

PENSIONS. WASHINGTON, May 13.—Commissioner Hamm has written a letter to Secretary Noble, calling attention to the very material decrease in the payments on account of the pensions during the present fiscal year. The entire payments for the army pensions during the present fiscal year will not exceed \$116,000,000. The appropriation was \$125,769,093, and now it seems there will be left of this appropriation, at the end of the fiscal year, \$9,769,093.

NOT KEPT PRISONERS. PITTSBURGH, May 13.—Adjutant General McClelland has made a report to the governor that the charges that the men in the coke regions were kept prisoners and obliged to work against their will is untrue.

NOT UNDER CONTROL. BALDWIN, Mich., May 13.—The Forest fires are not yet under control. Thompsonville is threatened. The fires west of Manistee Junction is out and no more danger is feared in that direction. A number of people from the burned districts have asked the railway companies for transportation to places where they have friends, as they were not able to save more than the clothing which they wore.

THE DERBY. LOUISVILLE, Ky., May 13.—Special. The Derby was won by Kingman. Balgowna was second and High Tariff third.

MORE FOREST FIRES. ASBURY PARK, N. J., May 13.—A big fire was started today in the pine woods back of Asbury Park and is spreading rapidly towards West Elberton and Long Branch.

STATE. M. A. CANAN DEAD. CORVALLIS, Ore., May 13.—M. A. Canan, proprietor of the Occidental hotel, died suddenly of heart failure last night, aged 69 years. He was well known all over the coast.

FROM SHEDDS. SHEDDS, Ore., May 13.—Mrs. Carrie Young was found dead in bed this morning with a pistol shot in her temple. Evidently it is a case of suicide as a bottle of chloroform and poison was found on the stand by her bedside. No cause is assigned for the deed.

A YOUNG SCOUNDREL. PORTLAND, Or., May 13.—John A. Fowler, was married about six months ago to Lizzie Grannemann, a young girl of about twenty, who had accumulated a savings account of about \$500 or \$600.

With \$350 of this they bought some property on G street, between Twenty-seventh and Twenty-eighth, and settled down. The husband, however, preferring to spend his wife's money. When finally the sum was about gone, he concluded that there was other company he preferred to hers. On Saturday evening last, she came home from a friend's, and found something in the clock, which upon examination proved to be three notes, the first two to men in town, requesting them to each pay his wife \$3, which they owed him. The third was to herself, and read as follows: "Lizzie, I have gone off on a pleasure trip, and shall never come back. JOHN."

He has not been seen since. Some short time ago he induced her to sign a mortgage of \$125 on their homestead, and this money he took with him on his "pleasure trip," and also a fine guitar which Mrs. Fowler had recently purchased. Fowler is a young man of about twenty-one years of age, and was ostensibly learning the carpenter's trade, but never worked for any length of time, preferring to loaf and spend his wife's savings.

MARKETS. WHEAT. CHICAGO, Ills., May 13.—At close, wheat firm; cash \$1.06; July 1.02. SAN FRANCISCO, May 13.—Wheat, '91, after August first, \$1.95.

WEATHER REPORT. WEATHER BULLETIN. SAN FRANCISCO, May 13.—The forecast for Oregon and Washington. Light rains in western portion.

WILL CATCH THE ETATA.

The Charleston is Going 18 Knots an Hour.

THE PRESIDENT RECOGNIZES TRAYER.

Latest From Ireland, Blaine is Better, Hotel Man Dead, State and Foreign News, Etc.

EIGHTEEN KNOTS AN HOUR. SAN DIEGO, Cal., May 13.—The steamer Crescent City, plying to Cerros Island, off the Lower California coast, for a mining company, arrived last evening. She sighted the Charleston about 6 o'clock Monday evening, eighty miles south of here. This indicates the Charleston is making eighteen knots an hour. The Etata is expected to transfer the arms got from the Robert and Minnie to the Esmeralda at Socora Island south of Cape St. Lucas Sunday evening. The Etata took aboard about six hundred tons of coal here, and it is claimed, can steam fourteen knots on thirty tons per day.

When the Charleston was first sighted she was far out at sea. As soon as the officers on the war-ship caught sight of the Crescent City they changed their course, and made directly for her. As soon as the cruiser approached the captain of the Crescent City raised the American flag and saluted. The Charleston immediately turned at right angles and steamed away to the southwest, and soon disappeared beyond the horizon. The Crescent City officers reported seeing nothing of the Etata.

