OHIO FARMERS' UNION. COLUMBUS, Ohio, May 28.—The farmers' union of Ohio in convention yesterday discussed the third party movement, and a proposition to name an independent ticket was defeated, 33 to 64. THE GREAT NORTHERN. ST. PAUL, May 28.—W. T. Wood, late of the Washington Improvement company, has been a visitor at the railroad offices. In speaking of the proposed route of the Great Northern through the Cascade mountains, Mr. Wood says he believes that Skagit pass will be selected as the most practicable and expeditious of any yet proposed. There is no doubt but that the chief engineer has located the route, and Skagit pass is more direct, and contemplates less engineering difficulty than either of the others from Colville, the present terminus of the Spokane & Northern. The Great Northern, if it tunnels the Cascades by Skagit pass, will strike Chelan lake and then run down the Skagit river, tapping a fine and fertile country. This line would shorten the distance from St. Paul to Puget sound by fully 400 miles.

BURIED ALIVE. SEATTLE, May 28.—Peter Johnson, a Swede, was killed yesterday by being buried alive in a sand pit on 14th street. He was working alone, and a teamster hauling sand left him digging in the pit. When he returned, Johnson had disappeared. Searchers found where the sand had caved in, and after digging two or three feet came upon Johnson's head. He was standing erect, and there was no sign of life in his body.

THE GIRL ACQUITTED. NEW YORK, May 28.—The jury in the case of Paspuelena Rubertello, the Italian girl who shot her lover to death, because he outraged her, and refused to keep his promise of marriage, yesterday brought in a verdict of not guilty. ### ESMERALDA LEFT ACAPULCO

#### The Captain of the West Indian Mad at San Francisco.

#### PLENTY HORSES ACQUITTED.

A Tornado in Oregon and Idaho, Interview with Baron Hirsch, Valuable Stock for Japan. The Charleston at Callao, Etc.

THE ESMERALDA COALING. NEW YORK, May 28.—An Acapulco dispatch says: "The Esmeralda has frightened the authorities of this town to such a degree that at 6 o'clock this evening the Chilean warship was coaling. She will probably leave here tomorrow."

THE ESMERALDA GOT COAL. WASHINGTON, May 28.—Dr. Sotelo, the Venezuelan minister here, informed the Associated Press that dispatches received today from reliable sources in Mexico state that the Mexican government ordered the insurgent Chilean cruiser Esmeralda to leave the harbor of Acapulco. The commander of the vessel said he was willing to leave, but his ship had no sails and could not depart without steam power. The government then allowed the Esmeralda to take enough coal to carry the order into effect. She received 250 tons, her ordinary consumption being 50 tons per day. The Esmeralda sailed on the 26th instant, immediately after receiving her coal allowance.

CHARLESTON AT CALLAO. WASHINGTON, May 28.—The navy department last night received the first news from the Charleston since she left Acapulco the first of last week in the continued pursuit of the Etata. When the vessel failed to touch Panama within the time expected, the department said it was very probable it had been decided to keep straight on down the coast, and that the Charleston would be heard from at some Peruvian port. This prediction is fulfilled, for the port at which the Charleston announced her arrival is Callao. The whereabouts of the Etata are as far from being known as before, for Captain Remy reported he had seen nothing of the Etata in the cruise down the coast. The Charleston will join the squadron under Admiral McCann, in Chilean waters, and it is surmised a report will at no very distant date come from thence, announcing the peaceful surrender by the insurgents of the elusive craft, which the United States government will libel and perhaps forfeit for violation of the neutrality laws.

STEAMER WEST INDIAN. SAN FRANCISCO, May 28.—A Victoria, B. C., special says: "In view of the treatment of the steamer West Indian on her last call at San Francisco, Captain Scott is now arming his crew. The steamer being a reserve cruiser is entitled to full complement of munitions of war. Captain Scott says he does not propose to allow the lives of his passengers to be endangered by a mob each time he visits San Francisco."

THE WEST INDIAN IS THE STEAMER from which a number of union sailors here attempted to take a non-union crew several days ago. The police assisted the captain at the time in restoring order. PLENTY HORSES ACQUITTED. SIOUX FALLS, May 28.—Plenty Horses has been acquitted of the murder of Lieut. Casey. The judge charging the jury to that effect.

