Emperor Alexander has recently asked in the matter of refunding the Russian debt. Inquiry in this city fails to verify the rumor that this boycott, which is said to have originated on the Continent, has any existence on this side of the water. However, as Russian securities are not handled in this country, New York bankers might not be thoroughly posted as to whether or not such a boycott is on foot.

A LION AND A BOY.

ATLANTA, Ga., June 5.—Superintendent John A. Mosheler, of Grant Park, had a terrible battle with a Mexican lioness yesterday afternoon. He was fighting for the life of Inman Bell, a 4-year-old boy. Mrs. Bell, accompanied by her boy, was standing at the railing near the animal's cage when Mosheler came by on the inside of the railing. Mrs. Bell asked if the baby lions could be seen, and to please the boy the superintendent picked him up in his arms, walked to the cage and let him look through the cracks. Mosheler started to move around to the other side, to give him a better view. Being inside of the railing, he had to pass within three feet of the lioness' cage, which was next to the one containing her cubs. Suddenly the lioness stretched out her paw between the bars and made a stroke at the boy. The blow fell short, but caught in his clothing. Before Mosheler could move, the little fellow had been pulled up to the enraged beast. With a snap she seized one of his hands in her mouth. Mosheler threw his free hand against the cage and diverted the animal's attention. The lioness then let go of the boy and clawed the superintendent's hand. Spectators then rushed to the cage, and with walking sticks, umbrellas and rocks, beat upon the bars and the head of the lioness. With a growl she released her hold of the child and turned to meet her new enemies. The almost destracted mother clasped her son in her arms and rushed to her carriage. The boy was bleeding from his neck, side and arm. His injuries are not fatal.

WHISKY DEAL.

CHICAGO, June 5.—A gigantic deal, the negotiation toward which has been carried on for the past week, was consumated last evening. By the papers, which were signed, the whisky trust has acquired outright the only anti-trust establishment in the West, the great Chicago distillery, owned by Shufeidt & Co., and the Calumet Distilling Co. The Shufeldt distillery is the one that partly burned, and for the attempted blowing up of which by dynamite some weeks ago, Geo. J. Gibson, secretary of the whisky trust, is now under indictment. The sale of both plants included real estate, machinery, patents, etc., in connection with the purchase of the whisky trust, directors disclaim any intention to advance prices. They absolutely refuse to give the purchase price, but it is said the deal involves about two million dollars.

A LADY EXPLORER.

The Methodist Convention at Portland Adjourns.

The Prince of Wales Scored, The Bear Had Fun, The Behring Sea Seals, Did They get all the Arms, State and Foreign News, Etc.

FIRST LADY EXPLORER.

NEW YORK, June 5.—Probably the first American woman who has ever made a trip to the Polar regions will be Mrs. Peary who will accompany her husband, Lieut. R. E. Peary of the United States navy, who has been placed in charge of the expedition to be sent out by the Academy of Natural Sciences of Philadelphia, on his proposed exploration of Greenland.

CONVENTION ADJOURNED.

PORTLAND, June 5.—The convention of Methodists, composed of representatives from Oregon, Washington and Idaho, which has been in session here for the past three days under the presidency of Bishop C. H. Fowler, adjourned today. The general question of higher education in the Northwest was considered before adjournment. A resolution was adopted providing for a commission consisting of twenty ministers and laymen from the district represented, and three bishops, to unify the educational interests of the church in the Northwest.

FUN FOR THE BEAR.

ROCHESTER, June 5.—John Robinson, who runs a menagerie at Ontario Beach, on the shore of Lake Ontario, went to Buffalo a few days ago and bought a bear. Bruin was shipped on the Lyons accommodation train. The animal was in a crate of rough boards, and was seemingly secure. When the train was nearing Chritenden, the messenger noticed that the bear was uneasy, and soon was terrified to see the animal burst out of the cage and come at him, growling furiously. Tygart made a dash for the door of the car with the bear in close pursuit, but the messenger got out first and slammed the door behind him. He crawled upon the tender and over to the locomotive and there he stayed till the train reached here. In the car were several barrels of fish, crates of berries, crocks of butter and some boxes of fancy crackers, and the bear proceeded to make an elaborate lunch of them and to amuse himself by tearing open and destroying the express packages. By the time the train reached Rochester, the interior of the car looked as if a cyclone had struck it, while the bear was smeared from head to tail with butter and still growling furiously. The car was sent on to Ontario Beach, and at a late hour last night all efforts to get him out had been unsuccessful.

If this is true the Etata has managed to dispose of just that many rifles and 2,500,000 cartridges, as the number of Remingtons landed on Long wharf, Oakland, was 10,000 instead of 5000.

The Spring Medicine

The popularity which Hood's Sarsaparilla has gained as a spring medicine is wonderful. It possesses just those elements of health giving, blood-purifying and appetite-restoring which everybody seems to need at this season. Do not continue in a dull, tired, unsatisfactory condition when you may be so much benefitted by Hood's Sarsaparilla. It purifies the blood and makes the weak strong.