WILL CATCH HER. CITY OF MEXICO, May 13.—The Chilean steamer Etata is sailing under difficulty, and the United States war ship is gaining on her. It is expected the two will reach Acapulco within a few hours of each other.

NO NEWS YET. WASHINGTON, May 13.—No news has been received at the navy department up to a late hour this afternoon about either the Charleston or Etata.

THE CHARLESTON THE BOSS. BINGHAMPTON, N. Y., May 13.—Secretary Tracy in an interview with a republican reporter tonight, scouted the idea of the cruiser Charleston being inferior to the Esmeralda. True, the Esmeralda carried two nine-inch guns, while the Charleston's heaviest guns were only eight-inch, but the latter had a larger number of six-inch guns while her armament was four inches thick and the Esmeralda's only one and one-half inches. The Charleston was accordingly fully able to cope with the Esmeralda, as were two other United States cruisers now on the Pacific. The secretary stated definitely that the Charleston has orders to capture the Etata wherever she may be found on the high seas.

THE PRESIDENT. AKRON, Col., May 13.—The president and party passed through Akron, Col., last night. They were accompanied by George Colby, commanding the Nebraska state guard, and Col. Griffith, who brought a message of welcome from the state of Nebraska to the president from Governor Thayer, and reported for duty as special aides. The president accepted their services, and said incidentally that he should recognize Governor Thayer as the chief executive of the state.

AT LINCOLN. LINCOLN, Neb., May 13.—The presidential party entered the state early this morning. At Lincoln the president was welcomed to Nebraska by Governor Thayer. SECRETARY BLAINE. NEW YORK, May 13.—Secretary Blaine will probably return to Washington today or tomorrow. LATER FROM BLAINE. NEW YORK, N. Y., May 13.—Secretary Blaine is resting comfortable this morning. He has decided he would remain in this city for the balance of the week, before returning to Washington.

FINANCIAL. LIBRAN, May 13.—At 2:30 p. m. the financial situation is easier. The country is perfectly tranquil. FINANCIAL NOT POLITICAL. PARIS, May 13.—In an interview today a member of the Portuguese legation of this city declared the present crisis of Portugal is purely of a financial nature, that political sentiment had nothing to do with it.

FOREIGN.

INFLUENZA IN ENGLAND.

LONDON, May 13.—There is now seventy members of the commons, suffering from influenza. Fumigation of the Parliament building has been commenced.

FINED FOR WHISTLING. METZ, May 13.—A peasant at Dietschhofen, Lorraine, was brought before a magistrate a few days ago, charged with showing disrespect for the German authorities by whistling the "Marseillaise." The man contended that the march he had learned while he was serving in the Brunswick Hussars. The court made the police, who had arrested him, whistle to see if they knew the famous hymn, and then the prisoner was ordered to whistle the march he claimed to have learned in the hussars. It proved to be suspiciously familiar to the "Marseillaise," and the unlucky whistler was fined 15 marks for his indiscretion.

ABOUT IRELAND. LONDON, May 13.—The condition of the remaining evicted tenants in Ireland is said to be very bad, and something seems to be radically wrong with the administration of the funds. The tenants on the Glensharrold estate appear to have been subject to ill treatment, as they claim by the land league. One man who has been evicted for eight months has never received a penny from the land league funds. Others say that they were coerced into submitting to eviction and ruined by doing so, their farms being now a wilderness and their pockets empty. Many of them have received nothing since the 1st of November. The two Irish factions each blame the other for the situation. The tenants have nearly all made terms with the landlords.

Michael Davitt and wife have sailed from Queenstown for New York. Davitt intends to go to California. He will stop at Winnipeg for a time and will go thence to Idaho and San Francisco.

SPAIN MAKING A PROTECTIVE TARIFF. MADRID, May 13.—Several nations have notified Spain of their readiness to negotiate for a renewal of their commercial treaties with her. The Spanish government replied that they must wait for a report from the royal commission which was compiling a protective tariff whereon all negotiations must be based. Spain makes it known that she will insist on her colonies being excluded from any future treaty with European powers.

REPUBLICAN VICTORY IN SPAIN. MADRID, May 13.—The elections held yesterday for members of the councils general resulted in a republican victory in over forty leading cities, including this.

