#### A STRONG PLATFORM.

U. S. Hall, president of the Farmers and Laborers Union of Missouri, recently stated as to what he was in favor of doing in 1892. He declared that he was not in favor of a third party ticket. He then declared what he was in favor of as follows:

"I will speak only for myself, not having had a full consultation with all of my brother officers of the State Union of Missouri, and will say that I will not vote for or support any political party that will declare itself against the free coinage of silver; nor will I vote for or support any political party that will declare itself against the increase of the volume of money in the United States.

"I feel that it is a right that every honest man should have, whether he be a creditor or a debtor, that the creditor should be allowed to pay his debts with the same volume of money per capita in a circulation as at the time of the contracting of the debt. Now, since the contracting of billions of dollars of debts by the Western people the volume of currency has been diminished, thereby increasing the volume of their debts, or what is equivalent to the same thing, lessening their power to pay these debts."

But Mr. Hall destroys all the above good resolutions by elevating the tariff question above the finance question. He confesses the weakness of his position on this point by saying what he does.

#### FRUIT GROWERS' ATTENTION.

Unless fruit growers are positively averse to learning in the most practical way the facts about their own business, there ought to be a large attendance at the court house next Saturday. No men have so much to gain and to learn by intercourse of ideas as the fruit growers.

In nearly every orchard are some trees that are dead or dying. Perhaps they are only frosted, and may come out later. In one 200 tree orchard near Salem, are forty trees in this condition. They are worth \$400. If they are dead the loss is serious. They will bear no crop this year if not dead. What alls them? Let the fruit men consider.

#### WESTERN OREGON IS SURE.

We have had a week of cool cloudy weather, that is just the making of grain crops, spring wheat especially. The moisture and extraordinary conditions for vegetation have made some fall wheat so rank that the self-binders will have to be put up on an elevated track to cut it and handle it. Oregon—that is the Willamette valley and western part—is sure of an immense crop and prices promise to be good. Is there a region where crops are any surer than this? If there is it has not been heard of.

#### Italians and Crime.

MR. EDITOR:—Since the tragedy at New Orleans, that has set the world on the qui vive, and has given Italy a spasm of "virtuous indignation," I have, very naturally perhaps, noticed in criminal reports the preponderance of Italian criminality. Time and again I have read of miscreants who have killed their own families, or have butchered their own companions. Evidently, Italy has furnished us thousands, and ten of thousands, of the worst cutthroats and desperadoes of Europe, and Italy herself can bear off the palm for such evil doers, above all the civilized world. It is fortunate this occasion has waked our people to realize that we have given away our birthright to millions of the very off-scouring of creation and it is time this thing was stopped. The lesson will not be lost if we awake to a realization that America is being made the dumping ground for the worst of European humanity, and take steps to prevent it.

As for Italy, and her sarrago about protecting her citizens, it is certain the National sentiment will be satisfied if King Humbert's government is made plainly to understand that Italy has sent over the worst and violent element of population we have among us, and instead of reflecting upon our national respectability in an odious way, the New Orleans people calmly and knowingly performed an act that common justice demanded, and that perjured officials and demoralized courts could not perform.

In other words; our government would put a stigma on that class of immigration, to make Italy blush for sending it here, rather than to cause Americans to blush for sending them where they belonged.

As to foreigners not being safe in our country: A tragedy of the same nature that took place in Pacific county, Washington, quite recently, shows that the animus of our people is to render justice, when it is tardy,

irrespective of nationality. Ross and Edwards were Americans, and the Fredricksons were Scandinavians. When the people there were satisfied that Ross and Edwards murdered Fredrickson and his wife, to get their land, and that because the principal witness was spirited away the murderers were likely to escape punishment, they vindicated their ideas of "justice," and avenged the murder by doing exactly what the New Orleans people did, under very similar circumstances.

Nor our people have no race prejudices to gratify, but we see within a month's space of time in districts three thousand miles apart, at the mouth of the Mississippi and near the mouth of the Columbia, how a great popular sentiment of "justice" vindicated itself under very similar conditions. At New Orleans an officer of our country and of our race was murdered by Italian cutthroats and the people executed "justice" by a popular rising in broad day, because they knew that juries were terrorized and courts overruled by fear of the Italian Mafia.

Here, on the North Pacific, we see the murder of honest foreigners avenged on native born Americans, when the people realized that "justice" was about to fall.

Both these acts of illegal violence were, in a strong degree, honorable to our country and our people. H.

#### The Pull-it and the Stage.

Rev. F. M. Shront, Pastor United Brethren Church, Blue Mound, Kan., says: "I feel it my duty to tell what wonders Dr. King's New Discovery has done for me. My lungs were badly diseased, and my parishioners thought I could live only a few weeks. I took five bottles of Dr. King's New Discovery and am sound and well, gaining 25 lbs. in weight."

