intelligence and a heavy property owner in that city. His experience has been valuable to his own city and his advice is worth something to Salem.

He said that about five years ago Los Angeles had just such streets as Salem and the paving question was agitating all that city. The city council decided to investigate the pavings in other cities and Maj. Bonsall was the man singled out to do the work. He visited all the Eastern states and Canada and came home and gave his report. The city then began paving with bituminous rock and granite block. The granite has not been satisfactory and none has been put down for several years. He says the bituminous rock have proved the best paving that they have used, and while they have streets equaled by few cities in the union, they are not entirely satisfied with them, and will this summer put in several miles of vitrified brick paving. He said in Los Angeles they sweep the bituminous paved streets every night and have to keep them sprinkled during the day; the continually keeping the rock wet rotted them and made them uncomfortable for teams.

He said that in his opinion in fifty years brick would be the only paving material in use. He based this opinion on several reasons. It is healthful as well as inexpensive and is durable and comfortable. It is not noisy and gives a firm footing for teams, which the bituminous rock does not do. He said he visited a city in West Virginia of as large population as Salem and found paving which had been used for eighteen years, and it was on one of the principal streets. This paving was made of ordinary building brick and after all these years of use was in good condition and looked as if it had been used but a few years. Similar examples were found in other cities, and in every case it had given satisfaction.

Mr. Bonsall says there are several styles of putting down any paving. An important point is to get the proper grade and contour of the street. When this is done a bed of sand is put on, then a layer of bricks is put down flat, and on these another layer is placed on their edges in fish-bone fashion. This makes a brick bed six inches thick and with the wear on an ordinary business street of Salem will last nearly half a century. He also says that many people have a mistaken idea of what kind of clay is required from which vitrified brick are made. He says a very poor quality of fire clay will make good vitrified brick. In his opinion the clay about Salem would do for the manufacture of paving brick. In looking through any brick kiln there are a large number of vitrified brick.

From the facts given by Mr. Bonsall it seems it will not be necessary for Salem to send 2000 or 3000 miles for brick to pave the streets should such material be adopted by the council.

City Warrants.

There are funds now on hand applicable to the payment of all city warrants "endorsed" before July 3, 1890. Interest will cease on the same from the date of this notice.

E. J. SWAFFORD, City Treas.
Salem, May 8, 1891. d6t

PERSONAL MENTION.

J. D. Lee, of The Dalles, is in the city today.

Miss Minnie Foley is home, from a two weeks visit in Portland.

Miss Amanda Schott went up to her home in Sublimity this morning for a few days' visit.

Miss Sue Harrington, of Portland, a member of the class of '90 of Willamette university, is visiting her sister, Miss Ruth, and paying her respects to her alma mater.

Mr. Lee F. A. Shaw, of Spokane, is visiting in Salem. Mr. Shaw is Grand secretary of the I. O. O. F. of Washington. He will go to Seattle next week to attend a meeting of the Grand Lodge.

What it Costs.

Must be carefully considered by the great majority of people, in buying even necessities of life. Hoods Sarsaprilla commends itself with special force to the great middle classes, because it combines positive economy with great medical power. It is the only medicine of which can truly be said "100 Doses One Dollar," and a bottle taken according to directions will average to last a month.

FOR RENT.—A chice double room in postoffice block. Inquire at JOURNAL office.

The last semi-term will open at the University Monday. The examinations of the academy classes were conducted taday. Four weeks from Sunday will be Baccalaureate day, and the week following the commencement exercises will take place.

Bucklen's Arnica Salve,

The Best Salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns and all Skin Eruptions, and positively cures Piles, or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price, 25 cents per box.

Struck the "Golden Mean" as a Blood Purifier.

Detroit Free Press: "Hibbard's Rheumatic Syrup, prepared by Wright Med. Co. of this city, has struck the Golden Mean in the treatment of blood diseases, and its success is evidence of that valuable medicine, is capable of attracting the attention of every family. There seems to be but one opinion as to its merit."

This is the secret of success of this remedy its action, in removing impure and poisonous matter from the blood. A thorough and effective blood purifier. For sale by Smith & Steiner.

DON'T

Buy a lot in

YEW PARK

Unless you want to build on it.

YEW PARK IS IN THE CITY.

The city water mains are laid through it. It is so near the Depot, University, Postoffice and business portion of the city that it is not necessary to ride, although the street cars run through it and leave every twenty minutes for Commercial street, North and East Salem. YOU CAN'T SPECULATE IN YEW PARK PROPERTY—the proprietors will attend to that; but you can buy a better home site there than in any other portion of the city for the same money. You will have no dust in Summer and no mud in winter. Its perfect drainage insures its healthfulness. The lots are large and many of them beautifully shaded with yew, fir, ash and oak. If you want to buy blocks of lots on speculation, and let them lie unimproved and let adjoining property make them valuable, don't patronize Yew Park.

It Isnot Built That Way

If you want to speculate on options or blocks of eight or ten lots, go out in the country, NORTH, SOUTH, EAST or WEST, or to the suburbs of Portland, Astoria or on the Sound, and invest in a paper town, or, what is better, buy a ticket in the Louisiana lottery, but keep away from Yew Park.

Lots sold at low prices on long time and easy terms to home seekers. 4-14

W. M. DeHAVEN,

Steam Printer Salem Oregon.

Timber and Timber Lands.

I have some fine timber land for sale. I also have three relinquishments to sell, of 160 acres each, that can be bought cheap in first class location; handy to R. R. I also have some very cheap lands that will not cost more $1.50 per acre when all paid up. I know of some good R. R. land that is very cheap that can be bought on very easy terms; Also of some very desirable Government lands that I can locate persons on homesteads or timber claims. Parties wanting to obtain Government lands will do well to come and see me as I am well posted in all of the land laws and latest decisions of the general land office and have had a long experience in the surveying business and have made this a careful study for three years and will guarantee satisfaction in every respect, can give the very best references. I have located over one thousand acres the last month and can be seen at my residence one block south of Cook hotel. Correspondence solicited. W. W. REPBURN,