THE STRIKE IN BRUSSELS. BRUSSELS, May 13.—In the Liege district the strike is abating. Numbers of men are returning to work.

FROM HONOLULU. SAN FRANCISCO, May 13.—The steamship Australia arrived yesterday, seven days from Honolulu. A mysterious schooner, supposed to be the one which cleared from China with a cargo of opium, is reported to be cruising about Saual. The steamship Claudine returned to Honolulu May 4, after an ineffectual attempt to capture her.

Professor Brigham, in his report to the surveyor's office concerning the recent breakdown in the crater of the volcano of Kilanau says the entire fire area was gone. The peaks, cones and pools had vanished, and in their place was a pit crater of elliptical outline, 2500 by 3000 feet in extent. The walls were perpendicular and quite impassable. The estimated depth was 600 feet. The breakdown is slightly larger than that of 1886, and differs in that after a lapse of only three weeks molten lava has again appeared and the crater is filling up rapidly.

An inspection of the leper settlement at Mohakal by Queen Liliuokalani, on April 28, was the occasion of an affectionate greeting of her majesty by her unfortunate subjects confined there. The queen expressed much sympathy for their condition. She was accompanied by Prince Kalaniana'ole and 300 prominent people of Honolulu.

JEW IN DISTRESS. ATHENS, May 13.—Three thousand Jews are in deep distress at Corfu. Baron Rothschild and Hirsch are sending them relief. EXPULSION OF THE JEWS. BERLIN, May 13.—A correspondent of the Cologne Gazette telegraphs that all Jews are expelled from beyond the Caspian.

TO HEAL THE DIFFICULTY.

PARIS, May 13.—The Sicels today says that in spite of the rupture in the negotiations between President Balmaceda and the congressional party of Chile, France, the United States and Brazil intend to fulfill arbitrating the matter in dispute between the two contending factions. The Sicels adds that this task will be undertaken with every prospect of success.

BIG RIOT IN CHINA. SHANGHAI, May 13.—An anti-European riot has taken place at Woos Hoo. The natives burned the Catholic mission and a number of other European buildings. The Europeans have taken refuge upon vessels in the river. The British ship Inconstant has been ordered to proceed immediately to the scene of the riot and protect the lives and property of European residents.

The Patient and the Stage. Rev. F. M. Shrover, Pastor United Brethren Church, Blue Mound, Kan., says: "I feel it my duty to tell what wonders Dr. King's New Discovery has done for me. My lungs were badly diseased, and my parishioners thought I could live only a few weeks. I took five bottles of Dr. King's New Discovery and am sound and well, gaining 25 lbs. in weight." Arthur Love, Manager Love's Funny Folks Combination, writes: "After a thorough trial and convincing evidence, I am confident Dr. King's New Discovery for Consumption, beats 'em all, and cures when everything else fails. The greatest kindness I can do my thou and friends is to urge them to try it." Free trial bottles at Fry's Dispensary. Regular \$2.50, and a \$1.00. Try those in Tosey cream at Strong's.

Senator Dolph on Protection.

The unique banquet of the American Protective Tariff League at Madison Square Garden, New York, last week was characterized not only by American furnishings throughout—dishes, cutlery, tablecloths, napkins, viands, wines, cigars and menu cards—but by American ideas as well. Among the responses to the numerous toasts none were more than that of Senator Dolph, to whom was assigned the subject, "Protection as it Affects the Prosperity of the People and the Development of the Pacific Coast." From it we quote the following:

"As a great section of the Union, the Pacific coast shares in the general benefit of a tariff which protects home industries, stimulates enterprises, gives employment to labor and promotes national prosperity. Although as a manufacturing community it does not as yet compare favorably with many of the older sections of the Union, its people have for that reason probably a keener appreciation of the value of manufacturing industries, as evidenced by their efforts to secure manufacturing establishments. They know that with the existing disadvantages under which they labor, the removal of the protection now given to manufacturing industries would make the maintenance of their present manufacturing and the establishment of new ones impossible, and they look to the continuance of the republican policy of protection for the future development of these vast manufacturing industries which, on account of their commercial and geographical situation, the abundance of material and facilities for manufacturing, they have every assurance to reachably prosper."