LONDON, June 5.—A Valparaiso cable says that the president is about to make another effort to bring Iquique to surrender. The rebel General Urtutia, the only Chilean general who proved unfaithful to the established government, is scouring the provinces held by the rebels for recruits, and in many instances men have been shot for refusing to enlist. The rebels are attempting to organize an army with a view to a forlorn-hope march on Santiago. Balmaceda, however, has within immediate call for defense of the capital a force of about 25,000 men, including 1200 cavalry and six batteries of field artillery. The Balmaceda government has promised compensation for foreign vessels injured during the recent attack on Magalanes, an insurgent warship at Chanaral harbor.

OUR TRADE WITH CANADA.

OTTAWA, Ont., June 5.—The first installment of a paper dealing with the Washington reciprocity negotiations has been laid before the Dominion parliament. When Newfoundland, negotiated, Sir Julian Pauncefote cabled the colonial office that Canadian opinion should be invited simultaneously. Sir John MacDonald communicated with Sir Chas. Tupper, urging him to enter objection on the ground that it would be injurious to Canada and violate the imperial policy on considering the Atlantic fisheries as a whole. The letters, which indicate the attitude of Mr. Blaine toward Canada's proposal, are missing. For publication of these, permission has not yet been obtained. One interesting communication is dated January 23, from Lord Knutsford, colonial secretary. He says Newfoundland ministers are willing to negotiate for arrangements with Canada on a basis similar to the United States, and her majesty's government strongly hope the Dominion will on this understanding withdraw its opposition. The reply to this is not given.

The most important communications are reports by Sir Charles Tupper of an interview with Mr. Blaine. Tupper gives details of the first talk with Mr. Blaine, in company with Pauncefote, and says:

"I told Mr. Blaine I wished at the outset to recognize the accuracy of the statement contained in his letter to Pauncefote, which I had seen in refernce to the invitation to open negotiations regarding reciprocial trade arrangements between the two countries, in that I believed it arose from negotiations which had recently taken place between the United States and Newfoundland, and the desire expressed by Canada to be included in arrangements such as has been understood to have been contemplated by the United States and Newfoundland, and that upon that being communicated to him by Sir Julian Pauncefote, he had expressed his willingness to open negotiations for reciprocity trade arrangements between Canada and the United States, assisted by delegates from the dominion government. Negotiations are to be informal, and to certain extent of a confidential nature until they could assume a more formal character, if any result were arrived at. Mr. Blaine said he understood Canada had taken exceptions to the proposed arrangements with the United States by Newfoundland. I admitted such was the case, and explained that the interest of Canada and Newfoundland had always been regarded as inseparable. I told Mr. Blaine I wished to remove the idea, if he entertained it, which had been promulgated in Canada and the United States, that the present government of the dominion was not warmly in favor of the most friendly relations with the United States."

Sir Charles Tupper says that after postponement of the conference at Washington on account of the absence of President Harrison, a date was later fixed for October 12, next. In conclusion, Sir Charles says. "I may add, after carefully thinking over all that has occurred, I consider there is good reason to hope that fair arrangements may be made with the government of the United States in relation to the important question contained in Lord Stanley's dispatch to Lord Knutsford, of the 13th of December, 1890."

SCORES WALES.

CARDIFF, Wales, June 5.—The Methodists of South Wales have adopted a resolution expressing regret at learning that the Prince of Wales took part in a game of baccarat at Tanby court, it adds: "We respectfully submit to his royal highness that by his conduct he offends the religeous sense of the people and drags the royal house from the high position in which it has stood and tends to lessen the loving and devoted affection to the throne which has ever been cherished by us."

HAS PASSED THE COMMONS.

LONDON, June 5.—The bill providing for the issue of an order of the council prohibiting the taking of seals in Behring sea by British subjects has passed the commons notwithstanding the opposition to it.

A Miracle of the Nineteenth Century.

Owing to a bad state of the blood, I have been afflicted with rheumatism for twenty years. I have expended large sums of money for remedies recommended to me, and from using powerful liniments, my hip and knee had lost nearly all strength. When I commenced to take Hibbard's Rheumatic Syrup I could not take one step without the aid of a cane. I can now move with ease, and walk without my cane. I am relieved of terrible affliction and wish I might herald to all afflicted with rheumatism and other blood diseases, the merits of this wonderful medicine.

How's Your Liver?

Is the Oriental salutation, knowing that good health cannot exist without a healthy Liver. When the Liver is torpid the Bowels are sluggish and constipated, the food lies in the stomach undigested, poisoning the blood; frequent headache ensues; a feeling of lassitude, despondency and nervousness indicate how the whole system is deranged. Simmons Liver Regulator has been the means of restoring more people to health and happiness by giving them a healthy Liver than any agency known on earth. It acts with extraordinary power and efficacy.

NEVER BEEN DISAPPOINTED.

As a general family remedy for dyspepsia, Torpid Liver, Constipation, etc., I hardly ever use anything else, and have never been disappointed in the effect produced; it seems to be almost a perfect cure for all diseases of the Stomach and Bowels.