TORNADO IN IDAHO. PAYETTE, Idaho, May 28.—A wind storm prevailed here yesterday afternoon. The large livery barn of Williams & Patue was demolished. Ten head of horses and several men were in the barn at the time. One of the men was afterward found unconscious in the debris badly injured, but it is thought he will recover. Several people were slightly injured. Damage about \$5000.

BARON HIRSCH INTERVIEWED. PARIS, May 28.—Baron Hirsch in an interview regarding his plans for amelioration of the conditions of the Hebrews in Russia, said: There were two ways to do it, the first plan, is to acquiesce in the cruelities perpetrated daily in his name. The baron said he was convinced an appeal to the czar's sentiments of justice and humanity, will not be in vain. The other plan is that some order and method should be established in expelling Hebrews from Russia.

VALUABLE STOCK FOR JAPAN. PORTLAND, May 28.—On board the German iron steamship Pempton, Captain Johansen, which sailed from here, are seven horses and a Jersey cow, bound for Yokohama. They were purchased at Eminence, Ky., from a famous stock farm, by W. A. Foster, of Yokohama, who with his wife have been East and are now returning home on the Pempton. These are all thoroughbred and valuable animals, consisting of two trotting stallions, one running mare, one span of driving horses, one trotting gelding and one running horse. They are carried on the lower deck, each a padded box or stall, and every precaution is taken to secure their safe transit.

CYCLONE AT ARLINGTON. ARLINGTON, Or., May 28.—At 2:30 p. m. Tuesday a cyclone of unparalleled severity coming from the south struck this town, completely demolishing several buildings and seriously damaging many others. The large general merchandise store of D. S. Sprinkle collapsed under the full force of the terrific gale, burying in the ruins Mr. Sprinkle, his wife, and N. R. Baird, of Fairhaven, Wn., who happened to be in the store at the time. They were extricated after considerable difficulty, when it was discovered that Mrs. Sprinkle was injured internally. Mr. Baird has sustained severe injuries to his head and back. Mr. Sprinkle fortunately escaped with a few bruises, but is considerably shaken. The large building used as a skating rink and opera house, owned by L. O. Ralston, is in ruins. This is the worst cyclone known to have occurred in this section of the country. It is feared that considerable damage has been done throughout the country.

CARELESSNESS. PORTLAND, May 28.—A lady, whose name was not obtainable, was seriously injured at the corner of Seventh and Yamhill, at 2 o'clock yesterday afternoon, by being struck on the head and face by a falling board. The building is owned by J. R. Foster, and is being erected by Contractor Lee, whose carelessness in failing to protect pedestrians is culpable. The lady was saved from falling by a gentleman who was passing at the time, and after having her wounds dressed, she was sent home. The board produced an ugly gash under the left eye and on the left side of her head.

If this is not known, then the description of the land should be given by sections, township and range, so as to enable the register to find whether or not the patent is in the office.

It was decided to deprive him of his privilege as congressman and surrender him to the courts.

AT EPSOM. LONDON, May 28.—At Epsom Downs today the most interesting event was the race for the Epsom grand prize, for three-year-olds. It was won by Benvenuto. St. Kilda was second and Ordinance third.

THE BEHRING SEA. LONDON, May 28.—Goschen, Chancellor of the Exchequer in the commons this afternoon gave notice the government would introduce a bill Monday next which would prohibit British subjects from catching seals in Behring Sea for a period the extent of which will be stated later.

General Debility. "For four years my wife suffered with large tumor bunches on the glands under the arms, and general debility of the whole system. She became so poor in health that we were on the verge of despair regarding her recovery. Physicians did not seem to understand her case; at all events she never derived any benefit from their treatment. She finally concluded to try Hood's Sarsaparilla. The immediate effect was so marked and satisfactory that she continued to take it, and in a few days she had gained in weight and strength, and in better health than she has been for years. The bunches under her arms have diminished, and we believe Hood's Sarsaparilla will be too much for them in time." J. J. NORCROSS, 226 Commercial Street, Boston, Mass.