"The growth and prosperity of the commerce of the Pacific coast is dependent largely upon the protection policy. It is protection which builds up the commerce between the states; which directs trade into domestic channels; which creates a variety of industries within the nation; the rapid and constant interchange of service between persons employed in different industries, and promotes the exchange of domestic products between the different sections of the Union. The most wonderful and valuable commerce in the world is between 65,000, 600 of people protected by the American tariff system. The increase of our foreign imports would mean not alone loss to our domestic industries and of labor to our workmen, but to our internal and interstate commerce."

"The people of the Pacific coast understand what is meant by a tariff for revenue only. The Mills bill, as an educational document, was a success. They have been taught that a tariff for revenue only would put on the free list nearly everything they produce—grain, vegetables, wool, fruit, coal, lumber, lead, would place the producers of the coast as to barley, vegetables, and mals, coal, lumber, in competition with Canada and other foreign countries; as to wool, in competition with the cheap labor product of Australia and South America; as to lead, in competition with the Mexican product; and as to fruit, with the West Indies and other cheap labor countries; and would reduce the price of everything they produce, while increasing the price of everything they buy from abroad. The Mills bill, which passed the house of the fiftieth congress, if it had become a law, would have destroyed our principal industries. It placed wool, lumber, coal and other articles produced on the coast on the free list. With such proposed legislation the democratic orators in vain attempted to make the people believe that free wool would increase the price of wool, and to refine upon the distinction of free trade and tariff for revenue only."

"The staple production of the states of the Pacific is wheat. There, as elsewhere, it is with the farmers that the efforts of the free traders are being directed. The purpose is to make them dissatisfied with their present condition, to magnify their grievances and to make them believe that their lack of prosperity is due to vicious legislation or to the lack of proper legislation, to show that free trade, the admission free from abroad of the articles they consume, is the panacea for all their ills. But it is not difficult to make manifest the fallacy of free traders—that we must admit the product of other countries if we wish to sell our surplus product to them. For years the market for surplus agricultural products abroad has been constantly declining, both as to demand and price, and it is evident to all intelligent and thinking men that our dependence in the future must be upon the home market. The time is not distant, I fear, when we will find no remunerative market abroad for any one of our principal agricultural products except cotton."

Don't Feel Well. And yet you are not sick enough to consult a doctor, or you refrain from so doing for fear you will alarm yourself and friends—we will tell you just what you need. It is Hood's Sarsaparilla, which will lift you of that uncertain, uncomfortable, dangerous condition, into a state of good health, confidence and cheerfulness. You've no idea how potent this peculiar medicine is in such cases!

AN OPPORTUNITY.—Children's silk cleans positively at cost for ten days only, at Chas. Calvert's, 541.

A new thing—No slight on quality.—At the Salem Cash Grocery.

FOR SALE.—Three-year-old bay carriage horse, Morgan stock, sound and gentle. C. BODENHEIMER, 20th street. 4-29-2w

The Great Spring Medicine—The Blood is the Life. I have been troubled with bad blood for some years, purchased two bottles of Hood's Sarsaparilla, which has cured me. As a blood purifier it has no equal. I take pleasure in recommending it as a tonic, alterative, and reliable "rheumatic remedy." VAL WORTH & SONS, 120 N. W. Second St., Easton Rapids, Mich. Sold by Smith a druggist.

SCROFULA. That impurity of the blood which produces unsightly lumps or swellings on the face of the neck; causes painful eruptions on the arms, legs, or nose, often causing blindness or deafness; is the origin of cancerous growths, or the many her manifestations usually ascribed to "humors;" and fastening upon the lungs, causes consumption, and death. Being the most ancient, it is the most general of all diseases or affections, for very few persons are entirely free from it.

How Can It Be CURED? By taking Hood's Sarsaparilla, which, by its remarkable cures it has accomplished, has proven itself to be a potent and reliable medicine for this disease. Some of these cures are really wonderful. If you suffer from scrofula or impure blood, be sure to try Hood's Sarsaparilla. Every spring my wife and children have been troubled with scrofula, sores breaking out on them in various places. My wife, by three years old, has been a terrible sufferer. Last spring he was one mass of sores from head to foot. I was advised to use Hood's Sarsaparilla, and we have all taken it. The result is that all have been cured of the scrofula, my little boy being entirely free from sores, and all four of my children look bright and healthy." W. B. ATTRETTOR, Passaic City, N. J.

Hood's Sarsaparilla. Sold by Geo. E. Good, Druggist, 300 Corn Street, Salem, Or.