Arthur Love, Manager Love's Funny Folks Combination, writes: "After a thorough trial and convincing evidence, I am confident Dr. King's New Discovery for Consumption, beats 'em all, and cures when everything else fails. The greatest kindness I can do my thousand friends is to urge them to try it." Free trial bottles at Fry's Drugstore. Regular sizes 50c. and \$1.00.

#### The Louisiana Lottery.

The people of Louisiana will vote upon the final fate of the monster New Orleans lottery next spring. The decision of the supreme court of that state compels the secretary of state to publish the act of the legislature submitting the issue to a vote of the people. The question will be before the people in the shape of an amendment to the constitution of the state providing a franchise to the company to run for a quarter of a century. The lottery company is to pay a certain annual sum into the state treasury for the franchise. Oddly enough the money obtained by fostering and protecting this moral monster is to be applied to the education of the innocent little children of the state. How very philanthropic vice is. The money it pays for the privilege of carrying on its traffic must nearly always be applied to very good if not holy purposes. It is one of the artful ways of vice and the friends of the lottery will make most of it next year. The decision just rendered, and which assures the issue next spring, was against the position taken by the governor and secretary of state, both democrats, but both opposed to the continuance of the lottery. The democratic party will be divided upon the question in the election.—Iowa State Register.

My friend, look here! You know how weak and nervous your wife is, and you know that Carter's Iron Pills will relieve her, now why not be sure about it and buy her a box?

A woman who is weak, nervous and sleepless, and who has cold limbs and feet cannot feel and act like a well person. Carter's Iron Pills equalize the circulation, remove nervousness, and give strength and rest.

A man's wife should always be the nurse, especially to her husband, but if she is weak and nervous, and uses Carter's Iron Pills, she cannot be, for they make her "feel like a different person," so they all say, and their husbands say so too!

#### MISCELLANY.

##### STRIKERS IN BELGIUM.

LONDON, May 14.—Yesterday's dispatches state that great excitement exists in Brussels. The workmen are determined to hold their parade in defiance of the city authorities, and the burgomaster is equally stubborn. The troops are in readiness to suppress any outbreak, the gendarmes having spent all night under arms. The working people of Ghent are out in force today, and similar demonstrations are reported in various cities in Belgium. The troops on the Belgian frontier adjoining France have captured a large quantity of circulars printed, it is thought in England. These circulars appeal to the people to strike a blow for liberty and not be any longer the slaves of oligarchy.

The leaders of the strike at the Westphalia mines, who were put under arrest when the strike movement began, have been released without trial. The mines are in such a dilapidated condition that production in large quantities will not be possible for several days to come. Government inspectors are busy examining the mines and ascertaining what, if any danger exists. The workmen of Bochum not engaged in coal mining have subscribed sums of money for the benefit of the poorer miners who, in the midst of plenty, are actually starving. The surrender of the miners is due to this fact. Dr. B. Fasset, who is charged with the administration of the mines, is quoted as saying that the safety of the miners is here more carefully attended to than in Germany, which is the reason that the county is comparatively free from great mining calamities.

##### CUTTING RATES.

CHICAGO, May 14.—It is evident that tourist rates will be established throughout a considerable portion of the Northwestern territory, notwithstanding the deadlock in the Western Passenger Association on the question of their general adoption. Representatives of the Northwestern lines met at Chairman Finlay's office yesterday morning to consider the Wisconsin Central's application for relief from the inequality caused by the issue of tourist tickets by the Milwaukee, Lake Shore & Western, to become effective May 15. The road, which is not a member of the association, has announced a round trip rate of \$15.50 between Milwaukee and Ashland, which, added to the round-trip rate of \$4.50 between Chicago and Milwaukee, makes a rate of \$20 from Chicago to Ashland and return, which is \$4.50 below the tariff. Chairman Finley decided to give the Wisconsin Central authority to meet this rate. It can hardly be doubted that other roads will not ask permission to make tourist rates to other Northwestern points that are in competition with Ashland, and the reduction will spread. The Chicago & Alton, however does not object to the making of these rates in the Northwest. It only insists that rates between St. Louis and St. Paul shall be no lower, proportionately, than between St. Louis and Chicago, and St. Louis and Kansas City.

##### ASHAMED OF HIS WIFE.

NEW HAVEN, Conn., May 14.—The efforts of Dr. William H. Hotchkiss, the famous oculist to legally rid himself of his young and pretty wife, have caused a big scandal in the state courts and have been happily defeated. In 1880 Dr. Hotchkiss, whose family is wealthy and aristocratic, went to Germany to consult a famous specialist. While there he met Gertrude Von Blochum, a pretty little orphan, and secretly married her. During the year he was abroad, the two lived happily together, but he returned home alone, promising to send for her. Arriving here, he noticed a wide difference between the polished circle of his family and his friends and his uncultured wife, and decided to let her stay abroad. He consequently stopped all communication with her; but the plucky little woman, thinking something must have happened to him, started out on his track. She traced him for three years, as he had lived under an assumed name, and when she found him she was so rejoiced that she was willing to seek employment as a teacher, satisfied to be near him.
